## Assembly and Setup

Assembly is straightforward, but it is recommended to have two people for easier setup. All necessary assembly instructions and screws are included in the packages. Spare screws are also provided.

1. **Unpack Components:** Carefully remove all parts from the boxes. Verify that all components listed in the "Package Contents" section are present.
2. **Assemble Individual Sections:** Follow the step-by-step instructions provided in the included assembly guide for each sofa section and the tea table. Ensure all screws are tightened securely.
3. **Connect Sofa Sections:** Use the provided connecting clips to link the individual sofa sections together. These clips prevent shifting and sliding, maintaining your desired configuration.

4. **Place Cushions:** Position the seat and back cushions on the assembled sofa sections. The cushions feature fastening strips and Velcro tapes to prevent them from sliding.
5. **Adjust Feet:** The furniture features L-shaped feet with adjustable screws. Use these to adapt to uneven terrains or to slightly adjust the sofa height for optimal stability.

If you encounter any damage during transit or have questions during assembly, please contact customer support.

## Flexible Configuration and Use

The modular design of your patio set allows for various configuration options to best suit your outdoor space and occasion. The connecting clips can be easily popped off to rearrange the layout as needed.

## Care and Maintenance

Proper care will extend the life and appearance of your patio furniture set.

- **Cushion Care:** The zippered cushion covers are removable and machine-washable for easy cleaning. While the cushions are water-resistant, they are not fully waterproof. It is recommended to cover the patio set or bring the cushions indoors during heavy rain or prolonged periods of non-use to prevent water damage and mildew.
- **Rattan and Frame Cleaning:** The PE rattan and steel frame can be wiped clean with a dry cloth. For more stubborn dirt, a damp cloth with mild soap can be used, followed by thorough drying. Avoid harsh chemicals or abrasive cleaners.
- **Glass Tabletop:** The tempered glass top of the coffee table is easy to wipe clean with a damp cloth or glass

cleaner.

## Troubleshooting

- **Cushions appear thin or flat:** Back cushions may be flattened during shipping due to vacuum sealing. Fluff them thoroughly upon unpacking. If they remain too thin, additional stuffing can be added.
- **Cushions staining or mildewing:** Although water-resistant, prolonged exposure to moisture can lead to staining or mildew. Always cover the furniture or store cushions indoors when not in use, especially during rain or high humidity. Clean promptly if spills occur.
- **Difficulty during assembly:** While assembly is designed to be straightforward, it can be time-consuming. Ensure you carefully follow each step in the provided assembly instructions. If a part seems difficult to fit, double-check the

orientation and ensure you are using the correct hardware.

- **Furniture sections shifting:** Ensure all connecting clips are properly installed between the sofa sections. These clips are designed to hold the pieces firmly in place.
