LAICOMEIN BR12

LAICOMEIN Bluetooth Receiver User Manual

Model: BR12
Brand: LAICOMEIN

INTRODUCTION

Thank you for choosing the LAICOMEIN Bluetooth Receiver. This device is designed to transform your non-Bluetooth audio systems, such as car stereos, home speakers, or wired headphones, into wireless Bluetooth-enabled devices. Featuring Bluetooth 5.3 technology, an LED battery display, and ambient lighting, it provides a stable connection and enhanced user experience for audio streaming and hands-free calling.

PRODUCT OVERVIEW AND PACKAGE CONTENTS

Image Description: A close-up view of the LAICOMEIN Bluetooth Receiver. It features a circular main body with a digital LED display showing "100%" and a Bluetooth icon, indicating full charge and active Bluetooth. The device has a 3.5mm audio jack extending from one side, designed for direct plug-in. Around the display, there are illuminated ambient light rings and control icons for volume/track navigation and call management.

Package Contents:

- LAICOMEIN Bluetooth Receiver (Model: BR12)
- 3.5mm Audio Connector (integrated)
- 3.5mm Male-to-Male Audio Cable
- USB-A to Type-C Charging Cable
- User Manual (this document)

Image Description: This image displays the LAICOMEIN Bluetooth Receiver from multiple angles, highlighting its various components and the accessories included in the package. The top view shows the LED display, multi-function button, volume/track buttons, and LED light. A side view points out the Aux Port and Siri/Light Control. Another side view indicates the Type-C Charging Port and Built-in Mic. Below these, separate images show the Audio Connector (the integrated 3.5mm jack), an Audio Cable (3.5mm male-to-male), and a Charging Cable (USB-A to Type-C).

CONTROLS AND INDICATORS

- **Multi-function Button (MFB):** Located at the center of the device. Used for Power On/Off, Play/Pause, Answer/End Calls, and activating voice assistant.
- **Previous Track / Volume Down Button (<<):** Located on the left side. Short press for previous track, long press for volume down.
- **Next Track / Volume Up Button (>>):** Located on the right side. Short press for next track, long press for volume up.

- **Siri/Light Control Button:** Small button on the side. Used to activate voice assistant (Siri/Google Assistant) and control ambient light.
- **LED Display:** Shows battery percentage and connection status.
- **Ambient Light:** Circular LED light around the display, indicating device status and adding aesthetic appeal.
- **Built-in Microphone:** For hands-free calling.
- **Type-C Charging Port:** For charging the device.
- **AUX Port (3.5mm Audio Jack):** For connecting to non-Bluetooth audio devices.

SETUP GUIDE

1. Charging the Device

Before first use, fully charge the Bluetooth receiver. Connect the provided USB-A to Type-C charging cable to the Type-C port on the receiver and the other end to a USB power source (e.g., car charger, wall adapter, computer USB port). The LED display will show the charging progress. A full charge typically takes about 30 minutes.

2. Powering On/Off

- **Power On:** Long press the Multi-function Button (MFB) for 3 seconds until the LED display lights up and you hear a voice prompt "Power On".
- **Power Off:** Long press the Multi-function Button (MFB) for 3 seconds until the LED display turns off and you hear a voice prompt "Power Off".

3. Pairing with Your Bluetooth Device (e.g., Smartphone)

1. Ensure the Bluetooth receiver is powered on and in pairing mode (the ambient light may flash, and the LED display might show a pairing indicator).
2. On your smartphone or other Bluetooth-enabled device, go to the Bluetooth settings.
3. Search for available devices. Select "BR12" from the list.
4. Once connected, the LED display will show a stable Bluetooth icon, and you will hear a voice prompt "Connected".

