Pipishell Floating Shelves Set of 6 (Model PIFS37) Instruction Manual

Your guide to installation, usage, and maintenance.

1. INTRODUCTION

Thank you for choosing the Pipishell Floating Shelves Set of 6, Model PIFS37. This set includes six versatile shelves designed to enhance your living space with both functionality and aesthetic appeal. Crafted from natural Paulownia wood and supported by powder-coated steel brackets, these shelves offer two distinct installation methods to suit your needs. This manual provides detailed instructions for assembly, installation, usage, and care to ensure a safe and satisfying experience.

5. SETUP AND INSTALLATION

Before you begin, ensure you have the following tools (not included): pencil, measuring tape, level, drill, screwdriver, and hammer (for wall anchors).

5.1. Choosing Your Installation Method

The Pipishell Floating Shelves offer two installation options:

- **Floating Shelf (Concealed Brackets):** For a minimalist look, the brackets are hidden beneath the shelf.
Maximum load capacity: **10 lbs (4.5 kg).**
- **Standard Shelf (Visible Brackets):** For increased support, the brackets are installed below the shelf, visible.
Maximum load capacity: **40 lbs (18 kg).**

Two Ways to Install

5.2. General Installation Steps (Applies to both methods)

1. **Mark Position:** Choose the desired location for your shelf. Use a level and pencil to mark the positions for the bracket holes on the wall. Ensure the marks are level and spaced correctly for the chosen shelf size.
2. **Drill Holes:** Using an appropriate drill bit for your wall type and the provided wall anchors, drill pilot holes at the marked positions.
3. **Insert Anchors:** Gently tap the wall anchors into the drilled holes with a hammer until they are flush with the wall surface.
4. **Attach Brackets:** Align the brackets with the wall anchors and secure them to the wall using the provided screws and a screwdriver. Ensure they are firmly attached.
5. **Mount Shelf:**
 - a. **For Floating Installation:** Place the wooden shelf onto the brackets, ensuring the brackets fit into the pre-drilled slots on the underside of the shelf. Secure the shelf to the brackets using the smaller screws provided, from the underside.
 - b. **For Standard Installation:** Place the wooden shelf on top of the installed brackets. Secure the shelf to the brackets using the smaller screws provided, drilling through the pre-drilled holes on the top surface of the brackets into the underside of the shelf.
6. **Verify Stability:** Gently test the shelf's stability before placing items on it.

6. USAGE

These shelves are designed for displaying decorative items, books, small plants, and other lightweight objects. Be mindful of the weight limits for each installation type (10 lbs for floating, 40 lbs for standard) to prevent damage or injury. The set includes three different sizes, allowing for flexible arrangement in various rooms such as living rooms, bedrooms, and bathrooms.

7. MAINTENANCE

To maintain the appearance and longevity of your Pipishell Floating Shelves:

- Wipe the shelves with a soft, damp cloth to remove dust and dirt.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the wood finish.

- Ensure the shelves are dry after cleaning to prevent moisture damage, especially in humid environments like bathrooms.
- Periodically check the mounting screws and tighten if necessary to ensure continued stability.

8. TROUBLESHOOTING

- **Shelf feels unstable after installation:**
 - Ensure all screws are tightened securely.
 - Verify that the wall anchors are properly seated in the wall.
 - Check if the wall material is suitable for the chosen anchors. You may need different anchors for drywall, plaster, or concrete.
 - Ensure you are not exceeding the specified weight limit for your installation method.
- **Shelf is not level:**
 - Re-check your initial markings with a level before drilling.
 - Adjust the bracket positions slightly if possible, or re-drill if necessary.
- **Missing parts:**
 - Carefully check all packaging materials. If parts are genuinely missing, contact Pipishell customer support.

9. WARRANTY AND SUPPORT

Pipishell products are designed for quality and durability. For any questions, concerns, or warranty claims regarding your Floating Shelves Set, please refer to the contact information provided with your purchase or visit the official Pipishell website for customer support. Please have your model number (PIFS37) and purchase details ready when contacting support.

10. DISPOSAL INFORMATION

When the product reaches the end of its useful life, please dispose of it responsibly according to local regulations. The wood components can typically be recycled or disposed of as general waste, while metal brackets may be recyclable at designated facilities.
