## 5. CARE AND MAINTENANCE

Proper care ensures the longevity and optimal performance of your heated blanket.

1. **Disconnect Controller:** Before washing, always disconnect the controller cord from the blanket.
2. **Machine Wash:** Place the blanket into a washing machine. Use a gentle cycle with cold water.
3. **Drying:** Air-dry the blanket or use a low-temperature setting on your dryer. Ensure the blanket is completely dry before reconnecting the controller and plugging it in.
4. **Storage:** Store the blanket in a cool, dry place when not in use. Avoid folding it tightly or placing heavy objects on it, which could damage the internal wiring.

## Washer + Dryer Safe

## 6. TROUBLESHOOTING

If you encounter any issues with your heated blanket, please refer to the following common solutions:

- **Blanket Not Heating:**

- Ensure the power cord is securely plugged into a working electrical outlet.
- Verify that the controller is firmly connected to the blanket.
- Check if the power button on the controller is pressed and the display is active.

- **Blanket Too Hot or Not Warm Enough:**

- Adjust the heat setting using the '+' and '-' buttons on the controller to your preferred comfort level.

- **Blanket Shuts Off Unexpectedly:**

- The blanket has an automatic 10-hour shut-off feature. This is normal operation. Simply turn the blanket back on if you wish to continue use.
- If the blanket shuts off before the set time, check for any folds or bunches that might trigger the

overheat protection. Unplug, flatten the blanket, and plug back in.
