Shark HZ702

Shark HZ702 Ultralight PetPro Corded Stick Vacuum Instruction Manual

MODEL: HZ702 | BRAND: SHARK

1. Introduction

Thank you for choosing the Shark HZ702 Ultralight PetPro Corded Stick Vacuum. This manual provides essential information for the safe and efficient operation, maintenance, and care of your new vacuum cleaner. Designed for powerful cleaning, this model features PowerFins HairPro technology, a self-cleaning brushroll, and Odor Neutralizer Technology to keep your home fresh. Its ultra-lightweight design and versatile attachments make it ideal for various cleaning tasks.

2. Important Safety Information

Please read all instructions carefully before using your Shark HZ702 vacuum. Always follow basic safety precautions to reduce the risk of fire, electric shock, or injury. This appliance is for household use only. Do not use outdoors or on wet surfaces. Always unplug the power cord from the electrical outlet when not in use and before servicing. Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.

3. Package Contents

Your Shark HZ702 Ultralight PetPro Corded Stick Vacuum package includes the following components:

- Main Vacuum Unit
- Wand
- Floor Nozzle with PowerFins HairPro and Self-Cleaning Brushroll
- Crevice Tool
- Upholstery Tool

- Precision Duster
- Odor Neutralizer Technology Cartridge (pre-installed or separate)

4. Assembly and Setup

Assemble your vacuum by connecting the main vacuum unit to the wand, and then attaching the floor nozzle. Ensure all connections click securely into place. The compact design allows for easy storage by detaching the hand vac and clipping it at the base of the wand.

Powerful suction

Deep-clean carpets and tackle bare floors with powerful suction.

Image: A woman uses the Shark HZ702 vacuum to clean a living room, demonstrating its powerful suction on both carpet and hardwood floors. The vacuum is shown in its upright stick configuration.

Easy storage

Detach the hand vac and clip it at the base of the wand for easy storage.

Image: The Shark HZ702 vacuum is shown in its compact storage configuration, standing upright. The detachable hand vac is clipped to the lower part of the wand for convenient, space-saving storage.

5. Operating Instructions

The Shark HZ702 is designed for versatile cleaning across various surfaces. Plug the cord into a suitable electrical outlet. Select the appropriate floor type setting (hard floor or carpet) for optimal performance. The vacuum features advanced swivel steering for excellent maneuverability around furniture and other obstacles.

5.1. PowerFins HairPro and Self-Cleaning Brushroll

The PowerFins HairPro actively grips and captures stubborn long hair, short hair, and pet hair on both carpets and hard floors. The self-cleaning brushroll ensures powerful pet hair pickup with no hair wrap, reducing maintenance.

5.2. Odor Neutralizer Technology

This technology guards against bad odors inside your vacuum, contributing to a fresher-smelling home. Ensure the Odor Neutralizer Technology cartridge is properly installed.

Odor Neutralizer Technology

Guards against bad odors inside your vacuum

Image: A detailed view of the Shark HZ702's floor nozzle, showing the integrated Odor Neutralizer Technology. A dial allows users to adjust the intensity of the odor-neutralizing scent.

5.3. Detachable Hand Vac and Attachments

The main unit detaches to become a powerful hand vacuum, weighing less than 3 pounds, perfect for above-floor cleaning. Use the included Crevice Tool, Upholstery Tool, and Precision Duster for targeted cleaning.

Converts to hand vac

Easily remove the 3-lb. hand vac for cleaning above the floor.

Image: A woman demonstrates the versatility of the Shark HZ702 by using its detachable hand vac to clean the interior of a car, specifically the car seats.

Easily pick up pet hair

The Upholstery Tool is perfect for cleaning pet hair on upholstery, stairs, and more.

Image: The upholstery tool, attached to the detachable hand vac of the Shark HZ702, is used by a woman to effectively pick up pet hair from a couch, with a small dog observing nearby.

5.4. Cleaning Hard-to-Reach Spaces and Under Furniture

Detach the hand vac and wand from the nozzle to reach high and low areas. The low-profile design of the floor nozzle allows you to easily reach under furniture.

Clean hard-to-reach spaces

Detach the hand vac and wand from the nozzle
to reach high and low areas.

Image: A woman utilizes the Shark HZ702 in its extended wand configuration to clean hard-to-reach areas, specifically vacuuming the stairs.

Reach under furniture with ease

Low-profile design makes it easy to clean under furniture.

Image: A woman demonstrates the low-profile design of the Shark HZ702, easily maneuvering the vacuum under a chair to clean the floor beneath it.

5.5. LED Headlights

The integrated LED headlights on the floor nozzle illuminate your cleaning path, revealing hidden debris and pet hair around your home, even in dimly lit areas.

5.8. Product Demonstration: Sucks everything right up

Video: A brief preview video from a seller influencer demonstrating the suction power of the Shark HZ702 vacuum on various debris.

6. Maintenance

Regular maintenance ensures optimal performance and extends the life of your vacuum cleaner.

6.1. Removable Dust Cup

The dust cup is easy to remove and empty. Simply press the release button and empty collected debris into a trash receptacle. For best results, empty after each use or when debris reaches the MAX FILL line.

Easy-empty dust cup

Removable dust cup empties debris in seconds.

Image: A woman demonstrates the easy-empty feature of the Shark HZ702 vacuum by removing the dust cup and emptying its contents into a trash bin.

6.2. Filter Maintenance

The vacuum uses a foam filter. Regularly check and clean the filter according to the manufacturer's recommendations to maintain suction power. Filters are washable; allow them to air dry completely before reinserting.

6.3. Self-Cleaning Brushroll

While the brushroll is self-cleaning, occasionally inspect it for any tangled hair or debris that may have accumulated. Remove any obstructions to ensure continuous optimal performance.

7. Troubleshooting

If your vacuum is not picking up debris, check the dust cup for fullness and empty if necessary. Ensure all filters are clean and properly installed. Check the floor nozzle and wand for any blockages. If the brushroll is not spinning, ensure the floor type setting is correct and there are no obstructions.
