MOFT MS007M

MOFT Magnetic Wallet Stand for iPhone Series User Manual

Model: MS007M

1. PRODUCT OVERVIEW

The MOFT Magnetic Wallet Stand is a versatile 3-in-1 accessory designed for iPhone users. It functions as a foldable phone stand, a card wallet, and a secure grip. Crafted from MOVAS Vegan Leather, it offers a slim profile and strong magnetic attachment.

Key features include:

- **Slim & Smart 3-in-1 Design:** Functions as a phone stand, card wallet, and secure grip.
- **Strong Magnets:** Ensures secure attachment to MagSafe compatible iPhones and cases.
- **Premium MOVAS Vegan Leather:** Offers a soft touch, durability, and is environmentally friendly.
- **3-Viewing Mode Stand:** Supports Floating, Portrait, and Landscape modes for various uses.
- **Card Storage:** Designed to hold 1-2 cards.

2. SETUP AND INSTALLATION

2.1 Attaching to MagSafe Compatible Devices

The MOFT Magnetic Wallet Stand is designed for seamless attachment to iPhone 12 series and newer models, or MagSafe compatible phone cases. Simply align the wallet stand with the MagSafe area on the back of your iPhone or MagSafe case. The strong magnets will snap it securely into place.

2.2 Attaching to Non-MagSafe Devices (with MOFT Metal Ring)

For non-MagSafe phones or cases, a MOFT Metal Ring (sold separately) is required for compatibility. Follow these steps to set up the Metal Ring:

1. Prepare your phone with its compatible case (TPU, PC, or aluminum cases with a flat back and no coatings).
2. Magnetically attach the phone stand to the non-adhesive side of the metal ring to find the optimal placement.
3. Peel off the top layer of the metal ring's adhesive.
4. Carefully apply the metal ring to the back of your phone case. Press firmly and leave it on for 24 hours before use to ensure strong adhesion.

Note: Do not attach the metal ring directly to the back of the phone without a case. The magnetic connection is stronger when used with a MagSafe case.

Image: A visual guide illustrating the four steps to correctly install the MOFT Metal Ring for non-MagSafe phone compatibility.

3. OPERATING INSTRUCTIONS

3.1 Using as a Phone Stand (3 Viewing Modes)

The MOFT Magnetic Wallet Stand features an origami-inspired design that allows it to effortlessly fold into three distinct viewing modes:

- **Portrait Mode:** Ideal for hands-free browsing, reading, or video calls in a vertical orientation.
- **Landscape Mode:** Perfect for watching videos, movies, or presentations in a horizontal orientation.

- **Floating Mode:** Elevates your phone for recording, cooking tutorials, or meetings, providing a unique elevated viewing angle.

To activate a stand mode, simply unfold the wallet stand from its flat position and adjust the folds to achieve the desired angle. To return to a flat profile, fold the stand back into its original position.

3.2 Using as a Card Wallet

The wallet portion of the stand is designed to securely hold 1-2 cards, such as your ID, credit card, or transit pass. To insert cards, gently open the wallet flap and slide your cards into the designated slot. Ensure cards are fully inserted to prevent them from falling out.

Snap-on Phone Stand & Wallet MOVAS™

Material :

MOVAS™ Vegan Leather,
Fiberglass, Magnets,
Metal sheets

Card Storage :

Holds 1-2 Cards

Magnetic Force : A++

Size : 3.8*2.6*0.2in

Weight : 2.1oz

Thickness : 0.2in

Work, Create
Anywhere.

3.3 Using as a Secure Grip

When folded flat, the slim design of the wallet stand provides a comfortable and secure grip for your iPhone, reducing the risk of accidental drops during daily use or commutes.

Metal Ring for non-MagSafe phones

Note:

1. Please stick it to a compatible phone case (NOT a phone stand).
2. Works with TPU, PC, or aluminum cases with a flat back and no coatings.
3. Not compatible with rubber, leather, cloth, wood, or painted cases.

* The Magnetic Ring is sold separately.

How to set up the Metal Ring ?

1. Prepare your phone with its case, the phone stand, and the metal ring.

2. Magnetically attach a phone stand to the non-adhesive side of the metal ring.

3. Peel off the top layer of the metal ring.

4. After applying the metal ring, press firmly and leave it on for 24 hours before use.

4. MAINTENANCE

The MOFT Magnetic Wallet Stand is crafted from durable MOVAS Vegan Leather. To ensure its longevity and maintain its appearance:

- **Cleaning:** Wipe the surface gently with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these may damage the material.
- **Storage:** When not in use, store the wallet stand in a cool, dry place away from direct sunlight.
- **Avoid Overstuffing:** While durable, consistently overstuffing the card slot beyond 1-2 cards may stretch the material and reduce its ability to securely hold cards over time.

5. TROUBLESHOOTING

- **Weak Magnetic Connection:**
 - Ensure your iPhone is a MagSafe compatible model (iPhone 12 series or newer) or is using a certified MagSafe compatible case.
 - If using a non-MagSafe device with a Metal Ring, verify the Metal Ring is correctly installed and has had 24 hours to adhere.
 - Check for any obstructions between the wallet stand and your phone/case that might interfere with the magnetic connection.
- **Cards Falling Out:**
 - The wallet is designed for 1-2 cards. Overstuffing may loosen the card slot.
 - Ensure cards are fully inserted into the slot.
- **Stand Instability:**
 - Ensure the stand is fully unfolded and locked into the desired viewing mode.
 - Place the phone on a flat, stable surface.

6. SPECIFICATIONS
