- **A-B Repeat & Sleep Function:** Features A-B repeat for looping specific audio sections, ideal for learning. The sleep timer mode allows setting auto-off times from 10-90 minutes.

## SETUP

### Charging the Device

Before first use, fully charge the AFU CD35 using the provided Type-C charging cable. Connect the cable to the USB port on the side of the player and plug the other end into a compatible USB power adapter (not included) or a computer USB port. The battery indicator on the LCD screen will show charging status.

## Inserting a CD

To insert a CD, locate the 'OPEN' switch on the side of the player and slide it to open the CD compartment. Place the CD with the label side facing up onto the spindle, ensuring it clicks into place. Close the CD compartment firmly until it latches.

Figure 8: The AFU CD35 supports multiple CD formats.

## OPERATING INSTRUCTIONS

## CD Playback

After inserting a CD and closing the lid, the player will read the disc. Press the **PLAY/PAUSE** button to start playback. Use the **PREVIOUS** and **NEXT** buttons to navigate between tracks. Adjust volume using the **VOL+** and **VOL-** buttons.

*Figure 9: Playing your favorite CDs in a simple operation.*

## USB Playback

Insert a USB flash drive into the USB port. Press the **FUN.** button repeatedly until 'USB' mode is displayed on the LCD screen. The player will automatically start playing music from the USB drive.

*Video 2: Demonstrating USB and Bluetooth playback.*

*Figure 10: USB Playback.*

## Bluetooth Playback (Receiver Mode)

Press the **FUN.** button repeatedly until 'BLUE' mode is displayed. The player is now in Bluetooth receiver mode. Enable Bluetooth on your phone or other device and select 'CD35' from the list of available devices to pair. Once connected, you can play music from your phone through the CD player's speakers.

Figure 11: Bluetooth Playback.

## FM Transmitter Function

When a CD is playing, press the **FM** button once to enter FM transmit mode. The frequency will flash. Use the **PREVIOUS** and **NEXT** buttons to adjust the FM frequency. Press the **FM** button a second time to confirm the transmission. Tune your car radio or FM receiver to the same frequency to hear the CD audio.

Video 4: How to use FM transmit and Bluetooth transmit functions.

Figure 12: FM Transmitter Connection.

## A-B Repeat Function

During CD playback, press the **A-B** button at the beginning of the desired section (point A). Press it again at the end of the section (point B). The player will continuously loop this section. Press the **A-B** button a third time to exit A-B repeat mode.

Video 5: How to use the A-B repeat function.

## Sleep Function

Press the **SLEEP** button to activate the sleep timer. Each press cycles through preset auto-off times (10, 20, 30, 40, 50, 60, 70, 80, 90 minutes). The player will automatically turn off after the selected duration.

## Useful for Learning

A-B Repeat, Fast Forward and Fast Reverse make it easy to find the part of the audio you want to listen to and help us learn the audio content.

## TROUBLESHOOTING

If you encounter issues with your AFU CD35, please refer to the common troubleshooting steps below. For further assistance, contact customer support.

### CD Player Not Playing

- Ensure the CD compartment door is closed tightly.
- Clean the laser head and CD player interior from dust and dirt using a special cleaning disc or cotton swab.
- Check the CD for scratches, stains, or deformation. Use a clean, undamaged disc.
- If the laser head is poorly focused, try adjusting it manually or use a cleaning disc.
- If issues persist, internal parts may be damaged. Contact a professional repairer.

*Video 6: Why won't the CD player play my CD?*

### Bluetooth Not Working

- Note: This device does not support connecting to car Bluetooth directly.
- Turn off or disable other Bluetooth devices nearby to reduce interference.
- Adjust the distance between the CD player and the Bluetooth device, bringing them closer to increase signal strength.
- Reboot the speaker or remove/disconnect the power cord for a minute to restart the device before connecting to Bluetooth.
- Clear the paired device memory of the speaker and try pairing again.
- Ensure Bluetooth is enabled on both the CD player and the device you are trying to connect.

*Video 7: Why doesn't Bluetooth work?*

### Device Not Charging

- The charging interface of the player may be loose or damaged. Try cleaning or replacing it.
- The charging cable may be damaged or have poor contact. Replace the charging cable.
- Check if the charging port is cluttered or blocked. Ensure it's not dusty or damaged. Clean or replace the port if necessary.

## SPECIFICATIONS
