

Phox Phox

Phox Refillable Water Filter Cartridge User Manual

Model: Phox

Brand: Phox

INTRODUCTION

The Phox Refillable Water Filter Cartridge offers a sustainable alternative to traditional single-use water filters. Designed for compatibility with Brita Standard pitchers, this eco-friendly solution provides clean, great-tasting water while reducing plastic waste. This manual provides comprehensive instructions for the setup, operation, and maintenance of your Phox filter cartridge.

PRODUCT FEATURES

- **Sustainable Design:** The first refillable filter cartridge, significantly reducing plastic waste.
- **Brita Standard Compatible:** Fits seamlessly into any Standard Brita Appliance.
- **Effective Filtration:** Removes impurities and improves water taste.
- **Softener Pack Included:** Specifically designed to soften hard tap water and reduce chalky textures.
- **BPA-Free:** Made from food-safe, BPA-free plastic.

SETUP GUIDE

1. Preparing the Cartridge

Your Phox filter cartridge is designed to be refilled with fresh filter granules. Follow these steps to prepare it for first use or refilling:

Figure 1: Pouring filter granules into the Phox cartridge. The package contains one compatible filter and a one-month refill pack.

1. Ensure the Phox cartridge is clean and empty.
2. Open the refill pack (e.g., Softener Pack) and carefully pour the granules into the cartridge.
3. Place the carbon felt pad (if included with your refill pack) on top of the granules.
4. Securely close the cartridge lid.

2. Installing the Cartridge in Your Pitcher

The Phox cartridge is compatible with standard Brita pitchers.

Figure 2: Installing the Phox cartridge into a Brita pitcher. The cartridge is designed to fit standard Brita appliances.

1. Insert the prepared Phox cartridge firmly into the filter slot of your Brita pitcher.
2. Ensure it is seated correctly to prevent water bypass.

3. Initial Rinse

For optimal performance, it is recommended to rinse the filter before first use.

1. Fill the pitcher with tap water.
2. Allow the water to filter through completely.
3. Discard the first two filtered pitchers of water. This helps to remove any loose carbon dust.

OPERATING INSTRUCTIONS

Using your Phox filter cartridge is straightforward:

1. Fill the top reservoir of your Brita pitcher with cold tap water.
2. Allow the water to slowly filter through the Phox cartridge into the main pitcher reservoir.
3. Once filtered, the water is ready for consumption.

Video: Demonstrates the Phox compatible water filter in use, showing how it fits into a standard Brita pitcher and filters water. This video highlights the ease of installation and the product's compatibility.

MAINTENANCE

Refill Replacement

The Phox refill packs are designed for approximately 30 days of use. Regular replacement ensures optimal water quality.

Figure 3: Refilling the Phox cartridge with an Alkaline pack. This process is simple and allows for continuous use of the reusable cartridge.

1. When it's time to replace your refill, dispose of the used filter granules responsibly.
2. Clean the cartridge thoroughly.
3. Pour in the fresh filter granules from a new refill pack.
4. Reassemble the cartridge and re-install it in your pitcher.

Tracking Filter Life

The Phox app can assist you in tracking when to replace your filter refills, ensuring you always have fresh,

filtered water.

Figure 4: The Phox app helps track filter expiration, reminding users when to replace their refill packs.

TROUBLESHOOTING

Slow Filtration Rate

If water flows through the filter slower than expected, ensure the cartridge is properly seated and not clogged. An initial rinse can help remove any fine carbon particles that might impede flow. If the issue persists, it may be time to replace the filter granules.

Water Taste/Odor Issues

If you notice a change in water taste or odor, it is likely an indication that the filter granules have reached their capacity and need to be replaced. Ensure you are using genuine Phox refill packs for optimal performance.

SPECIFICATIONS

Attribute	Detail
Material	Food-safe BPA-free plastic (cartridge), Softener granules (refill pack)
Product Dimensions	2.28"D x 2.28"W x 4.8"H
Item Weight	70 Grams (approx. 2.47 ounces)
External Testing Certification	NSF (for certain aspects, as per product details)
Product Benefits	Removes impurities, improves taste, reduces chalky textures (with Softener Pack)
Compatibility	Brita Standard Pitchers
