- Use coasters under drinks to prevent water marks.
- Periodically check and tighten all screws to maintain stability.
- The product is not stain resistant; promptly clean any spills.

7. Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Table is wobbly or unstable.	Loose screws or uneven floor.	Tighten all assembly screws. Ensure the table is on a flat, level surface. Use furniture pads if necessary.
Drawers do not slide smoothly.	Misaligned drawer slides or debris in tracks.	Check that drawer slides are correctly installed and aligned. Clear any dust or debris from the tracks. Apply a small amount of silicone lubricant if needed.
Difficulty during assembly.	Instructions misunderstood or parts misidentified.	Review the detailed assembly instructions carefully. Ensure all parts are correctly identified by their numbers. If possible, have a second person assist.
