3. Setup and Installation

The SEAFLO RV Toilet is designed for quick and easy DIY-friendly installation. Follow these steps for proper setup:

1. **Prepare the Mounting Area:**

   Ensure the floor area where the toilet will be installed is clean, level, and has the necessary plumbing connections (water inlet and waste outlet). Secure the floor flange to the floor using appropriate screws.

2. **Install the Flange Seal:**

   Carefully install the flange seal onto the toilet base. This seal is crucial for preventing leaks and ensuring a secure connection to the waste system.

3. **Position and Secure the Toilet:**

   Place the toilet down onto the floor flange, aligning it correctly. Secure the toilet to the floor flange using the provided fasteners. Ensure a tight and stable fit.

4. **Connect Water Supply:**

   Connect the water supply line to the toilet's water inlet. Ensure all connections are tight to prevent leaks. Test for leaks after connection.

5. **Install Sprayer Attachment:**

   Mount the sprayer attachment bracket in a convenient location near the toilet. Connect the sprayer hose to the designated port on the toilet.

4. Operating Instructions

The SEAFLO RV Toilet features an ergonomic foot pedal for convenient and efficient operation.

- **Adding Water to the Bowl:**

  To add water to the bowl, gently press the foot pedal halfway down. This will open the water valve, allowing water to fill the bowl without flushing.

- **Flushing the Toilet:**

  To flush the toilet, press the foot pedal all the way down. This will fully open the water valve and the waste ball, allowing the high-powered gravity flush system to thoroughly remove waste. Release the pedal to close the waste ball and refill the bowl with water.

- **Using the Sprayer Attachment:**

  The included sprayer attachment provides powerful water flow for targeted cleaning and rinsing of the bowl. Simply activate the sprayer as needed for maximum hygiene.

5. Maintenance and Care

Regular maintenance ensures the longevity and optimal performance of your SEAFLO RV Toilet.

- **Cleaning the Bowl:**
  The slick, anti-stick oversized bowl is designed to prevent waste residue and splash-back, simplifying cleaning. Use a mild, non-abrasive cleaner and a soft brush or cloth to clean the interior and exterior surfaces. Avoid harsh chemicals that can damage plastic components or seals.

Image: Overhead view of the toilet bowl, highlighting its smooth, anti-stick surface designed for easy cleaning.

- **Soft-Close Seat and Cover:**

  The soft-close mechanism ensures gentle and quiet closing, protecting the seat from damage. Periodically check the hinges for any looseness and tighten if necessary. Clean the seat and cover with a mild soap solution.

- **Winterization:**

  Before storing your RV in freezing temperatures, ensure the toilet and all plumbing lines are properly winterized according to your RV's manufacturer guidelines. This typically involves draining all water and adding RV-specific antifreeze.

6. Troubleshooting

If you encounter issues with your SEAFLO RV Toilet, consider the following common solutions:

- **Leaking at Base:**

  Check the floor flange seal and mounting bolts. Ensure they are properly seated and tightened. The flange seal may need to be replaced if it is old or damaged.

- **Poor Flush Performance:**

  Verify that the water supply is adequate and the water valve is fully opening when the foot pedal is depressed. Check for any obstructions in the bowl or waste pipe. Ensure the tri-directional flush nozzles are clear.

- **Water Not Holding in Bowl:**

  This usually indicates an issue with the waste ball seal. Ensure the seal is clean and free of debris. A worn or damaged seal may need replacement.

- **Foot Pedal Sticking:**

  Lubricate the foot pedal mechanism with a silicone-based lubricant safe for plastics. Ensure no debris is obstructing the pedal's movement.

For persistent issues, please refer to the support section for further assistance.

7. Warranty Information

The SEAFLO Residential Height Camper/RV Toilet is confidently backed by a **4-Year Limited Warranty**. This warranty covers defects in materials and workmanship under normal use and service. Please retain your proof of purchase for warranty claims. For full terms and conditions, refer to the warranty documentation included with your product or contact SEAFLO customer support.

8. Customer Support

For any questions, technical assistance, or warranty inquiries regarding your SEAFLO RV Toilet, please contact our customer support team:

Website: Visit the official SEAFLO website for FAQs and support resources.

Email: Refer to your product packaging or the official website for customer service email.

Phone: Refer to your product packaging or the official website for customer service phone number.

When contacting support, please have your product model number (SFRTPH-01-02) and purchase date available.
