ZOSKVEE P95

ZOSKVEE Smartwatch User Manual

Model: P95

INTRODUCTION

This manual provides comprehensive instructions for setting up, operating, and maintaining your ZOSKVEE Smartwatch. Please read this manual carefully before using the device to ensure proper function and longevity.

Image: The ZOSKVEE Smartwatch, featuring a gold Milanese loop band and an additional pink silicone strap, showcasing its sleek design and large display.

PACKAGE CONTENTS

Ensure all items are present in the package:

- ZOSKVEE Smartwatch (with Milanese loop band)
- Additional Silicone Strap
- Charging Cable
- User Manual (this document)

SETUP

1. Charging the Device

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a compatible power adapter (not included).

Excelente Vida útil de la Batería

20 Días
de Espera

7-10 Días
de Uso Normal

Tiempo de Carga

Image: An illustration of the smartwatch's battery performance, indicating up to 20 days standby time, 7-10 days of normal use, 15 days in power-saving mode, and a 2-hour charging time.

2. App Download

To unlock the full functionality of your smartwatch, download the "FitCloudPro" application on your smartphone.

Your browser does not support the video tag.

Video: Instructions on how to download the "FitCloudPro" application. This video demonstrates two methods: scanning a QR code or searching and downloading from your phone's app store (Google Play or Apple App Store).

Method 1: Scan QR Code

1. Scan the QR code found in the manual or on the watch using your phone's QR scanner.
2. Download FitCloudPro.
3. Open FitCloudPro and grant all necessary permissions.
4. Complete personal information setup.

Method 2: Search and Download

1. Open your phone's app store (Apple App Store or Google Play Store).
2. Search for "FitCloudPro".
3. Download FitCloudPro.
4. Open FitCloudPro and grant all necessary permissions.
5. Complete personal information setup.

3. Pairing and Connection

Connect your smartwatch to the FitCloudPro app via Bluetooth for data synchronization and full feature access.

Your browser does not support the video tag.

Video: A guide on how to connect your smartwatch to the FitCloudPro application. It covers both searching for the watch via Bluetooth and scanning a QR code on the watch for connection.

Method 1: Search for Watch Connections

1. Open your phone's Bluetooth settings.
2. Open FitCloudPro > Device > Add Peripheral Device > Searching.
3. Click on "P95" when it appears.
4. Click on the checkmark (✓) on the watch to confirm connection.
5. Allow Bluetooth connections and accept various permissions.

Method 2: Scan Watch QR Code Connection

1. Open FitCloudPro > Device > Add Peripheral Device.
2. Click on the scan code icon.
3. Scan the QR code displayed on your watch.
4. Click on the checkmark (✓) on the watch to confirm connection.
5. Allow Bluetooth connections and accept various permissions.

OPERATING INSTRUCTIONS

1. Basic Navigation

Navigate your smartwatch using intuitive swipe gestures:

- **Swipe Up:** To check messages.
- **Swipe Down:** For quick control center.
- **Swipe Left:** To review exercise data.
- **Swipe Right:** To enter split-screen mode.

Multiple Dials & DIY

Depende de cómo decidas usar tu reloj inteligente.

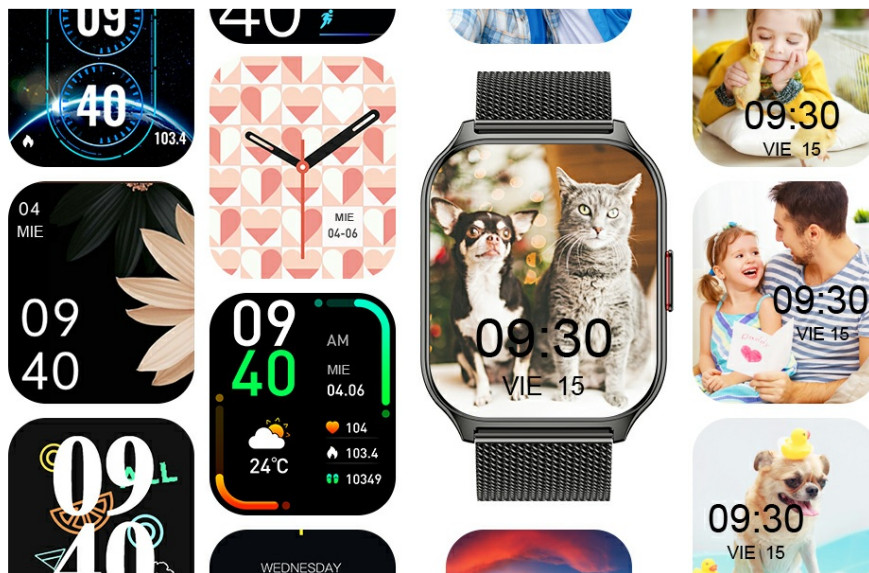

Image: A visual guide demonstrating the easy sliding interface of the smartwatch, showing how different swipe directions access messages, quick controls, exercise data, and split-screen mode.

