COMFEE' CKE17LM2APK

COMFEE' 1.7L Double Wall Electric Tea Kettle and Kettle Water Boiler

Model: CKE17LM2APK | Brand: COMFEE'

Important Safety Instructions

Please read all instructions carefully before using your COMFEE' Electric Kettle. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Do not immerse the kettle, power base, or cord in water or other liquids.
- Ensure the kettle is placed on a stable, flat, heat-resistant surface away from the edge of the countertop.
- Do not operate the kettle if the cord or plug is damaged, or if the kettle malfunctions or has been damaged in any way.
- Keep out of reach of children. Close supervision is necessary when the appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not use the kettle for anything other than its intended use.
- The kettle features an automatic shut-off and boil-dry protection system for safe operation.

Product Overview

The COMFEE' 1.7L Double Wall Electric Tea Kettle is designed for efficient and safe water boiling. Its double-wall construction keeps the exterior cool to the touch while maintaining water temperature inside.

Figure 1: COMFEE' 1.7L Double Wall Electric Tea Kettle. This image shows the sleek black exterior of the kettle with its ergonomic handle and base.

Key Features:

- **Double-Wall Design:** The outer shell is made of BPA-free material, ensuring it remains cool to the touch, making it safer for handling. This design also helps keep water warm for longer.

Figure 2: Double-Wall Construction. This diagram illustrates the layers of the kettle, highlighting the BPA-free exterior and stainless steel interior for safety and insulation.

- **100% Stainless Steel Interior:** All surfaces that come into contact with water, including the interior, lid, and spout, are made of food-grade 304 stainless steel, ensuring pure and healthy water.

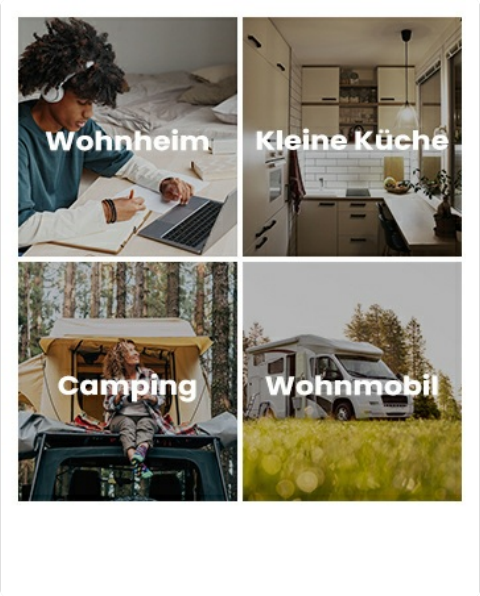

Figure 3: Stainless Steel Components. Detailed views of the kettle's stainless steel pot spout, strainers, interior, and lid, emphasizing food-grade material.

- **1500W Rapid Boil:** Boils 1.7 liters of water in approximately 3 to 6 minutes, indicated by a red LED light.

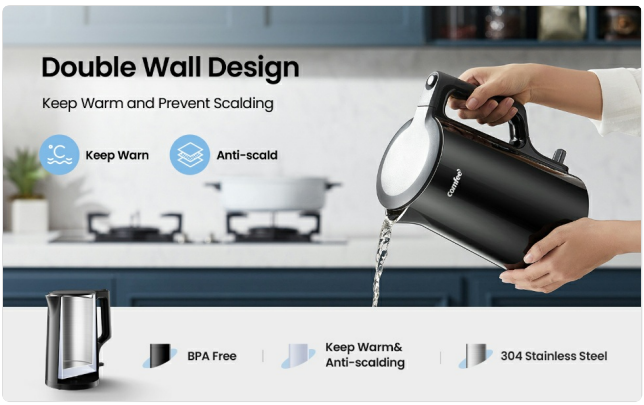

Figure 4: Fast Boiling Capability. An illustrative image showing the rapid heating element and the quick boiling time of 3-6 minutes for 1500W power.

- **Two-Level Lid Design:** The lid opens to 35° to prevent splashing or lifts to 70° for easy filling and cleaning.

Figure 5: Two-Level Lid Operation. This image shows the lid opening at two different angles for safe pouring and convenient cleaning.

- **Family Capacity:** With a 1.7L capacity, it can meet the needs of approximately 8 cups (200ml each) at a time.

Figure 6: Family-Sized Capacity. The image depicts the kettle's 1.7L capacity, suitable for preparing multiple servings of hot

beverages or instant meals.

