NKF RX-E600

NKF RX-E600 Remote Control User Manual

For Yamaha AV Receiver RDX-E600MK2

PRODUCT OVERVIEW

This NKF replacement remote control is designed for seamless operation with various Yamaha AV Receiver models, including the RDX-E600MK2. It provides full functionality without the need for complex programming or setup, serving as a direct replacement for your original remote.

SETUP

1. Battery Installation

The remote control requires two (2) AAA alkaline batteries for operation. Follow these steps to install the batteries:

1. Locate the battery compartment on the back of the remote control.
2. Slide the battery cover downwards to open it.
3. Insert two 1.5V AAA alkaline batteries, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Slide the battery cover back into place until it clicks securely.

The remote is now ready for use.

OPERATING INSTRUCTIONS

This replacement remote control is pre-programmed and ready to use with compatible Yamaha AV Receiver models. No additional setup or programming is required. Simply point the remote at your AV receiver and press the desired function button.

Compatible Models:

- RX-E600 RDS WD78360
- RDX-E600MK2
- RX-E600MK2
- DVD-E600MK2

Button Functions:

All buttons on this remote control correspond to the original functions of the Yamaha AV Receiver. Refer to your Yamaha AV Receiver's original manual for specific button functionalities.

MAINTENANCE

1. Cleaning

To clean the remote control, wipe it with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as these may damage the surface or internal components.

2. Battery Replacement

Replace batteries when the remote control's response becomes inconsistent or stops working. Always replace both batteries simultaneously with new 1.5V AAA alkaline batteries.

TROUBLESHOOTING

Remote Not Responding

- **Check Batteries:** Ensure batteries are inserted correctly with the correct polarity (+/-) and are not depleted. Replace with new batteries if necessary.
- **Line of Sight:** Ensure there is a clear line of sight between the remote control and the AV receiver's infrared sensor. Obstructions can block the signal.
- **Distance:** Operate the remote within a reasonable distance from the AV receiver.
- **Interference:** Avoid strong light sources or other electronic devices that might interfere with the infrared signal.
