

Kit Cat Klock LBC-55

Kit-Cat Klock Limited Edition Festival Orange

INSTRUCTION MANUAL

Model: LBC-55

Product Overview

The Kit-Cat Klock Limited Edition Festival Orange is a classic battery-operated wall clock featuring the iconic moving eyes and wagging tail. This timepiece is designed to add a touch of retro charm and whimsy to any indoor space.

Setup

1. **Unpacking:** Carefully remove the clock and its components from the packaging. Ensure all parts are present, including the clock body and the separate tail piece.
2. **Battery Installation:**
Locate the battery compartment on the back of the clock. Insert two (2) C batteries (not included) according to the polarity indicators (+/-). Ensure batteries are seated firmly for proper connection.

Image: Rear view of the Kit-Cat Klock, highlighting the battery compartment for installation.

- 3. **Attach the Tail:** Gently slide the tail piece into the slot at the bottom of the clock body until it is securely in place. The tail should swing freely.
- 4. **Set the Time:** Use the small dial on the back of the clock's movement mechanism to set the correct time.
- 5. **Mounting:** Hang the clock on a sturdy wall hook or screw. The clock is designed for wall mounting and should be placed on a flat, stable surface to allow the tail and eyes to move freely.

Operating Instructions

Once batteries are installed and the time is set, the Kit-Cat Klock will begin operating. The quartz movement ensures accurate timekeeping, while the signature eyes will roll from side to side and the tail will wag continuously, adding a lively touch to your space.

- **Timekeeping:** The clock operates continuously as long as the batteries provide power.
- **Animated Features:** The eyes and tail are designed to move automatically once the clock is powered. No additional action is required to activate these features.

Maintenance

- **Cleaning:** To clean the clock, gently wipe the surface with a soft, dry cloth. Avoid using abrasive cleaners or solvents, as these may damage the finish.
- **Battery Replacement:** Replace batteries when the clock's movement slows down or stops, or when the eyes and tail animation becomes sluggish. Always replace both C batteries simultaneously.
- **Dust Accumulation:** Periodically check for dust accumulation around the moving parts (eyes and tail mechanism) and gently remove it to ensure smooth operation.

Troubleshooting

Problem	Possible Cause	Solution
Clock not running or running slowly.	Dead or low batteries; incorrect battery installation.	Replace both C batteries with new ones, ensuring correct polarity.

Problem	Possible Cause	Solution
Eyes or tail not moving.	Loose battery connection; obstruction in mechanism; clock not level.	<ul style="list-style-type: none">• Check battery connection. Some users have found that placing a small piece of foil or a penny at the bottom of the battery compartment can improve contact if batteries are slightly loose.• Ensure the clock is hanging perfectly level on the wall.• Gently check for any obstructions around the eye or tail mechanism.• If the motor for the eyes/tail movement stops working while the clock still tells time, this may indicate a mechanical issue.
Clock makes unusual noises.	Internal mechanism issue; clock not level.	Ensure the clock is hanging level. If noises persist, contact customer support.

Specifications

Brand: Kit Cat Klock

Model: LBC-55

Color: Festival Orange

Display Type: Analog

Style: Retro

Special Feature: Moving Eyes & Tail

Product Dimensions: 3.94"W x 15.75"H (10cm W x 40cm H)

Power Source: Battery Powered

Batteries Required: 2 x C batteries (not included)

Mounting Type: Wall Mount

Watch Movement: Quartz

Material: Plastic

Manufacturer: California Clock Company

Country of Origin: USA

Item Weight: 13.4 ounces

UPC: 090132005226
