Sweiko ZMLUS35Y

Sweiko 30 x 26 Bathroom LED Mirror Medicine Cabinet User Manual

Model: ZMLUS35Y | Brand: Sweiko

1. Important Safety Information

Please read all instructions carefully before installation and use. Keep this manual for future reference.

- Ensure all electrical connections are performed by a qualified electrician and comply with local codes.
- Disconnect power at the circuit breaker before installation or maintenance.
- This LED medicine cabinet is designed to supplement, not replace, primary bathroom lighting. An additional light source may be required.
- Handle glass components with care to prevent breakage and injury.
- Do not expose the cabinet to excessive moisture or direct water spray beyond normal bathroom use.
- The cabinet is heavy; ensure proper mounting hardware and techniques are used for secure installation. Two people are recommended for lifting and installation.

2. Product Overview and Features

The Sweiko LED Mirror Medicine Cabinet is a versatile and modern addition to any bathroom, offering both storage and advanced lighting features.

2.1 Key Features

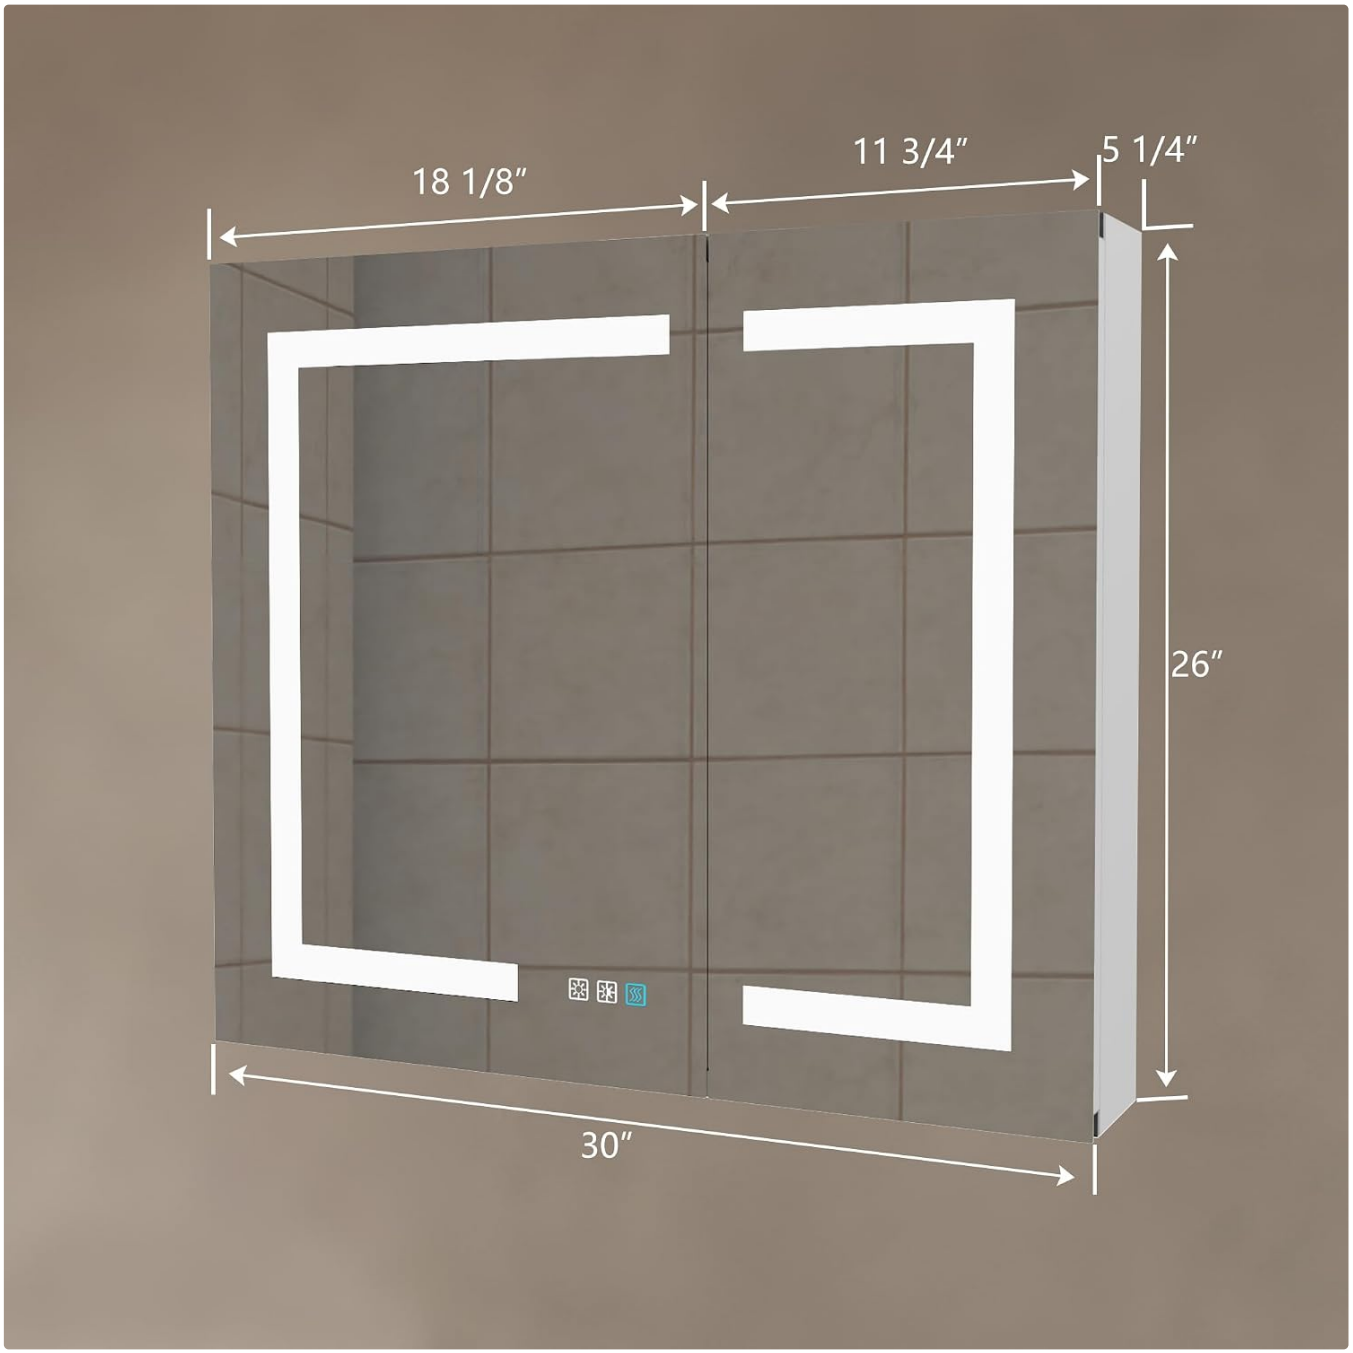

- **Integrated LED Lighting:** Combines LED lights with a mirror for enhanced visibility during makeup application, skincare routines, and shaving. Features three touch switches for control.
- **Adjustable Brightness:** Long press the touch button to seamlessly adjust brightness from 0% to 100%.
