## SETUP INSTRUCTIONS

1. **Preparation:** Ensure the product is set up in an area cleared of debris or anything that could cause a tear or puncture.
2. **Locate Valves:** Identify the 2-in-1 inflation/deflation valves on both the lounge chair and the ottoman.
3. **Inflate Lounge Chair:**
  - a. Make sure the exhaust valve cap is securely tightened.
  - b. Pull the valve cap to open the inflation valve.
  - c. Insert the nozzle from an air pump (not included) into the inflation valve.
  - d. Inflate the lounge chair to approximately 80% of desired firmness. Do not overinflate.
  - e. Close the valve cap securely after inflation.
4. **Inflate Ottoman:** Repeat steps 3b-3e for the ottoman. Inflate to approximately 80% of desired firmness.
5. **Final Adjustment:** Allow the material to stretch slightly. Add more air if needed to reach desired firmness, ensuring the product remains stable and comfortable.

## MAINTENANCE

---

Proper maintenance will extend the life of your Intex Inflatable Ultra Lounge and Ottoman.

### Cleaning:

- Wipe clean with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners.
- Ensure the product is completely dry before storing to prevent mold or mildew.

### Storage:

- To store, fully deflate the lounge and ottoman by opening the 2-in-1 valves and allowing air to escape. You can gently press on the product to aid deflation.
- Fold compactly and store in a cool, dry place away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Lounge/Ottoman deflates quickly.	Valve not securely closed or a puncture.	Ensure all valve caps are tightly sealed. Inspect the surface for small holes or tears. Use a repair kit (not included) for punctures.
Product is not firm enough after inflation.	Insufficient air or material stretching.	Add more air until desired firmness is achieved. Note that new inflatable products may require additional inflation after initial use as the material stretches.
Unpleasant odor from new product.	New material odor (Polyvinyl Chloride).	Allow the product to air out in a well-ventilated area for a few days before use.
