Viconor 2 Packs

Viconor Red Light Therapy Foot Wraps Instruction Manual

Model: 2 Packs

1. Introduction

This manual provides detailed instructions for the safe and effective use of your Viconor Red Light Therapy Foot Wraps. This device is designed to deliver red light (660 nm) and near-infrared light (850 nm) to the feet and ankles. Please read this manual thoroughly before first use and retain it for future reference.

2. Safety Information

Important: Statements regarding this device have not been evaluated by the FDA and this product is not intended to diagnose, treat, cure, or prevent any disease or health condition. Consult with a healthcare professional before using this device if you have any medical conditions, are pregnant, or are taking medications.

- Do not look directly into the LED lights during operation.
- Do not use on broken, irritated, or infected skin.
- Keep the device out of reach of children.
- Do not immerse the device in water or other liquids.
- If you experience any discomfort or adverse reactions, discontinue use immediately and consult a healthcare professional.
- Ensure the power adapter and cables are not damaged before use.

3. Product Components

Your Viconor Red Light Therapy Foot Wraps package includes the following items:

- 2 x Viconor Red Light Therapy Foot Wraps
- 1 x Controller with integrated cable
- 1 x Power Adapter (for wall socket use)
- 1 x USB Cable (for power bank use, power bank not included)

Image 3.1: The Viconor Red Light Therapy Foot Wraps. This image displays the two foot wraps, highlighting the red light emission from within, indicating the active therapy.

4. Setup

Follow these steps to set up your Viconor Red Light Therapy Foot Wraps:

1. **Connect the Wraps:** Plug the cables from each foot wrap into the designated ports on the controller.
2. **Choose Power Source:** You have two options for powering the device:
    - **Option 1 (Wall Socket):** Connect the power adapter to the controller's input port, then plug the adapter into a standard electrical outlet.
    - **Option 2 (Power Bank):** Connect the USB cable to the controller's input port, then plug the USB cable into a compatible power bank (not included).
3. **Prepare for Use:** Ensure all connections are secure before proceeding to operation.

Image 4.1: Illustration of the two power supply methods. This diagram shows how to connect the device to either a wall socket using the provided adapter or to a power bank using a USB cable.

5. Operating Instructions

To begin using your Viconor Red Light Therapy Foot Wraps:

1. **Wear the Wraps:** Place your feet into the wraps. Adjust the Velcro straps to ensure a comfortable and secure fit around your feet and ankles. The ergonomic design allows for use on various joint parts, including ankles and elbows.
2. **Power On:** Press the power button on the controller to turn on the device. The default setting is typically 30 minutes.
3. **Select Mode:** Use the 'M' button on the controller to cycle through the 5 available modes. Refer to Section 6 for details on each mode.
4. **Adjust Intensity:** Use the up and down arrow buttons to adjust the intensity level (1-4) or to activate the pulse mode (Mode 5).
5. **Set Time:** The device has a default timer. If adjustable, use the timer buttons on the controller to set your desired session duration.

6. **Relax and Enjoy:** Once settings are configured, you can relax while the device operates.
7. **Power Off:** The device will automatically shut off after the set time. You can also manually turn it off by pressing the power button.

Image 5.2: This image illustrates the versatility of the Viconor device, showing it applied to both an elbow and an ankle, indicating its adaptability for various joint areas.

6. Modes and Settings

The controller allows you to select from 5 different modes, each offering varying intensity levels:

Mode	Intensity (Watt)	Energy Absorption
1	4W	25%
2	9W	50%
3	13W	75%
4	25W	100%
5	12W	Pulse mode

Use the 'M' button to switch between modes and the arrow buttons to adjust intensity or activate pulse mode. The default session time is 30 minutes.

Image 6.1: The Viconor controller and a corresponding table. This image displays the handheld controller with its buttons for mode and intensity selection, alongside a table explaining the 5 operational modes, their wattage, and energy absorption percentages.

7. Maintenance

Proper maintenance ensures the longevity and performance of your device:

- **Cleaning:** Disconnect the device from the power source before cleaning. Wipe the surface of the wraps with a soft, slightly damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the device is completely dry before storage or next use.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures. Keep it in its original packaging or a protective bag to prevent dust accumulation.
- **Inspection:** Regularly inspect the cables and connections for any signs of wear or damage. If any damage is found, discontinue use and contact customer support.

8. Troubleshooting

If you encounter issues with your Viconor Red Light Therapy Foot Wraps, refer to the following common problems and solutions:

- **Device does not turn on:**
  - Ensure the power adapter is securely plugged into both the controller and the wall outlet, or that the USB cable is firmly connected to a charged power bank.
  - Check if the power outlet is functional by plugging in another device.
  - Verify that the foot wraps are correctly connected to the controller.
- **Lights are dim or flickering:**
  - Check the power connection. A loose connection can cause inconsistent power supply.
  - Ensure the power source (wall outlet or power bank) is providing sufficient power.
  - Try adjusting the intensity settings on the controller.
- **Controller buttons are unresponsive:**
  - Disconnect and reconnect the power source to reset the device.
  - Ensure the controller cable is not damaged.

If these steps do not resolve the issue, please contact Viconor customer support for further assistance.