- **Color Temperature Adjustment:** Offers 3000K (warm white), 4500K (neutral white), and 6000K (cool white) color temperatures to suit various preferences and needs.
- **Quick Defog Function:** A dedicated one-touch defog switch ensures a clear mirror reflection after showering. The defogging process takes 10-15 minutes and automatically turns off after 30 minutes to conserve energy.
- **Dual Outlets & USB Charging:** The interior features dual UL-certified electrical outlets and dual USB ports for convenient charging of electric razors, toothbrushes, and other devices.

- **Automatic Interior LED Light:** An automatic door sensor activates the interior LED light when the cabinet door is opened, providing illumination for easy access to stored items.
- **Versatile Installation:** Designed for both recessed (embedded into the wall) and surface-mounted (mounted directly on the wall) installations, offering flexibility to fit your bathroom design.
- **Ample Storage:** Three adjustable tempered glass shelves provide organized storage for toiletries, cosmetics, and skincare products.
- **Durable Construction:** Crafted from rust-free anodized aluminum, ensuring excellent waterproof properties and long-lasting durability compared to traditional wooden cabinets.
- **Double-Sided Mirrored Doors:** Mirrors are present on both sides of the cabinet doors, allowing for multi-angle viewing.

2.2 Product Views

Front view of the Sweiko LED Mirror Medicine Cabinet with its integrated lighting illuminated.

