CATLINK Baymax

CATLINK Baymax Self-Cleaning Litter Box

INSTRUCTION MANUAL

Introduction

Thank you for choosing the CATLINK Baymax Self-Cleaning Litter Box. This innovative product is designed to simplify cat care by providing an automated, hygienic, and safe litter solution. With smart features like app control, health monitoring, and multiple cleaning modes, the Baymax ensures a clean environment for your cat and convenience for you.

This manual provides essential information for setting up, operating, maintaining, and troubleshooting your CATLINK Baymax litter box. Please read it thoroughly before use to ensure optimal performance and safety.

Setup

- Unpacking and Component Check:** Carefully remove all components from the packaging. Verify that all items listed in the 'Complete Accessories' section are present.
- Placement:** Place the litter box on a flat, stable surface in a well-ventilated area. Ensure it is within range of your 2.4 GHz Wi-Fi network for app connectivity. Avoid placing it near heat sources or in direct sunlight.
- Power Connection:** Connect the power adapter to the litter box and plug it into a standard electrical outlet.
- Litter Filling:** Open the top of the litter box and fill the inner drum with clumping cat litter. Do not exceed the 'MAX' fill line indicated inside the drum. For optimal cleaning, use the blue filter for expanded litter and the orange filter for mixed litter.

- 5. App Download and Connection:** Download the CATLINK app from your smartphone's app store. Follow the in-app instructions to connect your litter box to your 2.4 GHz Wi-Fi network. This enables remote control and health monitoring features.

Operating Instructions

The CATLINK Baymax offers four distinct cleaning modes to suit your preferences and your cat's habits:

- **Automatic Mode:** The litter box automatically cleans after your cat exits, ensuring a consistently fresh environment.
- **Scheduled Mode:** Set specific times for cleaning cycles via the app. This is ideal for maintaining a routine.
- **Manual Mode:** Initiate a cleaning cycle manually at any time using the button on the unit or through the app.
- **Full Emptying Mode:** This mode completely empties the litter from the drum into the waste bin, useful for full litter changes.

Smart Features via CATLINK App:

- **Health Monitoring:** The app tracks your cat's weight, litter box usage frequency, and duration. It provides real-time alerts for abnormal behaviors, helping you monitor your cat's health.
- **Multi-Cat Recognition:** Create personalized profiles for each cat in your household. The system can differentiate between multiple cats, providing individual health data.
- **Consumable Alerts:** Receive notifications when litter levels are low, or when the waste bag or odor neutralizer needs replacement.

SUIVI SANTÉ INTELLIGENT :

Maintenance

- Waste Bag Replacement:** When the waste bin is full (indicated by an alert on the unit or app), simply remove the full bag and replace it with a new one. The hermetically sealed container prevents odors.
- Cleaning the Unit:** The inner sphere is detachable for easy cleaning. Simply remove it, rinse with water, and allow it to dry completely before reassembling. The anti-leak base and anti-adhesive material facilitate cleaning.
- Filter Maintenance:** Regularly check and clean the appropriate filter (blue for expanded litter, orange for mixed litter) to ensure efficient sifting. Replace filters as needed.
- Odor Neutralizer:** The automatic deodorizer activates after each cleaning cycle. Replace the deodorizing gel as indicated by the app or when effectiveness diminishes.

Safety Information

- Do not use for pets under 6 months old or weighing less than 1.5 kg.
- The CATLINK Baymax is equipped with 7 high-performance anti-clogging sensors and 4 advanced protection modes to ensure your cat's safety:
 - **Infrared Detection:** Detects presence of cat.
 - **Weight Sensor:** Stops operation if cat enters during a cycle.
 - **Smart Rotation:** Prevents pinching or trapping.
 - **Anti-Pinch System:** Ensures no body parts are caught.
- Always ensure the unit is unplugged before performing any manual cleaning or maintenance that requires

reaching inside the drum.

Protection Totale pour Votre Chat !

Rotation – Aucun Coincement !

Troubleshooting

- Connection Issues:** Ensure your Wi-Fi is 2.4 GHz. Try restarting your router and the litter box. If issues persist, refer to the app's connection guide.
- Cleaning Inefficiency:** Check that the litter level is not above the 'MAX' line. Ensure you are using the correct filter for your litter type. Clean the inner drum and sensors regularly.
- Odor Persistence:** Verify the waste bag is properly sealed and replaced when full. Ensure the odor neutralizer is active and replaced as needed.
- Unit Not Responding:** Check power connection. If the unit is stuck, ensure no foreign objects are obstructing the rotation. Refer to the app for specific error codes or alerts.

- **False Alerts:** Ensure the litter box is on a stable, level surface. Avoid placing objects near the entrance that could trigger sensors.

For more detailed troubleshooting or persistent issues, please consult the CATLINK app's help section or contact customer support.

Specifications

Feature	Specification
Product Dimensions (L x W x H)	53.28 x 54.5 x 59.9 cm
Weight	11 Kilograms
Model Number	Baymax
Color	Baymax
Material	Acrylonitrile Butadiene Styrene (ABS)
Litter Capacity	70 Liters (approx.)
Waste Bin Capacity	7 Liters
Suitable Cat Weight	1.5 kg to 10 kg
Special Features	Wi-Fi Connectivity, App Control, Real-time Health Monitoring, Multiple Cleaning Modes, Automatic Deodorization
