OPERATING THE MODEL

This die-cast model is designed for manual operation and display. It features several interactive elements:

- **Opening Hood:** The hood can be gently lifted to reveal the detailed engine bay.
- **Opening Doors:** Both driver and passenger doors can be opened to view the interior.
- **Opening Trunk:** The trunk can be opened to inspect the rear compartment.
- **Rolling Wheels:** The wheels are functional and allow the car to be rolled manually on smooth surfaces.

When interacting with the movable parts, apply gentle pressure to avoid damage. Avoid forcing any components.

MAINTENANCE

Proper maintenance will help preserve the appearance and functionality of your die-cast model.

Cleaning

- Use a soft, dry cloth to gently wipe away dust and fingerprints.
- For stubborn dirt, slightly dampen the cloth with water. Avoid harsh chemicals or abrasive cleaners, as these can damage the paint finish.
- Do not submerge the model in water.

Storage

- Store the die-cast car in a cool, dry place away from direct sunlight to prevent fading of the paint and decals.
- Keep the model in its original packaging or a display case to protect it from dust and accidental damage.

TROUBLESHOOTING

While die-cast models are generally robust, minor issues may arise. Here are some common concerns and solutions:

- **Stiff Moving Parts (Doors, Hood, Trunk):** If parts feel stiff, gently work them open and closed a few times. Avoid excessive force. Do not apply lubricants, as they may damage the plastic components or paint.
- **Dust Accumulation:** Refer to the cleaning instructions in the Maintenance section.
- **Minor Scratches/Paint Chips:** Due to the nature of die-cast models, minor imperfections can occur. These are generally not repairable without specialized tools and paints. Handle with care to prevent further damage.

For issues not covered here, please contact Jada Toys customer support.