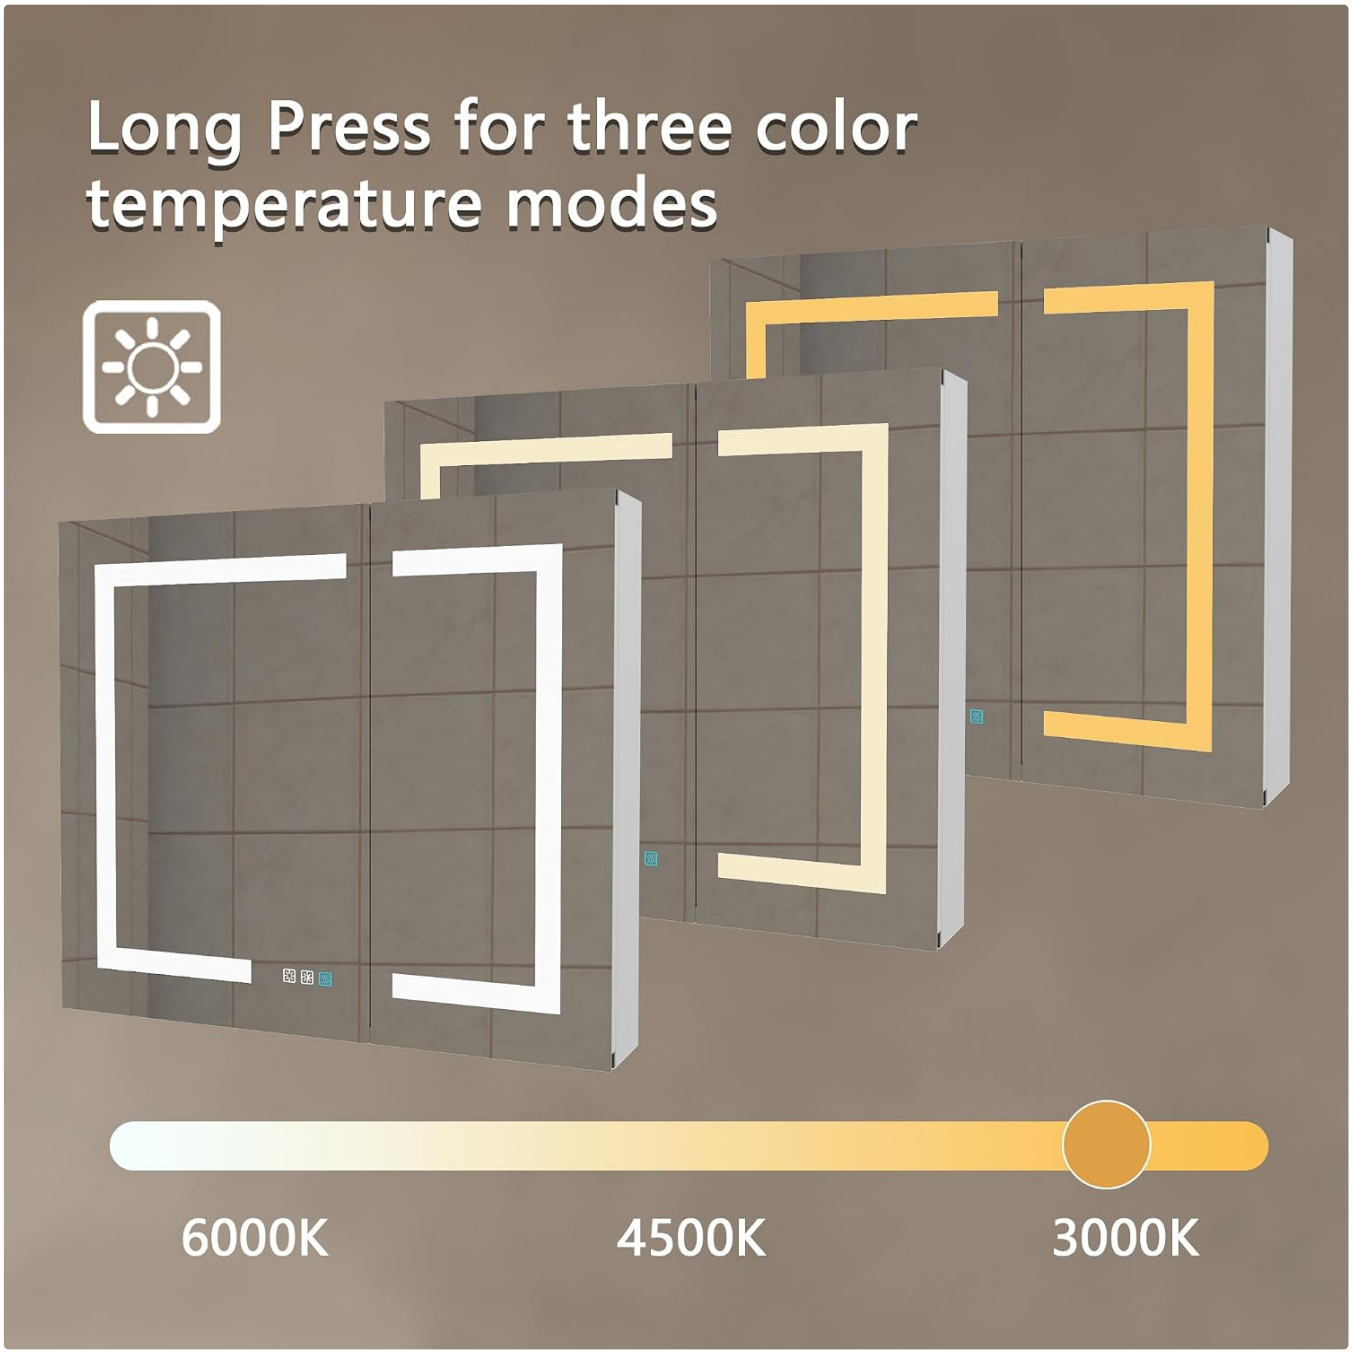

Detailed dimensions of the 30x26 inch medicine cabinet, showing width, height, and depth.

The medicine cabinet installed above a bathroom vanity, showcasing its aesthetic integration.

