

Night Cat US-ZP-30-AGN

Night Cat Upgraded Backpacking Tent (1-2 Person) Instruction Manual

Model: US-ZP-30-AGN

1. PRODUCT OVERVIEW

The Night Cat Upgraded Backpacking Tent is designed for 1 to 2 persons, offering a compact and lightweight solution for camping, backpacking, and hiking. It features an easy clip setup system for quick assembly and is constructed with rainproof and windproof materials to ensure protection in various weather conditions.

2. WHAT'S IN THE BOX

Upon unpacking, verify that all components are present:

- Tent Body
- Poles (Fiberglass)
- Stakes
- Guy Lines
- Carry Bag

3. SETUP INSTRUCTIONS

The Night Cat Upgraded Backpacking Tent features an easy clip setup, allowing for quick assembly in approximately 1 minute.

1. **Unpack the Tent:** Lay the tent body flat on a clear, level surface.
2. **Assemble Poles:** Connect the fiberglass pole sections to form the main tent frame.
3. **Attach Tent Clips:** Instead of threading poles through sleeves, attach the tent clips directly to the assembled poles. This method significantly speeds up the setup process.

This video provides a general overview of the Night Cat Upgraded Backpacking Tent, including its features and quick setup process.

4. **Secure the Tent:** Use the provided stakes to anchor the tent corners to the ground. For added stability in windy conditions, attach and tension the guy lines.

4. OPERATING INSTRUCTIONS

Ventilation

The tent is designed with a large opening mesh door and a mesh window on the roof to facilitate smooth airflow. This helps maintain fresh air inside while keeping insects out. Ensure these openings are clear for optimal ventilation.

Weather Protection

The tent features 210T Polyester Taffeta with PU 3000 coating and a 150D Oxford bottom fabric with PU 3000 coating, along with waterproof tape on every seam. These features ensure the tent remains dry inside during rain, even in stormy conditions. Strong fiberglass poles and metal stakes with guy lines provide stability against wind.

5. MAINTENANCE

- **Cleaning:** Hand wash the tent with mild soap and water. Do not use harsh detergents or machine wash.
- **Drying:** Always ensure the tent is completely dry before packing it away to prevent mildew and fabric degradation.
- **Storage:** Store the tent in a cool, dry place, away from direct sunlight.
- **Pole Care:** Inspect poles for damage before and after each use. Replace any cracked or splintered sections promptly.

6. TROUBLESHOOTING

Condensation Inside Tent

Condensation is a natural occurrence in tents, especially in humid or cold conditions. To minimize condensation:

- Ensure adequate ventilation by keeping mesh windows and doors partially open when weather permits.
- Avoid cooking inside the tent.
- Do not store wet gear inside the tent overnight if possible.

Minor Leaks

While the tent is designed to be rainproof, extreme conditions or prolonged use can sometimes lead to minor leaks. If a leak occurs:

- Inspect seams for any damage or areas where seam tape may have peeled.
- Apply a seam sealer to affected areas.
- Ensure the rainfly is properly tensioned and not touching the inner tent, which can wick water inside.

Damaged Poles

Fiberglass poles can splinter or break under stress. If a pole is damaged:

- Use a pole repair sleeve (often included in tent repair kits) to temporarily fix a broken section.
- Contact customer support for replacement poles.

7. SPECIFICATIONS

Feature	Detail
---------	--------

Model Name	US-ZP-30-AGN
Brand	Night Cat
Occupancy	1-2 Person
Assembled Size (L x W x H)	7 x 3.8 x 3.8 ft (83"L x 45"W x 45"H)
