

HiWe Magnetic Card Holder

HiWe MagSafe Wallet Instruction Manual

MODEL: MAGNETIC CARD HOLDER

Brand: HiWe

1. Introduction and Overview

Thank you for choosing the HiWe Magnetic Card Holder. This minimalist wallet is designed to securely attach to your MagSafe-compatible iPhone, providing convenient storage for your essential cards and cash. Featuring a strong magnetic attachment, RFID blocking technology, and a slim profile, it enhances your daily carry experience.

2. Setup and Installation

- 1. Prepare your iPhone:** Ensure your iPhone is a 12 series or newer (iPhone 12/13/14/15/16/17 series). The wallet is designed for direct attachment to the iPhone or to an official MagSafe case or other magnetic-compatible cases.
- 2. Clean the surface:** Wipe the back of your iPhone or MagSafe case to ensure it is clean and free of dust or oils.
- 3. Attach the wallet:** Align the HiWe Magnetic Card Holder with the MagSafe ring on the back of your iPhone or compatible case. The strong magnets will snap the wallet securely into place.
- 4. Verify attachment:** Gently tug on the wallet to ensure it is firmly attached. It should not easily slide or detach under normal use.

Important: This wallet is incompatible with non-magnetic cases, even thin ones. Please ensure your phone or phone case has sufficient magnetic attraction for secure attachment.

3. Operating Instructions

- **Card Capacity:** The HiWe Magnetic Card Holder can securely hold up to 7 cards or a combination of cards and cash. The elastic fabric band ensures your items remain snug.

- **Inserting Cards:** Gently slide your cards into the main pocket of the wallet. The elastic material will adjust to accommodate the number of cards.
- **Fast Access (Thumb Slot):** To retrieve a card, use the convenient thumb slot located at the bottom of the wallet. Push upwards with your thumb to partially eject the cards, making them easy to grasp and pull out.

4. Key Features

- **Stronger Magnetic Force:** Equipped with magnets that are 3 times stronger than official magnetic wallets, providing up to 4200g of magnetic force for a firm hold on your iPhone.
- **RFID/NFC Blocking:** The wallet features built-in RFID/NFC blocking technology (13.56MHz) to protect your driver's licenses, credit cards, debit cards, and ID cards from unauthorized scanning, safeguarding your personal information.
- **Minimalist & Well-Made Design:** Crafted from premium PU leather and stretchy elastic fabric, this slim wallet (3.8" x 2.65" x 0.18") adds minimal bulk to your phone while offering durability and a sleek appearance.

5. Compatibility

The HiWe Magnetic Card Holder is compatible with:

- iPhone 12, 13, 14, 15, 16, and 17 series (when used caseless or with an official MagSafe case or other magnetic-compatible cases).
- Other phones with MagSafe cases or rings (e.g., iPhone 11/XR/XS/X series with MagSafe case, Pixel 8/7/6/5/4/3 series with MagSafe case).

Note: May conflict with camera lenses on some larger phones, such as the Samsung S24 Ultra, if not properly aligned or if the phone's design interferes with the wallet's placement.

6. Maintenance

- **Cleaning:** To clean the vegan leather and elastic fabric, gently wipe with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the wallet in a cool, dry place away from direct sunlight to prevent material degradation.
- **Avoid Overstuffing:** While the elastic is durable, consistently overstuffing the wallet beyond its recommended capacity (7 cards) may lead to stretching and reduced card security over time.

7. Troubleshooting

- **Wallet detaches easily:**
 - Ensure your iPhone or case is MagSafe compatible and has sufficient magnetic strength.
 - Remove any non-magnetic cases that may interfere with the magnetic connection.
 - Clean the magnetic surfaces on both the wallet and your device.
- **Cards are loose or fall out:**
 - Check if the wallet is overstuffed. Reduce the number of cards to within the recommended capacity (up to 7 cards).
 - The elastic band may stretch over time with excessive use. If the issue persists, contact customer support.
- **Difficulty retrieving cards:**
 - Ensure you are using the thumb slot at the bottom of the wallet to push cards up.

For any abnormalities such as weak magnet, damaged packaging, or product defects not covered here, please contact customer support.

8. Product Specifications

Answered questions about this manual

Should I remove the paper covering on the HiWe MagSafe Wallet magnet, and will it leave a sticky residue on my phone case if I remove the wallet frequently?

Yes, you should remove any protective paper or plastic film covering the magnetic surface of the HiWe MagSafe Wallet before use. This ensures the strongest possible magnetic connection (up to 4200g of force) between...