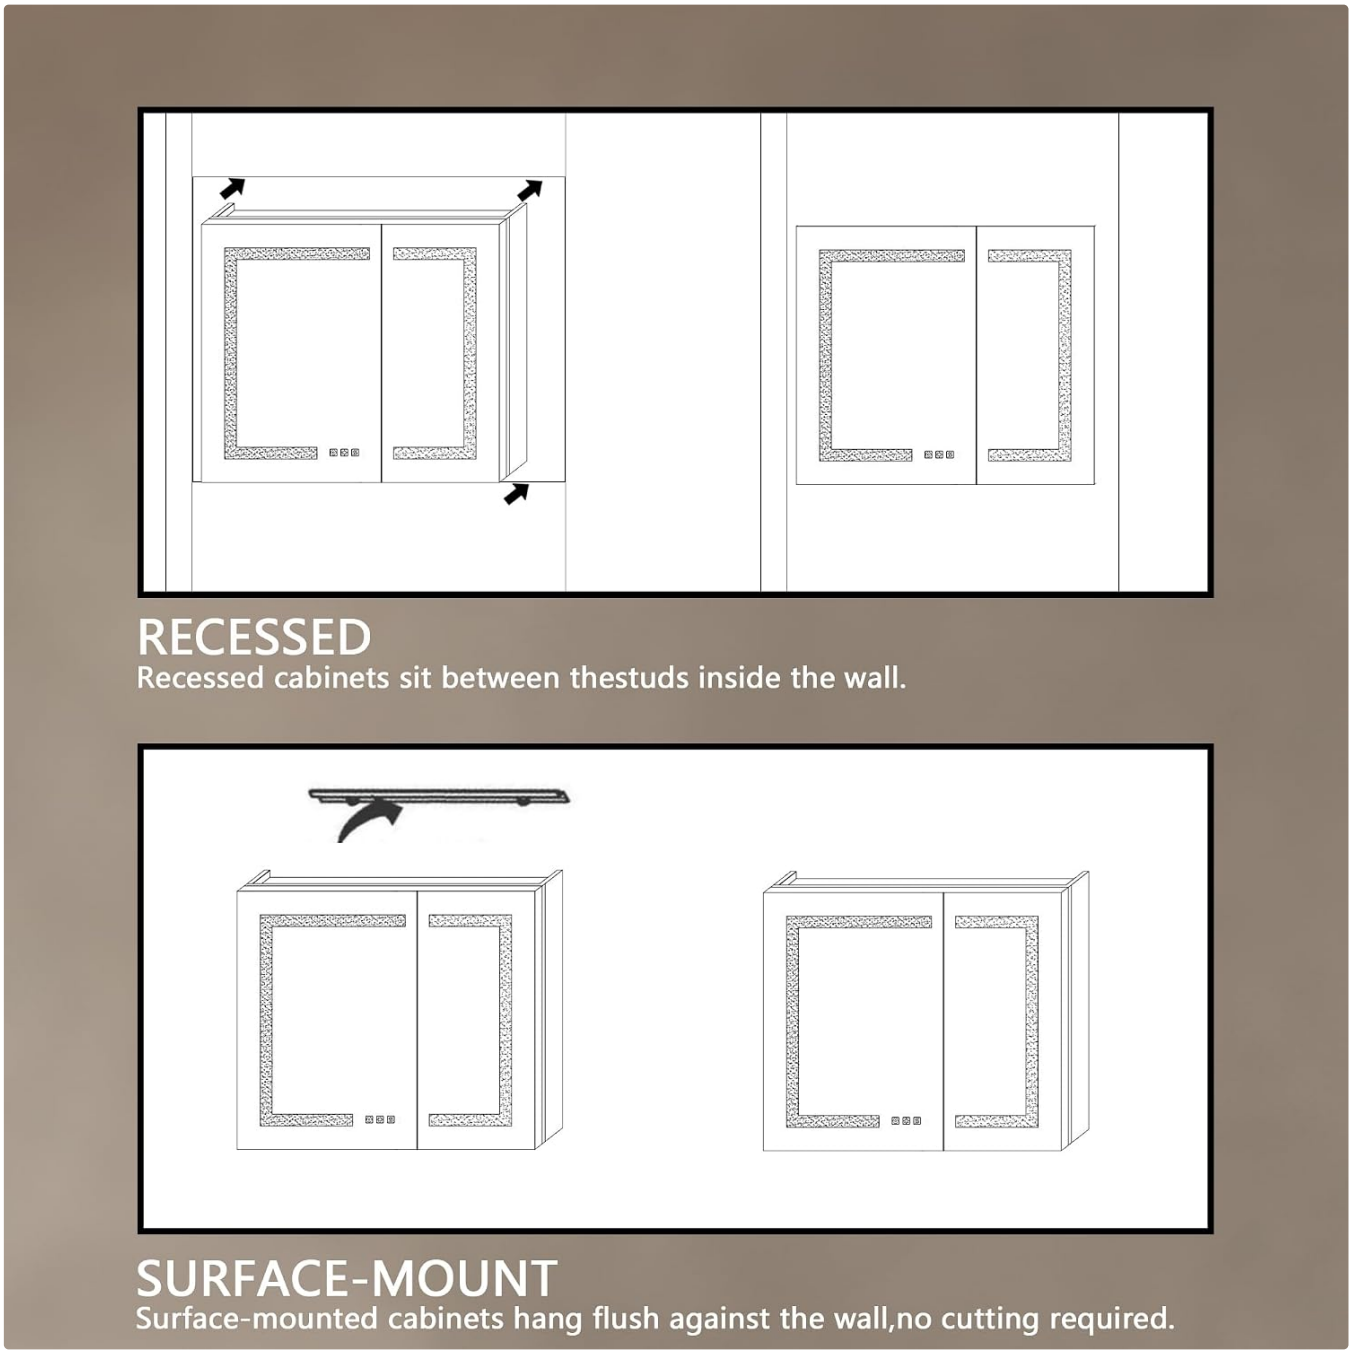

Illustration of the anti-fog function, showing a clear central mirror area while the rest is fogged.

Visual representation of the LED mirror's brightness adjustment from 100% to 10% illumination.

Depiction of the three color temperature modes: 6000K (cool), 4500K (neutral), and 3000K (warm).

Close-up view of the cabinet's interior, highlighting the interior LED lighting, outlets, USB ports, 110° soft-close hinges, and adjustable tempered glass shelves.

3. Setup and Installation

The Sweiko medicine cabinet supports both recessed and surface-mounted installations. Choose the method that best suits your bathroom layout and wall structure.

