Playmobil 71450 myLife: Researcher with Robots Instruction Manual

PRODUCT OVERVIEW

The Playmobil 71450 myLife: Researcher with Robots set allows users to explore the exciting world of research and robotics. This set features a scientist celebrating a birthday in a laboratory, accompanied by robot friends. A drone delivers a cake, mini-robots bring muffins, and a larger robot holds a party balloon. The small drone has four rotating blades and can be controlled remotely. The main robot figure can stand or sit, with movable arms and rotatable hands. To make the robot sit, adjust its leg section.