Setup

1. **Unpack:** Carefully remove the kettle and all accessories from the packaging.
2. **Initial Cleaning:** Before first use, fill the kettle with water to the MAX line, boil it, and then discard the water. Repeat this process 2-3 times to remove any manufacturing residues.
3. **Place Base:** Position the digital power base on a dry, flat, and stable surface near a power outlet.
4. **Connect Power:** Plug the power cord into a standard electrical outlet.

Operating Instructions

1. **Fill Kettle:** Open the lid using the two-level design (35° or 70°) and fill the kettle with the desired amount of water. Do not fill below the MIN line or above the MAX line.
2. **Place on Base:** Securely place the kettle onto its digital power base.
3. **Start Boiling:** Press the ON/OFF switch located on the handle downwards. The blue LED indicator light will illuminate, indicating that the kettle is heating.
4. **Automatic Shut-off:** The kettle will automatically shut off once the water reaches boiling point, and the LED light will turn off.
5. **Pour Water:** Carefully lift the kettle from the base and pour the hot water. The cool-touch exterior ensures safe handling.

Safety Features:

- **Auto Shut-off:** Automatically turns off when water boils.
- **Boil-Dry Protection:** Automatically turns off if there is no water in the kettle or if it boils dry.

Cleaning and Maintenance

Regular cleaning helps maintain the kettle's performance and extends its lifespan.

1. **Unplug:** Always unplug the kettle from the power outlet and allow it to cool completely before cleaning.
2. **Exterior Cleaning:** Wipe the exterior of the kettle with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.
3. **Interior Descaling:** To remove mineral deposits (limescale), fill the kettle with a mixture of water and white vinegar (1:1 ratio) or water and baking soda/lemon water. Boil the mixture and let it stand for about 2 hours.

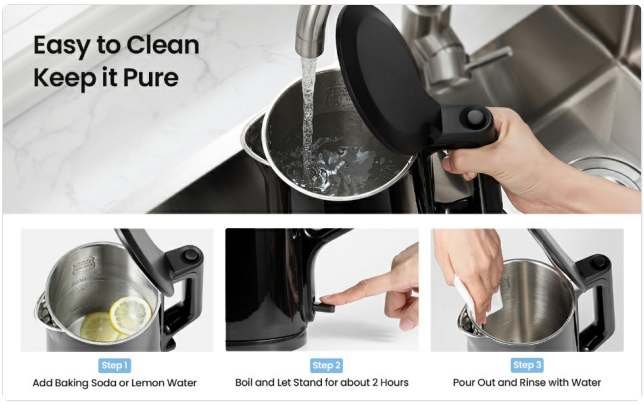

Figure 8: Easy Cleaning Steps. This image illustrates the simple three-step process for cleaning the kettle's interior using natural descaling agents.

4. **Rinse:** Pour out the mixture and rinse the interior thoroughly with fresh water several times.
5. **Storage:** Store the kettle in a dry place when not in use.

Troubleshooting

Problem	Possible Cause	Solution
Kettle does not turn on.	Not plugged in; power switch not engaged; boil-dry protection activated.	Ensure kettle is properly plugged in and the switch is pressed down. If boil-dry protection is active, allow kettle to cool down before refilling.
Water takes too long to boil.	Excessive limescale buildup; low power supply.	Descale the kettle regularly. Ensure the kettle is plugged into a suitable power outlet.
Kettle leaks.	Overfilled; lid not properly closed.	Do not fill above the MAX line. Ensure the lid is securely closed.

Problem	Possible Cause	Solution
Unusual odor or taste in water.	New appliance odor; mineral deposits.	Perform initial cleaning steps multiple times. Descale the kettle.

Specifications

- **Brand:** COMFEE'
- **Model Name:** COMFEE Electric Kettle
- **Item Model Number:** CKE17LM2APK
- **Capacity:** 1.7 Liters (1.8 Quarts)
- **Power:** 1500W
- **Material:** 100% Food-Grade 304 Stainless Steel Interior, BPA-Free Double Wall Exterior
- **Color:** Double Wall (Black)
- **Product Dimensions:** 9"L x 7"W x 10"H
- **Item Weight:** 2.86 pounds
- **Special Features:** Double Wall, Auto-Off, Boil-Dry Protection, Two-Level Lid Design
- **UPC:** 840296506318
- **Country of Origin:** China
