

KICKER KMC2

KICKER KMC2 All-Weather Marine Audio System Instruction Manual

Models: KMC2 Receiver, KMFC Tower Speakers, KMA Amplifier

Brand: KICKER

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your KICKER KMC2 All-Weather Marine Audio System. This system includes the KMC2 Gauge Style Bluetooth Stereo Receiver, KMFC 6.5-inch Marine Loaded Tower Speakers with Multicolor LEDs, and a KMA 4-Channel 500W Dynamic Power Boat Audio Amplifier. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your equipment.

2. SAFETY INFORMATION

Always observe the following safety precautions to prevent injury or damage to the equipment:

- Disconnect the vehicle's battery negative terminal before beginning any installation.
- Ensure all wiring is properly insulated and secured to prevent short circuits and damage.
- Use appropriate gauge wiring for power and ground connections as specified in the installation section.
- Mount components securely to withstand marine environments and vibrations.
- Avoid installing components in locations that obstruct safe operation of the vessel.
- Consult a professional marine audio installer if you are unsure about any part of the installation process.

3. COMPONENT OVERVIEW

Your KICKER Marine Audio System consists of three primary components:

3.1 KICKER KMC2 All-Weather Gauge Style Bluetooth Stereo Receiver

Image: The KICKER KMC2 receiver, a circular, black unit with a digital display showing 'FM 107.5' and control buttons for source, menu, presets, and track navigation.

The KMC2 is a compact, all-weather stereo receiver designed to fit into a standard gauge opening. It features AM/FM radio, Bluetooth streaming, USB charging and playback, and RCA outputs for connecting to an amplifier.

3.2 KICKER KMFC 6.5-inch Marine Loaded Tower Speakers

Image: A pair of KICKER KMFC 6.5-inch marine tower speakers, black enclosures with charcoal grilles, featuring purple LED illumination behind the speaker cones.

These 6.5-inch coaxial tower speakers are built for marine environments, featuring UV-treated polypropylene woofers, Santoprene surrounds, and a seven-color LED system. They are designed for mounting on towers or roll bars.

3.3 KICKER KMA 4-Channel 500W Dynamic Power Amplifier

Image: The KICKER KMA amplifier, a compact black rectangular unit with KICKER branding in teal, showing various input and output terminals on one side.

The KMA amplifier is a Class D, 4-channel amplifier providing 500 watts of dynamic power. It features a conformal-coated circuit board for marine use, variable 12dB crossover, and KickeEQ variable 6dB bass boost for sound customization.

4. SETUP AND INSTALLATION

Proper installation is crucial for optimal performance and safety. Refer to the following guidelines for each component.

4.1 KMC2 Receiver Installation

- Mounting:** The KMC2 is designed to fit into a standard 3-inch gauge opening. Ensure sufficient depth and clearance behind the mounting surface for wiring. Secure the receiver using the supplied mounting hardware.
- Power Wiring:** Connect the yellow wire to a constant 12V power source, the red wire to a switched 12V accessory source, and the black wire to a reliable ground point. Use appropriate inline fuses as recommended by KICKER.
- Speaker Outputs:** Connect the KMC2's speaker output wires to the KMFC tower speakers. Note that the KMC2 provides 25W x 4, which is suitable for direct speaker connection, but for full power, it should

be used with the KMA amplifier via RCA outputs.

4. **RCA Outputs:** Connect the KMC2's full-range RCA outputs to the input of the KMA amplifier.
5. **USB/RCA Inputs:** Connect USB devices or external audio sources to the respective inputs.
6. **Remote Control (Optional):** If using the KRC12 remote (sold separately), connect it to the designated port on the KMC2.

4.2 KMFC Tower Speakers Installation

1. **Mounting:** Use the included 316L stainless steel mounting hardware to securely attach the speakers to your vessel's tower or roll bar. Ensure the mounting location can support the weight of the speakers and withstand marine conditions.
2. **Speaker Wiring:** Connect the speaker wires from the KMA amplifier (or KMC2 receiver) to the KMFC speakers, observing correct polarity (+ to + and - to -).
3. **LED Wiring:** Connect the speaker's LED wires to a 12V power source. The speakers come with a seven-color LED system. For advanced control (20 colors and 19 lighting modes), an optional KMLC remote control is required.

4.3 KMA Amplifier Installation

1. **Mounting:** Choose a dry, well-ventilated location for the amplifier, away from direct sunlight and excessive heat. Secure it using the provided 316L stainless-steel hardware.
2. **Power Connections:** Connect the amplifier's power and ground terminals to the battery using ABYC/NMMA-compliant power connections. Ensure proper fusing. Connect the remote turn-on wire to the KMC2's remote output.
3. **Input Connections:** Connect the RCA outputs from the KMC2 receiver to the RCA inputs of the KMA amplifier.
4. **Output Connections:** Connect the KMFC tower speakers to the amplifier's speaker output terminals. The KMA is a 4-channel amplifier, allowing for individual speaker connections or bridged configurations.
5. **Crossover and Bass Boost:** Adjust the variable 12dB crossover and KickEQ variable 6dB bass boost settings on the amplifier to optimize sound quality for your specific setup and preferences. Start with flat settings and make small adjustments.

5. OPERATING INSTRUCTIONS

5.1 KMC2 Receiver Operation

- **Power On/Off:** Press the power button (usually integrated with the source button) to turn the unit on or off.
- **Source Selection:** Press the 'SOURCE' button to cycle through available audio sources: AM, FM, Bluetooth, USB, RCA.
- **Bluetooth Pairing:** Select Bluetooth source. On your mobile device, search for 'KICKER KMC2' and pair.
- **USB Playback:** Insert a USB thumb drive with compatible audio files. The unit will automatically switch to USB mode and begin playback.
- **AM/FM Tuning:** Use the 'MENU' or arrow buttons to tune stations. Save favorite stations using the 'PRESETS' function.
- **Volume Control:** Use the rotary knob or dedicated volume buttons to adjust the audio level.
- **EQ Adjustment:** Access the equalizer settings through the 'MENU' button to customize audio output.

