## 1. Setup and Installation

This section provides instructions for the proper setup and installation of your WIN STELLAR Soft-Close Sliding Pocket Door. Ensure all components are present before beginning installation.

### 1.1 Included Components

- Door Slab
- Pocket Door Frame (Durable Iron Tube with Reliable Pine Wood)
- Pocket Door Hardware (Three Wheel Ball Bearing Hanger, Soft-Close Mechanism)
- Pocket Door Soft Close System

Image: Detailed view of the pocket door components, including the soft-close mechanism, header hanging brackets, bumper, floor brackets, and door guide.

### 1.2 Pre-Assembled Panels

The door panels are pre-assembled to simplify the installation process, eliminating the need for lengthy

alignment and setup procedures. This ensures a snug fit and reduces installation time.

Image: A close-up of a pre-assembled door panel, demonstrating the factory-prepared state for easier installation.

### 1.3 Rough Opening Dimensions

The pocket door is designed for specific rough opening dimensions to ensure proper fit and function. Refer to the table below for the required rough opening based on your door size. Each panel can be trimmed up to 0.5 inches on the top and bottom for minor adjustments.

**Rough Opening Chart**

Door Size	Rough Opening Width (inches)	Rough Opening Height (inches)
24 in x 80 in	49.25	84.5
26 in x 80 in	53.25	84.5
28 in x 80 in	57.25	84.5
<b>30 in x 80 in</b>	<b>61.25</b>	<b>84.5</b>
32 in x 80 in	65.25	84.5
36 in x 80 in	73.25	84.5

## 2. Operation

---

### 2.1 Soft-Close Mechanism

Your WIN STELLAR pocket door is equipped with a premium soft-close system. This mechanism ensures the door closes gently and quietly, preventing slamming and reducing wear on the hardware. To operate, simply push the door towards the closed position; the soft-close feature will engage automatically to complete the closing motion smoothly.

## Durable & Reliable Frame

## 2.2 Frosted Glass Features

The 5-Lite frosted glass panels provide privacy while allowing natural light to filter through, enhancing the brightness of your room. The glass is tempered for increased strength and safety, being 8 times stronger than regular glass. It is also SGCC certified with a strengthened anti-scratch surface for daily use.

Image: Visual explanation of tempered and frosted glass properties, emphasizing durability and light diffusion.

## 3. Maintenance

---

### 3.1 Cleaning the Door Slab

The door slab, made of solid core MDF wood, and the frosted glass panels are designed for easy maintenance. For the glass, use a soft, lint-free cloth with a mild glass cleaner. Avoid abrasive cleaners or harsh chemicals that could damage the frosted finish or the anti-scratch surface. For the MDF wood, wipe with a damp cloth and mild soap if necessary, then dry immediately.

Image: Demonstration of the easy-to-clean surface of the frosted glass, resistant to fingerprints and scratches.

### 3.2 Hardware Inspection

Periodically inspect the soft-close mechanism and other hardware components for any signs of wear or loosening. Ensure all screws are tight and the door slides smoothly. Lubricate the track if necessary with a silicone-based lubricant to maintain optimal performance.

## 4. Troubleshooting

---

### 4.1 Door Not Sliding Smoothly

- **Check the Track:** Ensure the track is clean and free of debris.
- **Inspect Rollers:** Verify that the rollers on the door hangers are intact and moving freely.
- **Lubrication:** Apply a silicone-based lubricant to the track if friction is detected.

### 4.2 Soft-Close Not Engaging

- **Adjustment:** The soft-close mechanism may require adjustment. Refer to the detailed installation guide for specific adjustment procedures.
- **Obstruction:** Check for any obstructions preventing the mechanism from fully engaging.

### 4.3 Door Alignment Issues

- **Hanger Adjustment:** The door hangers typically allow for vertical and horizontal adjustments. Consult the installation manual for instructions on how to adjust the hangers to correct alignment.
- **Frame Level:** Ensure the pocket door frame is level and plumb. Significant misalignment of the frame can affect door operation.

If you encounter issues not covered here or require further assistance, please contact WIN STELLAR customer support.

## 5. Specifications

---

Feature	Detail
Brand	WIN STELLAR

Feature	Detail
Model	30" x 80" 5-Lite Frosted Glass
Product Dimensions	1.4 x 30 x 80 inches
Door Style	Open Frame
Mounting Type	Floor Mount
Material	Solid Core CARB P2 Certified MDF Wood, Tempered Frosted Glass
