

WMK IDW13

WMK Smart Watch User Manual

Model: IDW13

1. INTRODUCTION

Thank you for choosing the WMK Smart Watch. This manual provides essential information for setting up, operating, and maintaining your new smartwatch. Please read it thoroughly to ensure optimal performance and longevity of your device.

The WMK Smart Watch is designed to enhance your daily life with features such as Bluetooth calling, health monitoring, fitness tracking, and smart notifications, all accessible through a vibrant 1.8-inch HD touchscreen.

2. WHAT'S IN THE BOX

Upon unboxing, please verify that all the following components are included:

- Smartwatch Body ×1
- Smartwatch Band ×1
- Smartwatch Charger Cable ×1
- Smartwatch Manual ×1

Image: The WMK Smart Watch in green, showcasing its display and side button, alongside smaller images illustrating its call and Alexa features.

3. SETUP

3.1 App Installation

To unlock the full potential of your WMK Smart Watch, you need to download and install the companion app, 'VeryFit', on your smartphone. The app is compatible with iOS 9.0 and above, and Android 6.0 or above.

1. Scan the QR code provided in the quick start guide or search for 'VeryFit' in your phone's app store (Apple App Store for iOS, Google Play Store for Android).
2. Download and install the app.
3. Open the 'VeryFit' app and follow the on-screen instructions to create an account or log in.

3.2 Device Pairing

Once the app is installed and you are logged in, proceed with pairing your smartwatch:

1. Ensure your smartwatch is charged and powered on.
2. Enable Bluetooth on your smartphone.
3. In the 'VeryFit' app, navigate to the 'Device' or 'Add Device' section.
4. The app will search for nearby devices. Select 'IDW13' or the corresponding device name when it appears.
5. Confirm the pairing request on both your smartphone and the smartwatch if prompted.

1.8" HD Touch Screen

The main image shows a smartwatch with a black face and a green strap. The watch face displays '08' in large white digits, 'JUL 19 SUN' below it, and '09' in red digits. To the right of the watch is a vertical battery level indicator with a sun icon at the top and a battery icon at the bottom. The indicator shows 100% at the top, 50% in the middle, and 30% at the bottom.

200 kinds of online dials

Below the text '200 kinds of online dials' are four examples of different watch dials: a photo of two people, a heart rate monitor showing '48BPM NOW', a red rose, and a cat face. Below these examples is the text 'Customize Smart Watch Dials'.

On the left side of the graphic, there is a smartphone showing a photo selection interface. The phone screen displays '10:55', '5G', and '10:28'. Below the phone is a smaller smartwatch showing a photo of a family and the text 'THU 05 10:08'.

4. OPERATING YOUR SMART WATCH

4.1 Call Receiving/Dialing & Alexa Built-in

The WMK Smart Watch features an advanced single-chip processor and a sensitive microphone, enabling you

to make and receive calls directly from your wrist via Bluetooth 5.3. It also syncs contacts and stores call logs.

- **Making Calls:** Access the dial pad or contacts list on your watch to initiate a call.
- **Receiving Calls:** When a call comes in, you can answer or reject it directly from the watch screen.
- **Alexa Voice Assistant:** With Alexa built-in, you can use voice commands for various tasks, such as setting alarms, checking the weather, or controlling smart home devices. Simply activate Alexa on your watch and speak your command.

Image: A close-up of a hand wearing the smartwatch, showing the Alexa voice assistant interface with examples of commands like 'Listening...' and 'How's the weather?'.

4.2 Message Notification

Stay connected with real-time notifications for SMS, Email, and various social media apps (Facebook, WhatsApp, Instagram, Twitter, Telegram, TikTok, etc.). All notifications are delivered via vibration to ensure you don't miss important alerts. Please note that replying to messages directly from the watch is not supported.

4.3 Health Monitoring

Equipped with high-performance optical sensors, the smartwatch continuously monitors your health metrics:

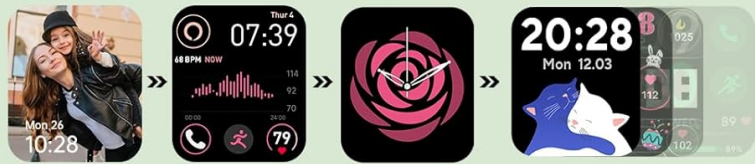

- **Heart Rate:** 24-hour continuous heart rate monitoring with alerts for low/high rates.
- **SpO2 (Blood Oxygen):** Monitors your blood oxygen levels throughout the day.
- **Stress Level:** Helps you understand and manage your stress levels.
- **Sleep Tracking:** Automatically monitors your sleep status, including deep sleep, light sleep, and wakefulness.
- **Activity Tracking:** Records daily walking steps, distances, and calories burned.

Note: This device is for non-medical use and should not be used to diagnose or treat medical conditions.

5. MAINTENANCE

5.1 Waterproof Rating

The WMK Smart Watch has an IP68 waterproof rating, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. This makes it suitable for daily use, including showering, hand washing, and swimming. However, it is not recommended for hot water activities, diving, or high-pressure water exposure.

7 Days
Battery Life

IOS and Android
Compatible

5.2 Battery Life and Charging

The smartwatch can be fully charged in approximately 2.5 hours. A full charge provides up to 7 days of normal use and up to 30 days of standby time. Use the provided magnetic charging cable to charge your device.

- Connect the magnetic end of the charging cable to the charging points on the back of your smartwatch.
- Connect the USB end of the cable to a USB power adapter (5V/1A recommended) or a computer USB port.
- The watch screen will indicate charging status.

6. TROUBLESHOOTING

If you encounter any issues with your WMK Smart Watch, please refer to the following common solutions:

- **Device not turning on:** Ensure the watch is fully charged. Connect it to the charger and wait a few

minutes before attempting to power it on again.

- **Cannot pair with phone:** Make sure Bluetooth is enabled on your phone and the watch is within range. Restart both your phone and the watch, then try pairing again through the 'VeryFit' app.
- **Notifications not received:** Check the notification settings within the 'VeryFit' app to ensure all desired app notifications are enabled. Also, verify that your phone's notification settings allow the 'VeryFit' app to display alerts.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, about one finger's width above your wrist bone. Clean the sensor on the back of the watch regularly.
- **Short battery life:** Reduce screen brightness, disable unnecessary features like 'raise to wake', and limit continuous heart rate monitoring if not needed constantly.

For persistent issues, please contact WMK customer support.