Connect two phones simultaneously

Open Bluetooth on your phone to search for "BR12" ,click it to connect

>>>

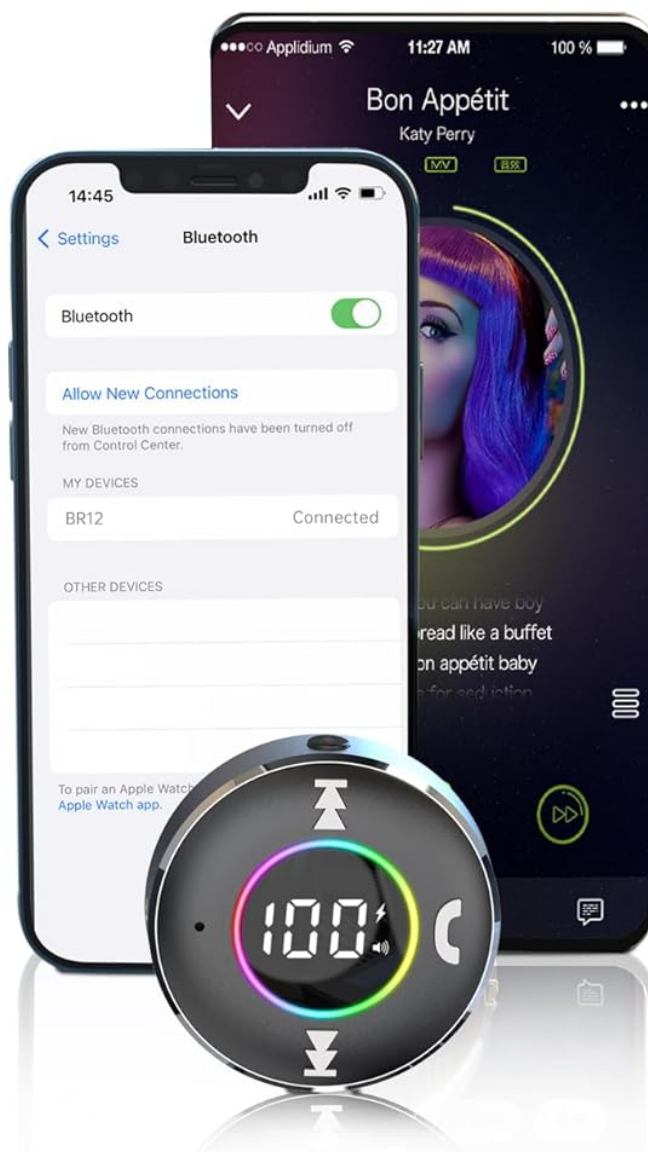

Image Description: This image illustrates the process of connecting the LAICOMEIN Bluetooth Receiver to a smartphone. A smartphone screen is visible, displaying its Bluetooth settings with "BR12" listed as a connected device. The Bluetooth receiver itself is placed in front of the phone, with its LED display showing "100%" and ambient lights active, signifying a successful connection.

4. Connecting to Audio System

- **For Car Audio System:** Plug the 3.5mm audio jack of the receiver directly into your car's AUX input port. If your car's AUX port is recessed or requires an extension, use the provided 3.5mm male-to-male audio cable to connect the receiver to the AUX port. Set your car stereo to AUX mode.
- **For Wired Headphones:** Plug your wired headphones directly into the 3.5mm audio jack of the receiver.
- **For Home Stereo/Speaker:** Use the provided 3.5mm male-to-male audio cable to connect the receiver to the AUX input of your home stereo system or speaker.

Car Upgrade In Car Bluetooth

Insert it into the car AUX port, turn the
car audio into a car Bluetooth audio,
and enjoy music anytime

Image Description: This image shows the LAICOMEIN Bluetooth Receiver in use within a car. The receiver is plugged into the car's AUX port, and a smartphone is placed nearby, displaying a music playback interface. This setup demonstrates how the device enables wireless audio streaming from a phone to a car's audio system.

Transforming into Bluetooth earphones

Plug the headphones into the AUX audio port, instantly transforming wired headphones into Bluetooth headphones for easier carrying

>>>

Image Description: A woman is shown wearing wired headphones, which are plugged into the LAICOMEIN Bluetooth Receiver. This image illustrates the receiver's function of transforming traditional wired headphones into wireless Bluetooth headphones, allowing the user to enjoy audio wirelessly from a paired device.

