TROUBLESHOOTING

- **No Power:** Ensure the power cable is securely connected and the unit's power switch is ON. Check the voltage selector on the rear panel matches your region.
- **No Sound:** Verify all speaker and audio input connections are secure. Check the selected input source matches your device. Ensure the master volume is turned up and not muted.
- **Bluetooth Disconnection:** Ensure your device is within the 40+ ft range. Try unpairing and re-pairing the device. Other wireless devices may cause interference.
- **CD/DVD Not Playing:** Ensure the disc is inserted correctly and is clean and free of scratches. Check disc compatibility (DVD/CD/VCD/CD-R/CD-RW/MP4).
- **Poor Radio Reception:** Adjust the position of the AM and FM antennas. Ensure they are fully extended and away from other electronic devices that may cause interference.
- **Microphone Not Working:** Ensure microphones are securely plugged into the correct inputs and the microphone volume (M.VOL) is adjusted.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the unit. Do not use liquid cleaners or solvents.
- **Ventilation:** Ensure the ventilation openings are clear and not obstructed to prevent overheating.
- **Storage:** If storing the unit for an extended period, disconnect it from the power supply and store it in a cool, dry place.
