## PRODUCT OVERVIEW

### Components

- **Soundbar:** Main unit housing multiple drivers for front and center channels.
- **Wired Subwoofer:** Provides deep bass frequencies.

- **Wireless Rear Satellite Speakers:** Two speakers for surround sound effects.

## Controls and Ports

The soundbar features various connectivity options and controls:

- **Bluetooth v5.3:** For wireless audio streaming.
- **AUX Input:** For connecting devices via a 3.5mm audio cable.
- **USB Port:** For playing audio from USB drives.
- **Optical Input:** For digital audio connection from TVs or other devices.
- **HDMI (ARC) Port:** For high-quality audio connection with ARC-enabled TVs.
- **Master Remote Control:** Full control over functions, volume, and EQ modes.

## SETUP

## Placement

- Place the soundbar centrally below your TV.
- Position the wired subwoofer on the floor near the soundbar for optimal bass.
- Place the two wireless rear satellite speakers behind your listening position, ensuring they are at a similar height to the soundbar for balanced surround sound.

Image: An illustration showing the recommended placement of the boAt Aavante Bar 5500DA soundbar, subwoofer, and dual wireless rear satellite speakers in a living room setup with a television.

## Connections

1. Connect the wired subwoofer to the soundbar using the provided cable.
2. Connect the soundbar to your TV using one of the following methods:
  - **HDMI (ARC):** For best audio quality and TV control. Connect an HDMI cable from the soundbar's HDMI (ARC) port to your TV's HDMI (ARC) port.
  - **Optical:** Connect an optical cable from the soundbar's Optical input to your TV's optical output.
  - **AUX:** Connect a 3.5mm audio cable from the soundbar's AUX input to your TV's audio output or another

audio source.

3. Connect the power cable to the soundbar and plug it into a power outlet.
4. Ensure the wireless rear satellite speakers are powered on and automatically connect to the soundbar.

## OPERATING INSTRUCTIONS

### Power On/Off

Press the Power button on the soundbar or remote control to turn the unit on or off.

### Input Selection

Press the 'Input' button on the remote control to cycle through available input sources: Bluetooth, AUX, USB, Optical, HDMI (ARC).

### Bluetooth Pairing

1. Select Bluetooth input on the soundbar.
2. Enable Bluetooth on your device (smartphone, tablet, etc.).
3. Search for "boAt Aavante Bar 5500DA" in your device's Bluetooth list and select it to pair.
4. Once paired, the soundbar will indicate a successful connection.

### Volume Control

Use the 'Vol+' and 'Vol-' buttons on the remote control to adjust the master volume.

### EQ Modes

The soundbar features innovative EQ modes to optimize audio for different content types:

- **Music:** Enhanced for musical playback.
- **Movies:** Optimized for cinematic sound, including 4K videos and 3D sound effects.
- **News:** Clearer dialogue for news and speech.
- **Sports:** Enhanced for sports broadcasts.

Press the corresponding EQ mode button on the remote control to select your desired mode.

## Entertainment EQs

## Surround Sound Experience

The 5.1.2 channel configuration with 8 drivers and Dolby Atmos technology provides a rich, immersive surround sound experience, bringing movies and music to life.

Image: An illustration demonstrating the sound dispersion from the boAt Aavante Bar 5500DA's 8 drivers, creating a surround sound effect, and highlighting its support for 4K videos and 3D sound effects.

## MAINTENANCE

### Cleaning

- Wipe the surfaces of the soundbar, subwoofer, and satellite speakers with a soft, dry cloth.
- Do not use liquid cleaners or aerosol sprays.
- Ensure the unit is unplugged before cleaning.

### Storage

If storing the unit for an extended period, unplug it from the power outlet and store it in a cool, dry place away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cable not connected; Power outlet not working.	Ensure power cable is securely connected. Try a different power outlet.
No sound	Incorrect input selected; Volume too low; Cables not connected properly.	Select the correct input source. Increase volume. Check all audio cables for secure connection.
Bluetooth pairing issues	Device too far; Soundbar not in pairing mode; Interference.	Move device closer to soundbar. Ensure soundbar is in Bluetooth input mode. Turn off other Bluetooth devices.
Rear satellite speakers not working	Not powered on; Not paired with soundbar.	Ensure satellite speakers are powered on. They should automatically pair; if not, refer to specific pairing instructions in the full manual (if available).

Exemption sheet for Battery and battery-powered products

Page 1

What are Dangerous Goods?

A product will be regulated as dangerous good if any of its components are classified as dangerous goods or substances or are otherwise regulated by any official organization that governs safe transport, storage, or handling of goods.

For more information on dangerous goods, please consult the Dangerous Goods Identification Guide in Seller Central Help.

Examples of Dangerous Goods

**Important note:** This exemption sheet is required and will be accepted only for products that may have lithium-ion batteries or are not included with this product or if this product is to be packaged and sold themselves. If your product does not belong to this category but is otherwise regulated as dangerous goods or substances (e.g., cleaners, insecticides, pest-related products), please provide information from your manufacturer instead of a battery exemption sheet.

This exemption sheet must be completed first and before being submitted all cells in red must appear green to the right. For complete instructions, please go to the instructions tab at the bottom.

Date: 22-09-2021