WIDE COMPATIBILITY

Designed for Non-Bluetooth Devices

>>>

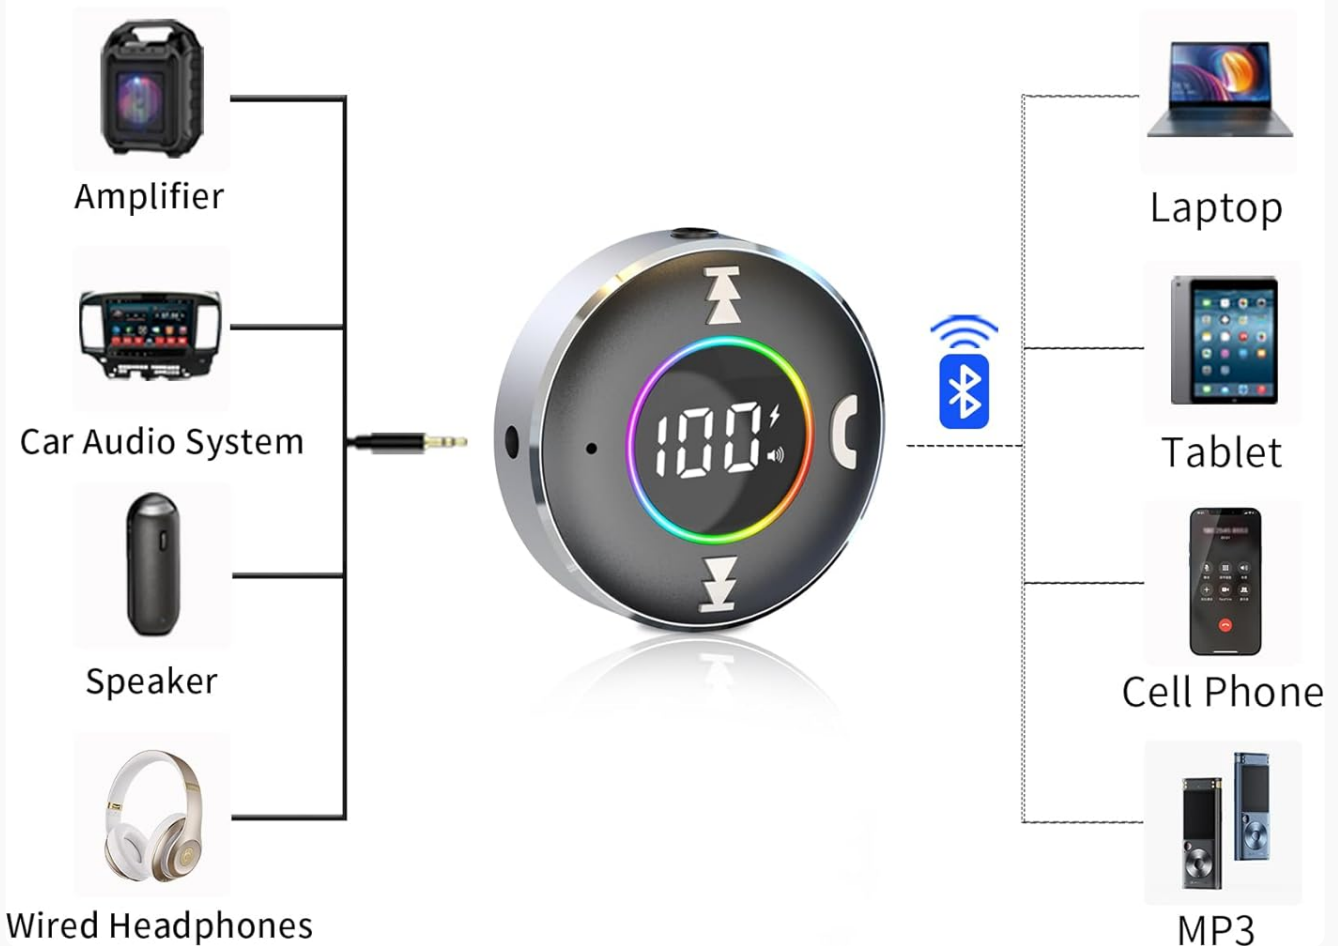

Image Description: This diagram visually represents the wide compatibility of the LAICOMEIN Bluetooth Receiver. On the left, it shows non-Bluetooth devices that can receive audio, such as an amplifier, car audio system, speaker, and wired headphones, all connected via a 3.5mm jack. On the right, it shows Bluetooth-enabled source devices like a laptop, tablet, cell phone, and MP3 player, which can transmit audio wirelessly to the receiver. A central image of the receiver with a Bluetooth icon connects these two sides, demonstrating its role as a bridge.

OPERATING INSTRUCTIONS

Music Playback

- **Play/Pause:** Short press the Multi-function Button (MFB).
- **Next Track:** Short press the "Next Track / Volume Up" button.
- **Previous Track:** Short press the "Previous Track / Volume Down" button.
- **Volume Up:** Long press the "Next Track / Volume Up" button.

- **Volume Down:** Long press the "Previous Track / Volume Down" button.

Hands-Free Calling

- **Answer/End Call:** Short press the Multi-function Button (MFB) when a call comes in or during a call.
- **Reject Call:** Long press the Multi-function Button (MFB) for 2 seconds when a call comes in.
- **Redial Last Number:** Double-press the Multi-function Button (MFB).

Voice Assistant Activation

- **Activate Siri/Google Assistant:** Short press the Siri/Light Control button.

Ambient Light Control

- **Toggle Ambient Light:** Long press the Siri/Light Control button to turn the ambient light on or off.

Connecting Two Phones Simultaneously

The LAICOMEIN Bluetooth Receiver supports connecting to two Bluetooth devices at the same time. This allows for seamless switching between audio sources or managing calls from one phone while streaming music from another.

1. Connect the first phone to the receiver as described in the "Pairing" section.
2. Once the first phone is connected, disable Bluetooth on the first phone temporarily.
3. Pair the second phone with the receiver ("BR12").
4. Re-enable Bluetooth on the first phone. Both phones should now be connected to the receiver.
5. The receiver will prioritize audio from the device that is actively playing or receiving a call.

MAINTENANCE

- Keep the device dry. Avoid exposure to moisture or liquids.
- Do not expose the device to extreme temperatures.
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Store the device in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Low battery.	Charge the device fully using the provided Type-C cable.
Cannot pair with Bluetooth device.	Receiver not in pairing mode; Bluetooth on source device is off; too many paired devices.	Ensure receiver is powered on and in pairing mode. Turn Bluetooth on/off on your source device. Clear previous Bluetooth connections on your source device.
No sound after connecting.	Incorrect audio input selected on stereo/speaker; volume too low; cable not fully inserted.	Ensure your car stereo/home speaker is set to AUX input. Increase volume on both the receiver and the connected audio system. Check that the 3.5mm jack is fully inserted.
Poor audio quality or intermittent connection.	Interference; device too far from source; low battery.	Reduce distance between receiver and source device. Avoid obstacles. Charge the receiver. Avoid strong electromagnetic interference.
Call quality is poor.	Microphone obstruction; environmental noise.	Ensure the built-in microphone is not covered. Reduce background noise if possible.
