

WEEWAY KBBT0003

WEEWAY King Size Platform Bed Frame Instruction Manual

Model: KBBT0003 | Brand: WEEWAY

1. INTRODUCTION AND SAFETY INFORMATION

Thank you for purchasing the WEEWAY King Size Platform Bed Frame. This manual provides essential information for safe assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Important Safety Instructions:

- **Maximum Weight Capacity:** The bed frame is designed to support a maximum weight of **1000 pounds**. Do not exceed this limit to prevent structural failure and potential injury.
- **Assembly Caution:** Exercise caution during assembly to avoid injury from tools or components. It is recommended to assemble with at least two adults.
- **Headboard Security:** Ensure the adjustable headboard is properly secured at your desired height to prevent it from collapsing.
- **Drawer Use:** Use the storage drawers properly. Do not overload them or stand on them.
- **Material Safety:** The bed frame is constructed from fabric, wood, and metal. Be aware of potential sharp edges or points during handling and assembly.
- **Children and Pets:** Keep children and pets away from the assembly area. Small parts can be a choking hazard.
- **Tools:** Use only the tools provided or recommended in this manual.

2. PACKAGE CONTENTS

Before starting assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, please contact WEEWAY customer support.

- Bed Frame Components
- Headboard
- 4 Storage Drawers
- Wooden Slats
- Assembly Tools (Allen wrench, screws, etc.)
- Instruction Manual

Note: Mattress is not included.

3. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately one hour with two adults. No additional tools are required beyond what is provided.

Preparation:

- Clear a spacious area for assembly.
- Lay out all components on a soft, clean surface (e.g., a rug or blanket) to prevent scratches.
- Identify all parts using the provided parts list in your package.

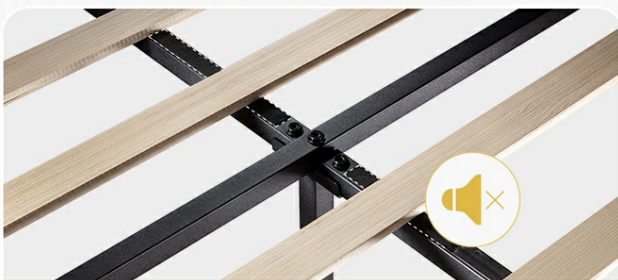

Assembly Steps:

1. **Attach Side Rails to Headboard and Footboard:** Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure but do not fully tighten until all major components are in place.
2. **Install Center Support Beam:** Place the center support beam and attach it to the headboard and footboard. This provides crucial stability for the slat system.
3. **Position Wooden Slats:** Lay the wooden slats across the bed frame. The unique lock design and mute bar features help reduce noise and ensure stability. Ensure each slat is properly seated in its designated position. The card slot design helps prevent the mattress from sliding.
4. **Assemble and Insert Storage Drawers:** Assemble the four storage drawers according to the separate drawer instructions. Once assembled, insert them into the designated spaces beneath the bed frame. The drawers feature a fixed lock system to keep them in place.
5. **Adjust Headboard Height:** The headboard can be adjusted from 40.0 to 42.0 inches. Select the desired height and secure it firmly with the provided hardware. This allows accommodation for mattresses between 6-14 inches in height.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws and bolts. Do not overtighten.

Built-in 4 Drawers with Lock

❖ Offer Ample Storage Space

Figure 3: Built-in Storage Drawers. This image shows the four integrated storage drawers, demonstrating their capacity for storing bedding, clothing, or other items.

4. OPERATING INSTRUCTIONS

Using the Storage Drawers:

The bed frame includes four integrated storage drawers. To access them, simply pull the drawer handles. To secure them, ensure they are fully pushed in until the fixed lock system engages, preventing accidental rolling out.

- Do not overload drawers beyond their capacity.
- Avoid placing heavy or sharp objects that could damage the drawer mechanism or fabric.

Adjusting the Headboard:

The headboard height is adjustable to accommodate various mattress thicknesses (recommended 6-14 inches). To adjust, loosen the securing bolts on the headboard supports, raise or lower the headboard to the desired position (between 40 and 42 inches), and then firmly retighten the bolts.

Figure 4: Adjustable Headboard. This image illustrates the headboard's adjustable height range (40-42 inches) to suit different mattress sizes.

5. MAINTENANCE

- **Cleaning:** Wipe the bed frame with a dry cloth to remove dust and debris. For spills on the fabric, blot immediately with a clean, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary to maintain stability and prevent squeaking.
- **Drawer Maintenance:** Keep the drawer tracks clean and free of obstructions to ensure smooth operation.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed frame is wobbly or squeaks.	Loose hardware; uneven floor; slats not properly seated.	Check and tighten all bolts and screws. Ensure the bed is on a level surface. Verify all wooden slats are correctly positioned and secured.
Mattress slides on the frame.	Mattress not properly aligned; card slot design not utilized.	Ensure the mattress is centered on the frame. The integrated card slot design should help prevent sliding; verify the mattress is seated within this design.
Drawers do not slide smoothly or get stuck.	Overloaded drawer; debris in tracks; drawer not assembled correctly.	Reduce the weight in the drawer. Clean any debris from the drawer tracks. Recheck drawer assembly.
Headboard is not stable after adjustment.	Securing bolts are loose.	Firmly tighten the bolts that secure the headboard at the desired height.

7. SPECIFICATIONS

Model Number:	KBBT0003
Size:	King
Color:	Light Grey
Material:	Fabric, Wood, & Metal
Product Dimensions (L x W x H):	83" x 78" x 40"/42" (Adjustable Headboard)
Weight Capacity:	1000 lbs
Number of Drawers:	4
Box Spring Required:	No
Assembly Required:	Yes
Product Care:	Wipe with Dry Cloth