2. Making and Receiving Calls

The smartwatch supports Bluetooth calls, allowing you to make and answer calls directly from your wrist.

Mantente Conectado

Realice, responda o rechace llamadas directamente en el reloj y vea la notificación en tiempo real.

Image: The smartwatch's female health tracking for menstrual cycles and respiratory training features, showing their respective interfaces.

Image: The smartwatch's business card feature, allowing users to store and display QR codes for social media platforms like Twitter, Instagram, and Facebook directly on the watch.

9. Audio Playback Control

If audio is transmitting from the smartwatch instead of your phone, follow these steps to adjust the playback route:

Your browser does not support the video tag.

Video: Instructions on how to change the audio player output if sound is transmitting from the smartwatch. It provides steps for both iOS and Android devices to redirect audio playback.

For iOS:

1. Pull down the Status bar.
2. Click on the player.
3. Select the desired playback route (e.g., iPhone).

For Android:

1. Open system settings.
2. Click on Bluetooth > P95.
3. Disable "Multimedia Audio".
4. Click "Accept".

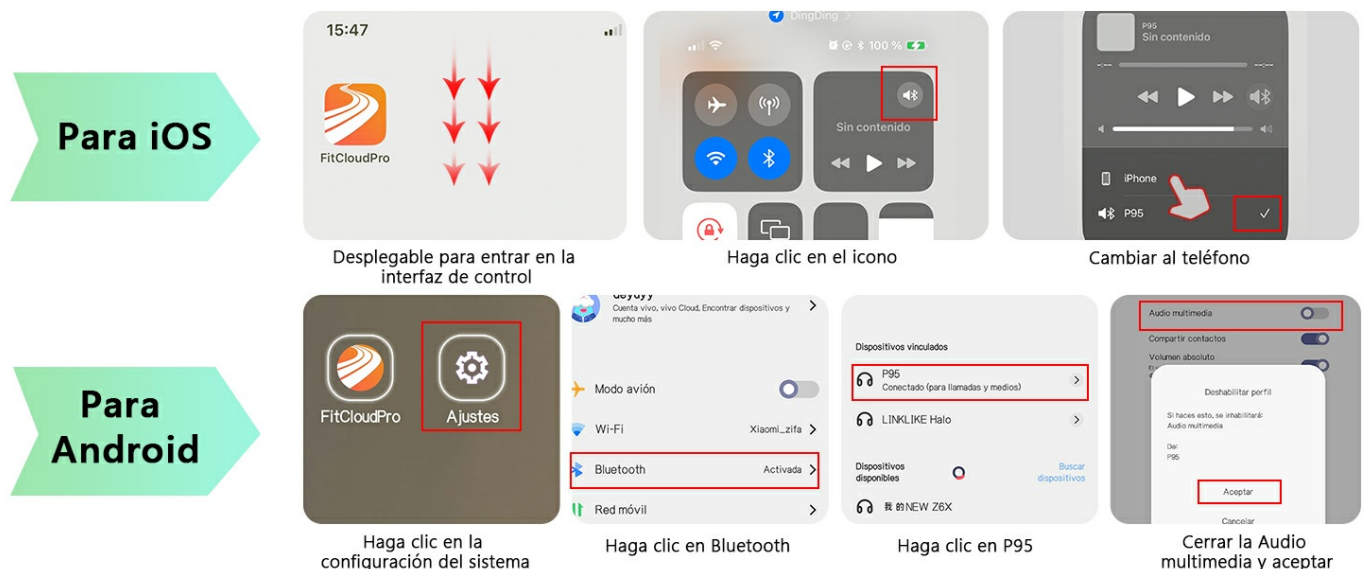

Image: A visual guide detailing the steps to change audio output settings for both iOS and Android devices when the smartwatch is connected, ensuring audio plays from the preferred device.

TROUBLESHOOTING

If you encounter any issues with your ZOSKVEE Smartwatch, please refer to the following common solutions:

- **Connection Issues:** Ensure Bluetooth is enabled on your phone and the watch is within range. Restart both devices and try pairing again.
- **Notification Problems:** Verify that all necessary permissions are granted to the FitCloudPro app and that notifications are enabled for specific apps within the app settings.
- **Inaccurate Data:** Ensure the watch is worn snugly on your wrist. For activity tracking, ensure GPS is enabled on your smartphone if using connected GPS features.
- **Battery Draining Quickly:** Reduce screen brightness, disable unnecessary notifications, and limit continuous health monitoring if not needed.

For further assistance, please contact ZOSKVEE customer support.

WARRANTY AND SUPPORT

ZOSKVEE offers lifelong technical support for its products. If you experience any issues such as missing parts, product failure, or damage, please contact us via your order details. We are committed to providing solutions, including free replacements or full refunds for quality problems during the warranty period.
