## Travelpro Pathways 3 Hardside Expandable Luggage, Checked Large 28 Inch

# Travelpro Pathways 3 Hardside Expandable Luggage (28 Inch) User Manual

Model: Pathways 3 Hardside Expandable Luggage, Checked Large 28 Inch

## 1. INTRODUCTION

Thank you for choosing the Travelpro Pathways 3 Hardside Expandable Luggage. This manual provides essential information for the proper use, care, and maintenance of your new luggage. Designed for durability and convenience, this 28-inch checked bag offers ample packing space and smooth maneuverability for your travels.

## 2. KEY FEATURES

- **100% Polycarbonate Hard Shell:** Engineered for impact-absorbing flexibility in a lightweight design. The stylish finish helps reduce the visibility of scratches and scuffs.
- **Molded Aluminum Corner Guards:** Provide additional impact protection to high-wear points, enhancing durability.
- **Built-in TSA Lock:** Keeps contents secure and allows TSA authorities to access for inspection without damaging the lock. The default code is set at 0-0-0.
- **2-inch Expansion:** The roomy main compartment expands by 2 inches to maximize packing capacity when needed.
- **Organized Interior:** Features zippered interior divider panels to keep contents organized, separated, and secure. Multiple accessory pockets offer built-in organization.
- **PowerScope Lite Handle:** A lightweight, height-adjustable handle that locks in two positions (38" and 42.5") to accommodate users of different heights. It features a patented Contour Grip with a rubberized finish for comfort.
- **8 Spinner Wheels:** Rotate 360° for superior maneuverability and a smooth glide in every direction.
- **Convenient Carry Handles:** Low profile top carry handle and bottom grip offer carrying convenience.

## 3. SETUP AND FIRST USE

### 3.1 Setting the TSA Combination Lock

1. The lock is preset to 0-0-0.
2. To set your personal combination, push the reset button (A) with a pen or pointed object until you hear a "click" sound.
3. Set your desired 3-digit combination by turning the dials (B).
4. Push the tab (C) towards the dials until you hear a "click" sound. Your personal combination is now set.
5. Remember your combination. If you forget it, you will need to contact Travelpro customer service for assistance.

### 3.2 Adjusting the PowerScope Lite Handle

The PowerScope Lite handle can be adjusted to two different heights for comfortable maneuvering. Press the button on the top of the handle to extend or retract it. Ensure it clicks securely into place at your preferred height (38" or 42.5").

## 4. OPERATING YOUR LUGGAGE

### 4.1 Using the Spinner Wheels

Your luggage is equipped with 8 spinner wheels designed for 360-degree rotation. This allows for effortless gliding in any direction, reducing strain when navigating airports or other travel environments. For best results, push the luggage alongside you rather than tilting and pulling it.

#### VERSATILE EXPANSION

Roomy main compartment expands 2", maximizing space and packing flexibility.

#### INTEGRATED TSA LOCK

Flush TSA lock allows TSA authorities to safely unlock & lock suitcase for inspection when needed.

Image: Smooth and sturdy spinner wheels.

### 4.2 Expanding Your Luggage

To utilize the additional packing space, locate the expansion zipper running along the perimeter of the main compartment. Unzip this zipper to expand the luggage by 2 inches, providing extra room for your belongings.

### 4.3 Packing and Organization

The interior of your luggage features zippered divider panels and multiple accessory pockets. Use these to:

- Separate clean clothes from dirty laundry.

- Organize smaller items in mesh pockets for easy access.
- Secure contents with the internal compression straps.

#### **SPLIT CONSTRUCTION**

Allows for easy packing of clothes and contents within two full compartments.

#### **ADDITIONAL ORGANIZATION**

Interior divider panel with mesh accessory pockets allows for separation of belongings and provides a variety of packing options to organize contents.

## **5. MAINTENANCE AND CARE**

### **5.1 Cleaning the Hard Shell**

To clean the polycarbonate hard shell, wipe it with a soft cloth dampened with mild soap and water. Avoid abrasive cleaners or solvents, as these can damage the finish. For scuffs, a gentle cleaner designed for plastics may be used.

### **5.2 Wheel and Zipper Care**

Periodically check the spinner wheels for any debris or hair that might impede their movement. Clean as necessary. For zippers, a silicone-based lubricant can be applied sparingly to ensure smooth operation if they become stiff.

## **6. TROUBLESHOOTING**

- **Stuck Zipper:** If a zipper becomes stuck, try gently moving the slider back and forth. Do not force it. Applying a small amount of graphite from a pencil tip can sometimes help.
- **Wheels Not Rolling Smoothly:** Check for any obstructions (e.g., lint, hair) caught in the wheel mechanism. Clean them out carefully. If the issue persists, ensure the luggage is not overloaded beyond its capacity.
- **Handle Sticking:** If the telescopic handle is difficult to extend or retract, ensure the release button is fully depressed. Check for any foreign objects in the handle mechanism.

## 7. SPECIFICATIONS

Feature	Detail
Overall Dimensions (H x W x D)	31.50 in x 19.75 in x 12 in
Case Dimensions (H x W x D)	29 in x 18.50 in x 12 in
