EUHOMY BRU-03

EUHOMY 15 Inch Beverage Refrigerator Cooler User Manual

Brand: EUHOMY | Model: BRU-03

1. Introduction and Overview

Thank you for choosing the EUHOMY 15 Inch Beverage Refrigerator Cooler. This appliance is designed to keep your beverages perfectly chilled, offering both built-in and freestanding installation options. With its sleek design, efficient cooling system, and user-friendly features, it's an ideal addition to any home kitchen, bar, or office space.
This beverage cooler features a large capacity of up to 127 standard cans, adjustable shelving for flexible storage, and intuitive one-touch controls with an LED display. The multi-layer insulated glass door and low-vibration compressor ensure quiet and consistent cooling performance.

2. Setup and Installation

Proper setup is crucial for optimal performance and longevity of your beverage cooler. Please follow these instructions carefully.

2.1 Unpacking and Initial Placement

- Carefully remove all packaging materials, including foam and tape.
- Inspect the appliance for any shipping damage. If damaged, do not operate and contact customer support.
- Place the cooler on a flat, stable surface. Ensure there is adequate ventilation around the unit, especially if freestanding.

The unique front cooling and ventilation design allows for direct under-counter placement.

- **Important:** After receiving the machine, please let it stand upright for more than 24 hours before plugging it in. This allows the refrigerant to settle.

2.2 Installation Options (Built-in or Freestanding)

This beverage cooler is designed for both built-in and freestanding applications.

- **Freestanding:** Ensure at least 1 inch (2.5 cm) of space on the sides and back for proper air circulation.
- **Built-in:** The front ventilation system allows the unit to be installed flush with cabinetry. Ensure the dimensions of your cabinet opening match the product dimensions (22.5"D x 14.96"W x 34.3"H).

Figure 2: Diagram illustrating the dimensions and ventilation requirements for built-in installation of the beverage cooler.

2.3 Door Reversal (Optional)

The door handle can be adjusted to either side depending on your preferred opening direction. Refer to the detailed instructions in the separate installation guide for door reversal.

2.4 Leveling the Appliance

Adjust the leveling feet at the bottom of the unit to ensure it is perfectly level. This prevents vibrations and ensures proper door sealing.

Figure 3: Close-up view of product details, including the adjustable leveling foot and the door hinge mechanism.

3. Operating Instructions

Your EUHOMY beverage cooler is designed for easy operation.

3.1 Control Panel and Temperature Setting

The control panel is located at the top of the interior, featuring an LCD display and touch buttons for easy adjustments.

- **Power Button:** Press to turn the unit On or Off.
- **Temperature Adjustment:** Use the Up (▲) and Down (▼) arrows to set your desired temperature between 37°F and 65°F (3°C and 18°C). The LCD display shows the current temperature.
- **Unit Conversion:** Toggle between Fahrenheit (°F) and Celsius (°C) using the dedicated button.
- **LED Light Control:** The soft blue ambient LED lights can be controlled via the panel, allowing you to illuminate your beverages.

3.2 Shelf Adjustment and Storage

The cooler comes with 3 sliding shelves and 5 fixed slots, allowing for flexible storage of various beverage sizes.

- To adjust a shelf, simply slide it out and reposition it into a different slot.
- The maximum capacity is 127 cans, depending on arrangement.

Figure 5: Interior view of the beverage cooler highlighting the 3 removable shelves and its capacity for 127 beverage cans.

3.3 Door Lock

A hidden door lock with a key is provided to secure your beverages, especially useful for preventing frequent access or securing alcoholic beverages.

4. Maintenance

Regular maintenance ensures the longevity and efficient operation of your beverage cooler.

4.1 Cleaning

- **Interior:** Clean the interior regularly with a mild detergent and warm water. Wipe dry with a soft cloth.
- **Exterior:** Wipe down the exterior surfaces, including the glass door and stainless steel frame, with a soft, damp cloth. Avoid abrasive cleaners.
- **Door Gasket:** Clean the door gasket regularly to ensure a tight seal.

4.2 Defrosting

This unit features a "Frost Free" defrost system, minimizing the need for manual defrosting. Any accumulated frost will melt automatically and evaporate.

5. Troubleshooting

If you experience issues with your beverage cooler, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Appliance does not operate	Not plugged in; Power outage; Circuit breaker tripped.	Ensure plug is securely in outlet; Check power supply; Reset circuit breaker.
Temperature is not cold enough	Door not closed properly; Excessive door opening; High ambient temperature; Temperature setting too high.	Check door seal; Reduce frequency of door opening; Adjust temperature setting lower.
Excessive noise	Appliance not level; Vibrating components; Compressor noise.	Adjust leveling feet; Ensure bottles/cans are not touching; Compressor noise is normal during operation.
Door does not close properly	Appliance not level; Gasket dirty or damaged; Obstruction.	Level the appliance; Clean or replace gasket; Remove any obstructions.

For issues not listed above or if problems persist, please contact EUHOMY customer support for professional assistance.
