2. What's in the Box

Upon unboxing, ensure all the following items are present:

- Laptop - 1 Unit
- Power adapter - 1 Unit

- Quick start Guide - 1 Unit
- QR code Guide - 1 Unit

3. Initial Setup

3.1 Powering On

1. Connect the provided 65W Type-C power adapter to the laptop's Type-C charging port and a power outlet.
2. Open the laptop lid.
3. Press the power button located on the keyboard to turn on the device.
4. Follow the on-screen instructions to complete the initial Windows 11 setup.

3.2 Network Connection

To connect to the internet:

- **Wi-Fi:** Navigate to the Wi-Fi settings in Windows 11, select your preferred network, and enter the password. The laptop supports dual-band 802.11 a/b/g/n/ac 2.4GHz & 5GHz Wi-Fi.
- **Wired (Ethernet):** Connect an Ethernet cable to the RJ45 port on the side of the laptop for a stable wired connection.

4. Operating Instructions

4.1 Display Features

The laptop features a 15.6-inch IPS display with Full HD (1920x1080p) resolution, offering wide viewing angles and accurate color reproduction. The screen can tilt up to 180 degrees for flexible viewing positions.

6. Maintenance

To ensure optimal performance and longevity of your ZEBRONICS PRO Series Z NBC 3S laptop, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and exterior. Avoid harsh chemicals.
- **Software Updates:** Regularly update your Windows 11 operating system and drivers to ensure security and performance.
- **Storage Management:** Periodically clear unnecessary files and applications to maintain optimal storage performance on the 512GB SSD.
- **Battery Care:** Avoid completely draining the battery frequently. For long-term storage, charge the battery to about 50-60%.
- **Ventilation:** Ensure the laptop's vents are not obstructed to prevent overheating.

7. Troubleshooting

This section provides general troubleshooting tips for common issues. For more specific problems, refer to the official ZEBRONICS support resources.

- **Laptop not turning on:** Ensure the power adapter is securely connected and the battery has sufficient charge. Try a different power outlet.
- **Slow performance:** Check for background applications, update drivers, and ensure sufficient free space on the SSD.
- **Wi-Fi connectivity issues:** Restart your router and laptop. Verify Wi-Fi drivers are updated.
- **Display problems:** Check display settings in Windows. If using an external monitor, ensure cables are connected correctly.
- **Audio not working:** Check volume levels, audio output device settings, and ensure audio drivers are installed and updated.
