PACKAGE CONTENTS

The package for your Faucet Night Light includes the following items:

- 1 x Faucet Night Light Lamp
- 1 x USB Charging Cable
- 1 x Adhesive Wall Patch

SETUP AND INSTALLATION

The Faucet Night Light is designed for easy, tool-free installation using the provided adhesive wall patch.

1. **Choose a Location:** Select a smooth, clean, and dry wall surface where you wish to install the night light. Ideal locations include corridors, entrances, stairwells, or bedside areas.
2. **Prepare the Surface:** Ensure the chosen surface is free from dust, dirt, and moisture. Wipe it clean if necessary and allow it to dry completely.
3. **Apply the Wall Patch:** Peel off the protective backing from the adhesive wall patch. Firmly press the patch onto the prepared wall surface, ensuring good contact and no air bubbles. Hold for a few seconds.
4. **Mount the Night Light:** Align the back of the Faucet Night Light with the installed wall patch. The light is designed to securely attach to the patch. Press firmly to ensure it is properly seated.

OPERATING INSTRUCTIONS

The Faucet Night Light features a simple rotary control for operation.

1. **Power On/Off:** Locate the rotary button on the top of the faucet handle.
2. **"OFF" Position:** Rotate the button to the "OFF" position to turn off the night light completely.
3. **"AUTO" Position (Induction Mode):** Rotate the button to the "AUTO" position. In this mode, the night light will automatically turn on when motion is detected in low-light conditions and turn off after a period of no motion. This is the recommended setting for energy efficiency and convenience.

Charging the Battery

The Faucet Night Light has a built-in rechargeable battery. When the light dims or stops functioning, it indicates that the battery needs charging.

- Connect the provided USB charging cable to the charging port on the night light.
- Connect the other end of the USB cable to a standard USB power adapter (not included) or a computer USB port.
- Allow the device to charge until the charging indicator (if present) signals a full charge, or for approximately 2-3 hours.
- Disconnect the charging cable once charging is complete.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Faucet Night Light.

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the night light. Do not use abrasive cleaners, solvents, or immerse the device in water.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, especially if it will not be used for an extended period.
- **Storage:** If storing the night light for a long time, ensure it is fully charged and stored in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your Faucet Night Light, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on in "AUTO" mode.	Insufficient ambient darkness; battery is low; sensor is obstructed.	Ensure the area is dark enough for the sensor to activate. Charge the battery. Check if anything is blocking the motion sensor.
Light is dim or flickers.	Low battery.	Recharge the night light using the provided USB cable.
Light does not charge.	Faulty USB cable or power adapter; charging port issue.	Try a different USB cable and power adapter. Ensure the charging cable is fully inserted into the port.
Light falls off the wall.	Improper surface preparation; adhesive patch not applied firmly.	Ensure the wall surface is clean, dry, and smooth before applying the patch. Press the patch firmly for sufficient adhesion. Consider using a new adhesive patch if the old one has lost its stickiness.
