### 3. WHAT'S IN THE BOX

Upon opening the package, you will find the following items:

- APPS2Car Magic Keyboard Case
- User Manual

## 4. SETUP INSTRUCTIONS

### 4.1 Bluetooth Pairing

Follow these steps to connect your keyboard case to your iPad via Bluetooth:

1. Switch on the keyboard using the power button.
2. Hold down the 'option' key and the 'B' key simultaneously to activate Bluetooth pairing mode. The Bluetooth indicator light on the keyboard will flash.
3. On your iPad, go to **Settings > Bluetooth**.
4. Ensure Bluetooth is toggled 'On'.
5. In the 'MY DEVICES' list, locate and tap 'APPS2Car' to initiate pairing.
6. Confirm the pairing request on your iPad. The keyboard will show as 'Connected' once successful.

If pairing is unsuccessful, turn off the keyboard, disable Bluetooth on your iPad, and repeat the steps.

Image: The keyboard utilizes Bluetooth 5.2 Low Energy (BLE) for stable and efficient connection.

## 5. OPERATING INSTRUCTIONS

### 5.1 Magnetic Stand

Attach your iPad to the magnetic back cover. The floating cantilever stand allows for smooth adjustment to various viewing angles, providing a laptop-like experience.

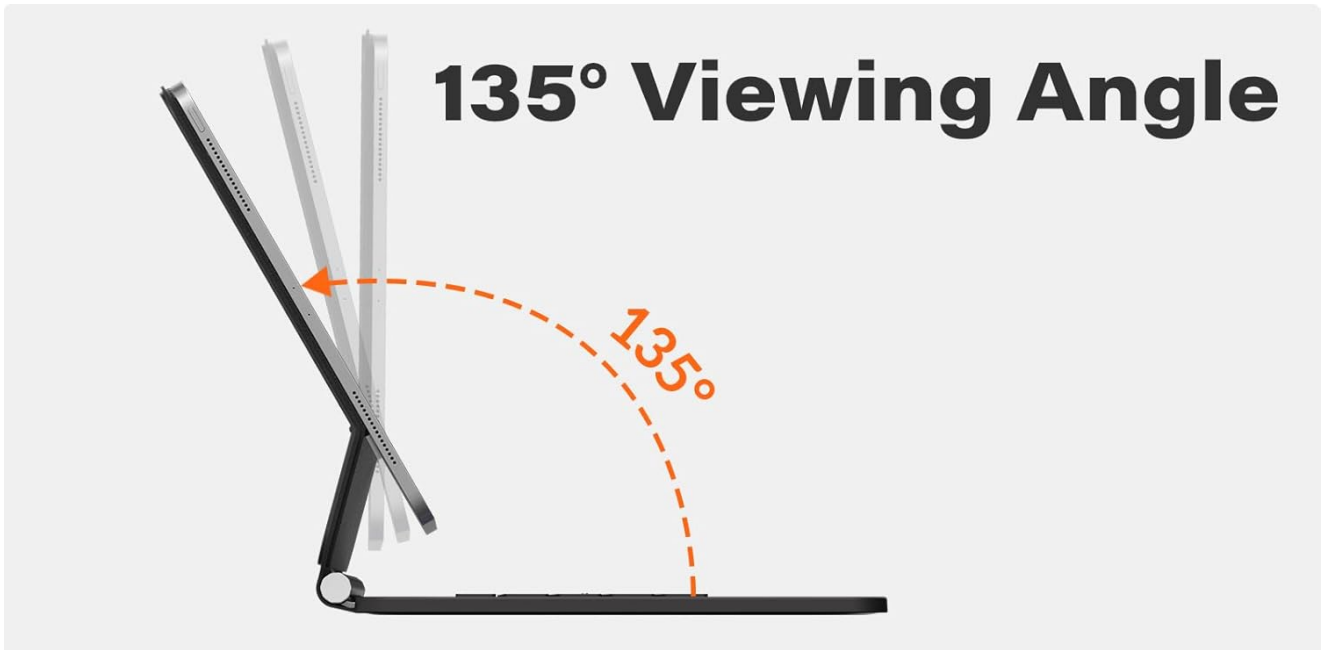

Image: The magnetic stand offers a 135° viewing angle and features a durable aluminum alloy hinge.

### 5.2 Multi-Touch Trackpad

The integrated high-precision trackpad supports full multi-touch gestures for navigation. Ensure your iPadOS is updated to the latest version for optimal trackpad functionality.

# Multi-Touch Trackpad

Precise and sensitive touchpad

Image: The trackpad features AG glass with an anti-fingerprint coating, offering precise and responsive control.

## Trackpad Settings:

To adjust pointer sensitivity and enable tap-to-click or two-finger secondary click:

1. Go to **Settings > General > Trackpad**.
2. Adjust the 'TRACKING SPEED' slider to your preference.
3. Toggle 'Tap to Click' and 'Two Finger Secondary Click' to 'On' as desired.

Your browser does not support the video tag.

Video: Instructions on how to set up trackpad sensitivity and features.

## 5.3 Backlit Keys

The keyboard features backlit keys with adjustable brightness levels for comfortable typing in various lighting conditions.

# Adjustable Backlit Design

Image: The keyboard offers 3 levels of adjustable backlighting.

## 6. MAINTENANCE

### 6.1 IPX7 Waterproof & Dustproof Protection

The keyboard case is designed with IPX7-rated protection, making it resistant to spills, splashes, and dust. In case of spills, gently wipe the surface with a clean, dry cloth.

**New Upgraded Waterproof**  
Water infiltration does not affect service life

Image: The keyboard features IPX7 waterproof protection against liquid spills.

## 7. TROUBLESHOOTING

### 7.1 Connectivity Issues

- Ensure the keyboard is charged.
- Turn off the keyboard and then turn it back on.
- On your iPad, go to **Settings > Bluetooth**, toggle Bluetooth off and then on again.
- If the issue persists, 'Forget This Device' for 'APPS2Car' in your iPad's Bluetooth settings and re-pair the keyboard.

### 7.2 Trackpad or Keyboard Performance

- Ensure your iPad is updated to the latest iOS version. The keyboard is optimized for recent software enhancements.

- Restart your iPad and the keyboard.
- If using an earlier iOS version, update your system, restart Bluetooth, and reconnect for optimal functionality.
