

Vaydeer LB1021

Vaydeer Metal Time Lock Box User Manual

Model: LB1021

INTRODUCTION

The Vaydeer Metal Time Lock Box is designed to help users manage screen time, resist distractions, and foster self-control by temporarily securing items. This device is ideal for limiting access to mobile phones, snacks, medication, and other items to promote healthier habits and improve focus.

Key features include:

- **Durable Metal Construction:** Ensures the security and longevity of the lock box.
- **Extended Locking Time:** Can be set for up to 365 days.
- **Emergency Unlocking Function:** Provides a mechanism to access items in urgent situations.
- **Dual Power Supply:** Operates with 4 AA batteries or via USB-C for continuous power.
- **Charging Slot:** Allows electronic devices to be charged while locked inside.
- **Child Lock:** Prevents accidental button presses.

SETUP

Powering the Device

The Vaydeer Time Lock Box can be powered in two ways:

- AA Batteries:** Insert 4 AA batteries (not included) into the battery compartment located on the underside of the box. This provides portable power.
- USB-C Connection:** For continuous power or in case of dead batteries, connect the provided USB-C cable to the port on the back of the box and to a power source.

Image: The lock box offers flexible power options: 4 AA batteries for portability and a USB-C port for continuous power or emergency access if batteries deplete.

Child Lock Feature

To prevent accidental button presses, especially by children, the lock box includes a child lock button. This feature ensures that the timer settings are not inadvertently altered once set.

Charging Slot

A dedicated slot is provided to allow charging cables to pass through, enabling you to charge electronic devices like phones or tablets while they are securely locked inside the box.

OPERATING INSTRUCTIONS

Setting the Timer

- Ensure the lid is open.
- Press the **'Setting'** button (gear icon) to select the time unit (Days, Hours, Minutes).
- Use the **'Up'** (▲) and **'Down'** (▼) buttons to adjust the desired duration.
- The timer can be set for a maximum of 365 days.

Locking the Box

- Place the items you wish to secure inside the box.
- Close the lid firmly.

3. Press the '**Lock**' button (padlock icon) to activate the timer and secure the box. An audio alert will sound, and the countdown will begin.
4. Once locked, the box cannot be opened until the set time has elapsed.

EMERGENCY UNLOCKING

In urgent situations, the Vaydeer Time Lock Box features an exclusive emergency unlocking function. This allows you to bypass the timer if immediate access to your items is required.

1. **Get Device ID:** Press and hold the 'Up' (▲) and 'Down' (▼) buttons simultaneously, then press the 'Lock' button (padlock icon). The display will show a unique device ID.
2. **Self-Service Unlocking:** Follow the emergency unlock prompts provided on the service card included with your product. This typically involves obtaining a code using your device ID.
3. **Successfully Unlocked:** Once the correct code is entered, the box will unlock, allowing you to retrieve your items.

MAINTENANCE

To ensure the longevity and proper functioning of your Vaydeer Metal Time Lock Box, follow these maintenance guidelines:

- **Cleaning:** Wipe the exterior with a soft, dry cloth. Avoid using abrasive cleaners or solvents that could damage the finish.
- **Battery Replacement:** Replace AA batteries when the low battery indicator appears on the LED screen to ensure continuous operation.
- **Storage:** Store the lock box in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Force:** Do not attempt to force open the lid or tamper with the locking mechanism, as this may cause damage and void the warranty.

TROUBLESHOOTING

Box Not Opening After Timer Expires

If the box does not open automatically after the timer reaches zero, ensure that the batteries are not depleted. If using batteries, try connecting the USB-C cable for emergency power. If the issue persists, refer to the emergency unlocking procedure.

Display Not Working

Check the battery level. If the batteries are low or dead, replace them or connect the USB-C cable to power the device.

Accidental Locking

If the box is accidentally locked with an incorrect timer setting, use the emergency unlocking function as described in the 'Emergency Unlocking' section.
