

Nerf XXIV-800

Nerf Rival Mirage XXIV-800 Blaster Instruction Manual

MODEL: XXIV-800 (F8444)

Brand: Nerf

SAFETY INFORMATION

WARNING: Small parts may be generated. Not for children under 3 years.

Eyewear is recommended for all users (not included). Do not aim at eyes or face. Use only official Nerf Rival rounds. Other rounds may not be safe. Do not modify blaster or rounds.

WHAT'S INCLUDED

- Nerf Rival Mirage XXIV-800 Blaster
- 10 Nerf Rival Accu-Rounds
- 8-Round Removable Magazine
- Instruction Sheet

SETUP

1. Loading the Magazine

The Nerf Rival Mirage XXIV-800 blaster offers two methods for loading the 8-round magazine:

1. Method 1: Remove Magazine

Press the magazine release button and remove the magazine from the blaster. Insert the 10 Nerf Rival Accu-Rounds into the magazine. Reinsert the loaded magazine into the blaster until it clicks securely into place.

2. Method 2: Breech Loading

While the magazine is attached to the blaster, open the breech located on the top of the blaster. Insert individual Nerf Rival rounds directly into the magazine through the open breech. Close the breech securely after loading.

Image: Loading the magazine by inserting rounds through the top breach while it's attached to the blaster.

2. Priming the Blaster

To prepare the blaster for firing, locate the priming slide. Move the priming slide backward completely, then push it forward until it locks into place. The blaster is now primed and ready to fire.

Image: Demonstrating the pump-action priming slide mechanism on the Nerf Rival Mirage blaster.

OPERATING THE BLASTER

1. Firing

Once the blaster is loaded and primed, disengage the trigger lock (if engaged) and pull the trigger to fire a Nerf Rival Accu-Round. The Mirage XXIV-800 blaster fires rounds at a velocity of 90 feet per second.

Image: A user aiming the Nerf Rival Mirage blaster, demonstrating proper firing stance.

2. Trigger Lock

The blaster is equipped with a trigger lock mechanism to prevent accidental firing. To engage the lock, slide the small orange switch located above the trigger to the 'locked' position. To disengage and allow firing, slide it to the 'unlocked' position.

Image: Close-up of the trigger lock switch on the Nerf Rival Mirage blaster.

3. Tactical Rails

The blaster features 3 tactical rails for customizing with compatible Nerf accessories (sold separately). These rails allow for attachment of sights, grips, or other tactical gear to enhance your play experience.

MAINTENANCE

To ensure optimal performance and longevity of your Nerf Rival Mirage XXIV-800 Blaster, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the blaster with a damp cloth to remove dirt or debris. Do not submerge the blaster in water.
- **Storage:** Store the blaster and rounds in a cool, dry place away from direct sunlight.
- **Rounds:** Inspect rounds regularly for damage. Discard any damaged or deformed rounds to prevent jamming and ensure consistent performance.

TROUBLESHOOTING

If you encounter issues with your Nerf Rival Mirage XXIV-800 Blaster, consider the following:

- **Blaster not firing:** Ensure the blaster is fully primed (priming slide moved back and forth until locked) and the trigger lock is disengaged.
- **Rounds jamming:** Check that only official Nerf Rival rounds are being used. Inspect rounds for damage or deformation. Ensure the magazine is correctly inserted and not overfilled.
- **Reduced firing distance/velocity:** This may indicate worn-out rounds. Try using new, undamaged official Nerf Rival rounds.