3.1 Before Installation

- Verify all components are present and undamaged.
- Ensure the wall area is clear of electrical wires, plumbing, and studs if opting for recessed installation.
- Gather necessary tools: measuring tape, level, drill, screwdriver, wire strippers, safety glasses.
- It is highly recommended to have two people for installation due to the weight and size of the cabinet.

- Consult a qualified electrician for wiring connections.

3.2 Installation Options

Diagram illustrating both recessed installation (cabinet sits within the wall) and surface mount installation (cabinet hangs flush against the wall).

An open view of the cabinet's interior, showing the adjustable shelves, interior LED lighting, and the integrated electrical outlets and USB ports, which are accessible after installation.

Recessed Installation:

For recessed mounting, a wall opening must be prepared. The cabinet is designed to sit between standard wall studs. This method provides a flush, integrated look, protruding approximately 1 inch from the wall.

Surface Mount Installation:

For surface mounting, the cabinet is directly attached to the wall surface. This method requires no wall cutting and includes all necessary mounting hardware.

Detailed step-by-step instructions for both installation types are provided in the included physical manual. Always ensure the cabinet is securely fastened to structural elements of the wall.

4. Operating Instructions

Your Sweiko LED Medicine Cabinet features intuitive touch controls for various functions.

4.1 LED Lighting Control

- **Power On/Off:** Tap the power icon on the mirror surface to turn the LED lights on or off.
- **Brightness Adjustment:** With the lights on, press and hold the brightness icon. The brightness will cycle from 0% to 100%. Release the button at your desired brightness level.
- **Color Temperature Change:** Tap the color temperature icon to cycle through the three available color temperatures: 3000K (warm), 4500K (neutral), and 6000K (cool).

4.2 Defog Function

- **Activate Defog:** Tap the defog icon on the mirror surface to activate the defogging function.
- **Automatic Shut-off:** The defogger will automatically turn off after 30 minutes to save energy. You can manually turn it off by tapping the icon again.

4.3 Charging Station

- The dual UL plug outlets and dual USB ports inside the cabinet are always active when the cabinet is connected to power.
- Use these ports to charge electric razors, toothbrushes, smartphones, or other small electronic devices.

4.4 Interior Lighting

- The interior LED light automatically turns on when the cabinet door is opened, and turns off when closed, thanks to an integrated door sensor.

5. Maintenance

Proper care and maintenance will ensure the longevity and optimal performance of your Sweiko medicine cabinet.

- **Cleaning the Mirror and Cabinet:** Use a soft, damp cloth with a mild, non-abrasive glass cleaner or water to clean the mirror surfaces and aluminum frame. Avoid harsh chemicals or abrasive materials that could damage the finish.
- **Interior Shelves:** The tempered glass shelves can be removed for cleaning. Wash with mild soap and water, then dry thoroughly before reinserting.
- **Electrical Components:** Ensure the cabinet is disconnected from power before cleaning near outlets or wiring. Do not spray water directly onto electrical components.
- **Hinges:** Periodically check the hinges for smooth operation. If needed, a small amount of silicone-based lubricant can be applied.
- **General Inspection:** Regularly inspect the cabinet for any loose screws or signs of wear. Tighten fasteners as needed.

6. Troubleshooting

If you encounter any issues with your medicine cabinet, refer to the following common problems and solutions.

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
LED lights do not turn on.	No power supply; loose wiring; faulty touch switch.	Check circuit breaker. Ensure all wiring connections are secure (consult electrician). Contact customer support if switch is unresponsive.
Defog function not working.	Defogger not activated; power issue.	Ensure defog button is pressed. Check power supply to the unit.
Outlets/USB ports not charging.	No power supply; device not properly connected.	Verify cabinet has power. Ensure devices are fully plugged in. Test with another device.
Interior light not turning on/off.	Door sensor obstructed or faulty.	Check for obstructions near the door sensor. Contact customer support if issue persists.
Mirror appears distorted or wavy.	Manufacturing defect (rare); improper installation causing frame distortion.	Ensure cabinet is installed on a flat, even surface. If distortion persists, contact customer support.

For issues not listed above or if solutions do not resolve the problem, please contact Sweiko customer support.

7. Product Specifications

Feature	Detail
Brand	Sweiko
Model Name	Mirror Cabinet
Model Number	ZMLUS35Y
Color	30x26 Silver
