3. COMPATIBILITY

The SwanScout 303S is specifically designed for the following Samsung Galaxy Watch models:

- Galaxy Watch 8 Classic / 8 / 7 / Ultra

- Galaxy Watch 6 Classic / 6
- Galaxy Watch 5 Pro / 5
- Galaxy Watch 4 / 4 Classic
- Galaxy Watch 3
- Galaxy Watch Active 2 / Active 1

Note: This charger is NOT compatible with Galaxy Watch (42mm/46mm), Gear S2/S2 Classic/S3, or Gear Sport models.

4. SETUP AND INITIAL USE

4.1 Charging the Portable Charger

Before first use, fully charge the SwanScout 303S. Connect the provided USB-C cable to the charger's USB-C input port and plug the other end into a compatible USB power adapter (not included).

- The LED indicators will illuminate to show the charging status.
- Four solid LEDs indicate a full charge.

4.2 Powering On/Off

- **Power On:** Press the power button once. The LED indicators will show the current battery level.
- **Power Off:** Double-click the power button.

The SwanScout 303S charger highlighting the USB-C input port and LED power indicators, which show battery levels from 0-25% to 75-100%.

5. OPERATING INSTRUCTIONS

5.1 Charging Your Samsung Watch

1. Ensure the portable charger is powered on.
2. Gently pull out the charging module from the main unit. It will rotate to an upright position.
3. Place your compatible Samsung Galaxy Watch onto the magnetic charging surface. The watch will securely attach, and charging will begin automatically.
4. Monitor your watch screen for charging confirmation.

Foldable Design

The SwanScout 303S charger in both flat and upright configurations, with a Samsung Galaxy Watch charging on each, illustrating its foldable design and 90-degree rotation capability.
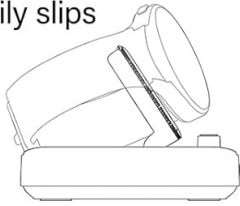

5.2 Adjustable Charging Angle

The charging module can be adjusted to a 90-degree angle for optimal contact and stability. Ensure the watch is placed firmly against the charging surface at an angle of 80 degrees or more to prevent non-contact charging and accidental slips.

Adjustable Height Design
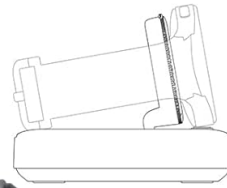

Compatible with Galaxy Watch

A visual guide demonstrating the adjustable height design, showing that an angle greater than 80 degrees ensures proper contact for charging, while less than 80 degrees can lead to non-contact and slipping.

5.3 Nightstand Mode

When charging in the upright position, your Samsung Galaxy Watch may activate Nightstand Mode, allowing you to view the time and notifications easily. This feature is ideal for bedside charging.
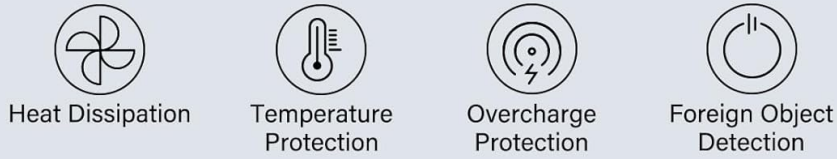

6. SAFETY INFORMATION

The SwanScout 303S is equipped with multiple safety features to protect your device and ensure safe operation:

- **Heat Dissipation:** Designed to manage and dissipate heat effectively during charging.
- **Temperature Protection:** Automatically regulates temperature to prevent overheating.
- **Overcharge Protection:** Prevents damage from overcharging.
- **Foreign Object Detection (FOD):** Detects metallic foreign objects on the charging surface to prevent potential hazards.

Always use the charger in a well-ventilated area and avoid exposing it to extreme temperatures or moisture.

Safety Charging

- Heat Dissipation
- Temperature Protection
- Overcharge Protection
- Foreign Object Detection

An exploded diagram of the SwanScout 303S charger illustrating its internal components and highlighting key safety features such as heat dissipation, temperature protection, overcharge protection, and foreign object detection.

7. MAINTENANCE

- **Cleaning:** Disconnect the charger from power before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping or subjecting the charger to strong impacts.

8. TROUBLESHOOTING

Issue: Watch is not charging.

- Ensure the portable charger is powered on (single press of the power button).
- Check if the watch is correctly aligned on the magnetic charging surface.
- Verify that the charging module is securely pulled out and positioned at an angle of 80 degrees or more.
- Ensure there are no foreign objects between the watch and the charging surface.
- Check the portable charger's battery level using the LED indicators. Recharge if necessary.

Issue: Slow charging.

- Ensure the watch is properly aligned for optimal contact.
- The charging speed may vary depending on the watch model and its current battery level.

Issue: Charger gets warm during use.

- It is normal for the charger to become slightly warm during operation. If it becomes excessively hot, discontinue use and contact customer support.

9. PRODUCT SPECIFICATIONS

Model Number	S10018
Battery Type	Lithium Polymer
Battery Capacity	1800mAh
Input Voltage	5 Volts
Amperage	1 Amps
Wattage	2.5 watts
Item Weight	4.7 ounces
Dimensions	4.61 x 3.39 x 1.02 inches

10. WARRANTY AND CUSTOMER SUPPORT
