

MARVO SG-286

MARVO SG-286 RGB Gaming Speakers User Manual

Model: SG-286

1. PRODUCT OVERVIEW

The MARVO SG-286 is a compact RGB gaming soundbar designed to enhance your audio experience. It features multiple connectivity options and integrated RGB lighting.

Figure 1: Front view of the MARVO SG-286 RGB Gaming Speakers, showcasing the central control knob, headphone and microphone jacks, and the dynamic RGB light strip along the bottom edge.

2. PACKAGE CONTENTS

- MARVO SG-286 RGB Gaming Speakers (5W x 2)
- Integrated USB Power Cable (1.5m)
- Integrated 3.5mm AUX Audio Cable (1.5m)
- User Manual (this document)

3. SETUP INSTRUCTIONS

3.1. Physical Placement

Place the MARVO SG-286 soundbar on a stable, flat surface, preferably directly in front of your monitor or display for optimal sound projection. Ensure there is adequate space around the speaker for ventilation.

Figure 2: Angled view of the MARVO SG-286 RGB Gaming Speakers, illustrating its compact design suitable for desktop placement.

3.2. Wired Connection (USB & AUX)

1. Connect the USB-A cable from the speaker to an available USB port on your computer, gaming console, or a USB power adapter (5V/1A recommended). This provides power to the speakers.
2. Connect the 3.5mm AUX audio cable from the speaker to the audio output jack (headphone jack) on your computer, smartphone, or other audio source.
3. Ensure your device's audio output is set to the connected AUX port.

3.3. Bluetooth Connection

1. Power on the speakers by connecting the USB cable.
2. The speakers will automatically enter Bluetooth pairing mode (indicated by a flashing light, if applicable).
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for "MARVO SG-286" in the list of available devices.
4. Select "MARVO SG-286" to pair. A confirmation sound will indicate successful pairing.

4. OPERATING INSTRUCTIONS

4.1. Power On/Off and Volume Control

- **Power:** The speakers power on automatically when connected via USB. To turn off, disconnect the USB power cable.
- **Volume Knob:** The large central knob controls the master volume. Rotate clockwise to increase volume and counter-clockwise to decrease volume.

4.2. RGB Lighting Control

The MARVO SG-286 features dynamic RGB lighting. Specific controls for lighting modes are typically integrated into the main control knob or a dedicated button. Refer to the symbols near the knob:

- **Power/Light Button:** A short press on the button often cycles through RGB lighting modes or turns the lighting on/off. A long press may power the unit on/off if it has a soft power function.

4.3. Headphone and Microphone Jacks

The front panel includes dedicated 3.5mm jacks for headphones and a microphone, allowing for convenient audio passthrough and input without needing to access your computer's rear ports.

- **Headphone Jack:** Connect your headphones here. Audio output will automatically switch from speakers to

headphones.

- **Microphone Jack:** Connect your microphone here for voice input.

5. MAINTENANCE

5.1. Cleaning

- Ensure the speakers are powered off and disconnected from the power source before cleaning.
- Use a soft, dry cloth to wipe the exterior surfaces.
- For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals, solvents, or abrasive cleaners.
- Do not allow liquids to enter the speaker grilles or control panel openings.

5.2. Storage

When not in use for extended periods, store the speakers in a cool, dry place away from direct sunlight and extreme temperatures. Protect the cables from kinks or damage.

6. TROUBLESHOOTING

6.1. No Sound

- **Check Power:** Ensure the USB cable is securely connected to a powered USB port or adapter.
- **Volume Level:** Rotate the volume knob clockwise to increase the volume. Check your device's volume settings.
- **Audio Source:** Verify the 3.5mm AUX cable is fully inserted into both the speaker and your audio source. If using Bluetooth, ensure it is paired correctly.
- **Headphone Jack:** If headphones are connected, disconnect them to route audio back to the speakers.

6.2. Bluetooth Pairing Issues

- **Restart:** Turn off and on both the speakers and your Bluetooth device.
- **Forget Device:** On your device, "forget" or "unpair" the "MARVO SG-286" and attempt to pair again.
- **Proximity:** Ensure the speakers and your device are within the effective Bluetooth range (typically 10 meters).

6.3. RGB Lights Not Working

- **Power:** Ensure the speakers are receiving power via USB.
- **Light Button:** Press the dedicated light button or the power/light button to cycle through modes or turn the lighting on.
