John Deere LP82799

John Deere 1/16 9RX 640 Prestige Collection Tractor Toy

Model: LP82799

Introduction

The John Deere 1/16 9RX 640 Prestige Collection Tractor Toy (Model LP82799) is a highly detailed die-cast replica designed for collectors and enthusiasts aged 14 and up. This model accurately represents the 9RX 640 tractor, featuring a 13.6L diesel engine, updated engine details, a right-side body panel, and an exhaust stack. It is constructed with a durable die-cast frame, draw bar, and track frames, and is configured with authentic front and rear tracks.

Key features include an articulated frame, an opening hood, an authentic style rear draw bar, an opening left-side cab door, and clear cab windows that reveal a detailed interior. The model also includes light details and pivoting mirrors, providing a realistic representation of the full-size tractor.

What's in the Box

Upon opening the packaging, you will find the following item:

- One (1) John Deere 1/16 9RX 640 Prestige Collection Tractor Toy (Model LP82799)

Setup

Unpacking

1. Carefully remove the model from its packaging. The packaging is designed to protect the model during transit.
2. Retain the packaging for future storage or transport, if desired.

Initial Inspection

Before display or handling, inspect the model for any visible damage that may have occurred during shipping. While the model is robustly constructed, delicate parts should be handled with care.

Operating Your Model

This 1/16 scale model features several movable parts designed to replicate the functionality of the real John Deere 9RX 640 tractor. Handle these parts gently to ensure longevity.

Articulated Frame

The tractor features an articulated frame, allowing the front and rear sections to pivot relative to each other. This mimics the steering mechanism of the actual tractor. Gently pivot the sections to observe this feature.

Opening Hood

The hood of the tractor can be opened to reveal the detailed engine compartment. Carefully lift the hood from the front to access the engine details.

Cab Door

The left-side cab door is designed to open, providing a view of the detailed interior. Gently pull the door outwards to open it and push it back to close.

Pivoting Mirrors

The side mirrors on the cab are designed to pivot. These can be adjusted slightly to simulate real-world functionality.

Care and Maintenance

Proper care will ensure the longevity and appearance of your John Deere Prestige Collection model.

- **Cleaning:** To clean the model, gently wipe it with a soft, dry, lint-free cloth. For stubborn dust or smudges, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the paint and plastic components.
- **Handling:** Always handle the model by its main body or frame. Avoid putting excessive pressure on delicate parts such as mirrors, exhaust stacks, or small details.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause fading of paint and decals. If storing for an extended period, consider keeping it in its original packaging or a display case to protect it from dust and accidental damage.

Troubleshooting

While this model is built for durability, minor issues may arise. Here are some common concerns and their resolutions:

- **Stiff Moving Parts:** If the articulated frame, hood, or cab door feel stiff, do not force them. Gently manipulate the part back and forth a few times. Avoid applying lubricants unless specifically recommended by the manufacturer, as some lubricants can damage plastic.
- **Dust Accumulation:** For dust in hard-to-reach areas, use a soft brush (like a clean, dry paintbrush) or compressed air (used carefully and from a distance) to dislodge particles.
- **Minor Scratches/Paint Chips:** For minor cosmetic imperfections, touch-up paint is generally not recommended as it can further detract from the model's original finish. For significant damage, consider consulting a professional model restorer.

Product Specifications

Feature	Detail
Model Number	LP82799
Scale	1/16
Product Dimensions (L x W x H)	Approximately 16 x 8 x 9 inches
Item Weight	Approximately 18 pounds
Recommended Age	14 years and up (Adult Collectible)
Materials	Die-Cast metal replica with some plastic parts
Manufacturer	ERTL