5.2 KMFC Speaker LED Control

- The speakers feature a built-in seven-color LED system. The color can typically be selected via a dedicated switch or by cycling through options.
- For advanced control, including 20 colors and 19 lighting modes, the optional KMLC remote control is required. Refer to the KMLC manual for detailed operation.

6. MAINTENANCE

Regular maintenance ensures the longevity and performance of your marine audio system.

- **Cleaning:** Use a soft, damp cloth to clean the exterior of all components. Avoid harsh chemicals or abrasive cleaners. The UV-treated and UV-resistant materials are designed to withstand marine environments, but gentle cleaning is recommended.
- **Connection Checks:** Periodically inspect all wiring connections for corrosion, looseness, or damage. Ensure all terminals are clean and secure.
- **Weather Protection:** While designed for all-weather use, covering the system when not in use or during prolonged storage can further protect it from harsh elements.

7. TROUBLESHOOTING

If you encounter issues with your KICKER Marine Audio System, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No Power to Receiver/Amplifier	Blown fuse, loose power/ground connection, faulty wiring.	Check and replace fuses. Verify all power and ground connections are secure. Inspect wiring for damage.
No Sound from Speakers	Incorrect input selection, amplifier not powered, loose speaker wires, incorrect gain settings.	Ensure correct source is selected on KMC2. Verify amplifier is on. Check speaker wire connections. Adjust amplifier gain settings.
Bluetooth Connection Issues	Device not in pairing mode, KMC2 not in Bluetooth source, interference.	Ensure KMC2 is in Bluetooth mode. Put mobile device in pairing mode. Move device closer to receiver.
Distorted Audio	Volume too high, incorrect amplifier gain, damaged speaker.	Reduce volume. Adjust amplifier gain settings. Inspect speakers for physical damage.
Speaker LEDs Not Working	Loose LED wiring, no 12V power to LEDs, faulty LED controller.	Check LED power connections. Ensure 12V supply. If using KMLC, check its connections and operation.

8. SPECIFICATIONS

8.1 KICKER KMC2 Receiver

- **Audio Sources:** USB, RCA, AM/FM, Bluetooth
- **Power Output:** 25W x 4 (RMS)
- **Frequency Response:** 20-20kHz
- **Signal to Noise Ratio:** 87dB

- **IP Rating:** IPX66 (Dust tight and protected against powerful water jets)
- **Features:** Customizable EQ, USB Charging, Full-Range RCA Output

8.2 KICKER KMFC 6.5-inch Marine Tower Speakers

- **Speaker Size:** 6.5 inches (Coaxial)
- **Power Handling:** 195 Watt Peak, 65 Watt RMS
- **Impedance:** 4-Ohm Voice Coil
- **Sensitivity:** 90dB
- **Frequency Response:** 35-21K Hz
- **Materials:** UV-Treated Polypropylene Woofer, Santoprene Surround, UV-Resistant Polymer Basket
- **LED System:** Seven-Color (Upgradable to 20 Colors/19 Modes with KMLC remote)
- **Hardware:** 316L Stainless Mounting Hardware Included
- **Standards:** Meets or Exceeds ASTM Standards for UV and Salt/Fog Exposure

8.3 KICKER KMA 4-Channel Amplifier

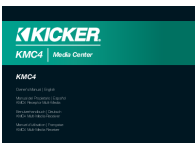

- **Amplifier Class:** Class D
- **Dynamic Power:** 500 Watts
- **Channels:** Four-Channel (with Bridging Capability)
- **Power Output (RMS):** 90W x 4 @ 2 Ohm Stereo, 180W x 2 @ 4 Ohm Bridged Mono
- **Frequency Response:** 10-20k Hz, +0/-1dB
- **Signal-to-Noise Ratio:** 95dB
- **Features:** Conformal-Coated Circuit Board, Variable 12dB Crossover, KicEQ Variable 6dB Bass Boost, Real Marine ABYC/NMMA-Compliant Power Connections

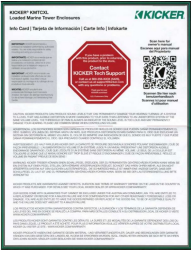

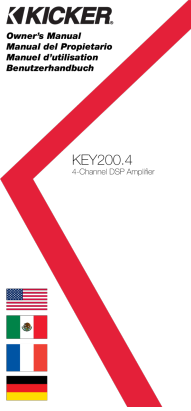

9. WARRANTY AND SUPPORT

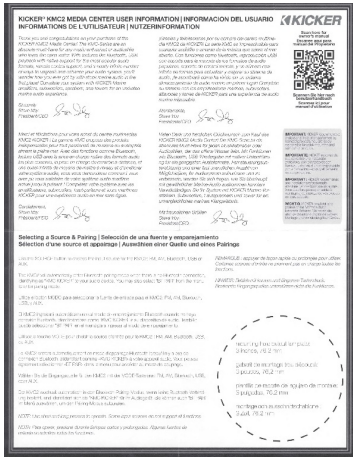

KICKER products are designed and manufactured to the highest quality standards. For specific warranty information, please refer to the warranty card included with your product or visit the official KICKER website. In case of technical issues or questions not covered in this manual, please contact KICKER customer support or your authorized KICKER dealer for assistance.
