5. SETUP GUIDE

5.1 Powering On

1. Connect the provided power adapter to the device's power input port.

2. Plug the power adapter into a standard electrical outlet. The device will power on and the display will activate.

5.2 App Installation and Connection

The kapebow AFQ05 can be controlled remotely via a smartphone app.

1. Download the **Smart Life** or **Tuya Smart** app from your device's app store (Apple App Store for iOS, Google Play Store for Android).

2. Ensure your smartphone is connected to a **2.4GHz Wi-Fi network**. *Note: 5GHz Wi-Fi networks are not*

compatible.

3. Enable Bluetooth on your smartphone.

4. Open the app and follow the on-screen instructions to add a new device. The app will guide you through the pairing process using Bluetooth and Wi-Fi.

7. Maintenance

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the device in a cool, dry place when not in use for extended periods.

8. Troubleshooting

Problem	Possible Cause	Solution
Device does not power on.	Power adapter not connected or faulty outlet.	Ensure the power adapter is securely connected and the outlet is functional.
Cannot connect to Wi-Fi/App.	Incorrect Wi-Fi band (5GHz), Bluetooth off, or app pairing issue.	Verify your Wi-Fi is 2.4GHz. Ensure Bluetooth is enabled. Restart the app and device, then attempt pairing again.
No sound output.	Volume set to 0 or sound not selected.	Increase volume via the app. Select a sound from the app.
Night light not working.	Brightness set to 0 or light function off.	Adjust brightness via the app or by touching the top of the device. Ensure the light function is enabled in the app.
