Gizoon BF82-Y

Gizoon Queen Lift Up Storage Bed (Model BF82-Y) - Instruction Manual

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Gizoon Queen Lift Up Storage Bed with Modern Wingback Headboard. Please read this manual thoroughly before assembly and use to ensure safe and proper functionality of your new bed frame.

Important Safety Information

WARNING:

- Maximum weight capacity of 800 pounds. Do not exceed this limit.
- Potential pinch point hazard during lifting and lowering of the bed frame. Keep hands and fingers clear of moving parts.
- Ensure proper assembly of all components before use. Incorrect assembly can lead to instability and injury.
- Always use the provided hand-lifting strap when raising or lowering the mattress platform.
- Do not allow children to operate the lift mechanism unsupervised.

Product Overview

The Gizoon Queen Lift Up Storage Bed is designed to provide both comfort and practical storage solutions. It features a modern wingback headboard and a hydraulic lift mechanism for easy access to under-bed storage.

Key Features:

- **Space-Saving Storage:** Offers 10.8 inches of under-bed storage, accessible via a hydraulic lift system.
- **Elegant Wingback Headboard:** Upholstered in linen fabric with high-elastic memory foam, featuring a winged design to prevent mattress movement.
- **Hydraulic Lift Design:** Engineered for durability, supporting up to 100,000 lifts for effortless access.
- **Sturdy Construction:** Built with a robust steel frame and solid wood slats, capable of accommodating up to 800 pounds.
- **Noise Isolation:** Features anti-slip devices, thick foam padding, and mute strips to minimize friction noise and mattress sliding.

Assembly Instructions

Assembly is required for this bed frame. It is recommended that 2-3 people participate in the assembly process. The estimated assembly time is approximately 30-45 minutes. A screwdriver is included for convenience, but an electric screwdriver (not included) can be used for increased efficiency.
Before You Begin:

- Ensure you have an adequate workspace.
- Take inventory of all components to ensure nothing is missing.
- Wear gloves to prevent injury during handling of parts.

Refer to the detailed step-by-step instructions provided in the packaging for specific assembly procedures. All parts are shipped in one box.

Operating the Lift-Up Storage Mechanism

The Gizoon Lift Up Storage Bed features a hydraulic system for convenient access to under-bed storage. Follow these steps to operate the mechanism:

1. **To Lift:** Locate the hand-lifting strap positioned at the foot of the bed. Firmly grasp the strap and pull upwards. The hydraulic pistons will assist in smoothly raising the mattress platform.
2. **To Lower:** Gently push the mattress platform downwards. The hydraulic system will control the descent, ensuring a slow and safe closing. Ensure no objects or body parts are in the path of the closing platform to avoid pinch points.

The maximum weight capacity for lifting the mattress platform is 100 lbs. Do not attempt to lift the platform with excessive weight on the mattress.

Maintenance

To ensure the longevity and appearance of your Gizoon bed frame, follow these maintenance guidelines:

- **Cleaning:** The upholstered headboard and frame should be dry cleaned only. Do not use liquid cleaners or abrasive materials.
- **Hardware:** Periodically check all bolts and screws to ensure they are tight. Retighten if necessary to maintain stability and prevent noise.
- **Hydraulic System:** The hydraulic pistons are designed for long-term use. If you notice any issues with lifting or lowering, contact customer support. Do not attempt to disassemble or repair the hydraulic system yourself.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Bed frame is noisy or squeaks.	Loose hardware; friction between components.	Check and tighten all assembly bolts and screws. Ensure foam padding and mute strips are correctly in place.
Mattress slides on the frame.	Anti-slip devices not installed or improperly positioned.	Verify that the practical anti-falling devices are correctly installed at the head of the bed frame.
Hydraulic lift mechanism is difficult to operate or does not stay up.	Hydraulic pistons not properly installed or defective; excessive weight on mattress.	Ensure hydraulic pistons are correctly attached according to assembly instructions. Verify the mattress weight does not exceed the 100 lbs lifting capacity. If issues persist, contact customer support for assistance.

Specifications

Feature	Detail
Brand	Gizoon
Model Number	BF82-Y
Size	Queen
Color	Beige
Product Dimensions (L x W x H)	81"L x 63.6"W x 44"H
Storage Height (slats to floor)	10.8 Inches
Weight Capacity (Bed Frame)	800 pounds
Weight Capacity (Lifting Up)	100 lbs
Recommended Mattress Thickness	10-14 inches (No Box Spring Needed)
Headboard Material	Linen
Included Components	Headboard, Slats, Hydraulic System, Assembly Hardware
Assembly Required	Yes
