2. Setup

The Pokémon 151 Ultra Premium Collection Playmat is designed for immediate use. Follow these simple steps to prepare your playmat for gameplay:

1. **Unroll the Playmat:** Carefully unroll the playmat on a flat, clean surface. If the mat has been stored rolled, it may retain a slight curl.
2. **Flattening (Optional):** To flatten any residual curl, gently roll the playmat in the opposite direction or place heavy, flat objects (such as books) on the corners for a few hours. Avoid using excessive force or sharp objects.
3. **Ensure Clean Surface:** Before placing the playmat, ensure the underlying surface is clean and free of debris to prevent damage or unevenness.

3. Usage During Gameplay

This playmat provides a designated area for your Pokémon Trading Card Game. Its smooth surface allows for easy card movement and protection.

- **Card Placement:** Place your Pokémon cards, energy cards, and other game components within the boundaries of the playmat. The design may include visual guides for specific zones (e.g., active Pokémon, bench, discard pile).
- **Protection:** The playmat helps protect your valuable cards from spills, scratches, and general wear and tear during intense gameplay.
- **Enhanced Experience:** The vibrant artwork and dedicated space contribute to a more immersive and organized gaming experience.

4. Care and Maintenance

Proper care will extend the life and preserve the appearance of your playmat.

- **Cleaning:**
  - For minor spills or dust, gently wipe the surface with a soft, damp cloth.
  - For tougher stains, use a small amount of mild soap diluted in water. Apply with a soft cloth and wipe clean, then air dry completely.
  - Avoid harsh chemicals, abrasive cleaners, or machine washing, as these can damage the material and artwork.
- **Storage:**
  - When not in use, roll the playmat loosely with the artwork facing outwards to prevent creasing.
  - Store in a cool, dry place away from direct sunlight and extreme temperatures.
  - Keep away from sharp objects to prevent punctures or tears.

5. Troubleshooting

Most issues with a playmat are related to its physical condition.

Problem	Solution

Problem	Solution
Playmat is curled or not lying flat.	Gently roll the playmat in the opposite direction or place heavy, flat objects on it for several hours. Store rolled, not folded.
Surface feels sticky or dirty.	Clean the surface with a soft, damp cloth and mild soap solution as described in the Maintenance section. Ensure it is completely dry before use.
Fading artwork.	Avoid prolonged exposure to direct sunlight or harsh chemicals, which can cause colors to fade over time.
