MAINTENANCE

As a fragrance oil, the Across The Universe Pro Pod requires minimal direct maintenance. The primary maintenance will involve the diffuser unit itself. Refer to your Aroma360 diffuser's instruction manual for detailed cleaning and maintenance procedures.

- Store the fragrance oil bottle in a cool, dry place away from direct sunlight when not in use.

- Ensure the cap is tightly sealed to prevent evaporation and maintain fragrance integrity.
- Avoid spilling the oil on surfaces, as it may cause damage or discoloration. Clean any spills immediately.

TROUBLESHOOTING

If you encounter issues with the fragrance oil or its diffusion, consider the following:

- **No Scent or Weak Scent:**
 - Ensure the fragrance oil bottle is correctly inserted and sealed in the diffuser.
 - Check the oil level in the bottle. If low, replace with a new Pro-Pod.
 - Verify that your diffuser settings (e.g., intensity, schedule) are configured correctly.
 - Clean your diffuser according to its manual, as residue buildup can affect performance.
- **Oil Leakage:**
 - Ensure the Pro-Pod bottle is securely tightened and properly seated in the diffuser.
 - Inspect the bottle for any visible damage or cracks. If damaged, discontinue use and replace.
- **Unusual Odor:**
 - Ensure the oil has not expired or been contaminated.
 - Clean the diffuser thoroughly before inserting a new fragrance.

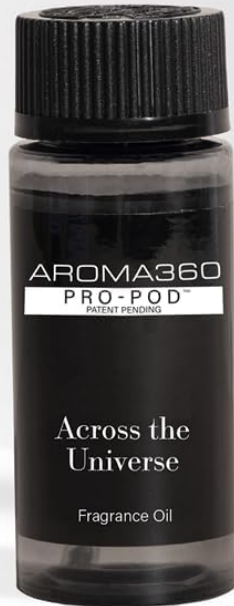

For persistent issues, refer to your Aroma360 diffuser’s specific troubleshooting guide or contact Aroma360 customer support.
