JENSEN JDASHCP 7-inch Portable Wireless Dash Mount Car Stereo Radio Screen

INSTRUCTION MANUAL

Introduction

The JENSEN JDASHCP is a versatile 7-inch portable wireless dash mount car stereo radio screen designed to bring modern connectivity to any vehicle. It supports Apple CarPlay and Android Auto, enabling seamless integration with your smartphone for navigation, music streaming, hands-free calling, and messaging. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance and user experience.

What's in the Box

- JENSEN JDASHCP 7-inch Portable Wireless Dash Mount Car Stereo Radio Screen Unit
- On-Dash Suction Cup Mount
- 12V Power Adapter with integrated 3.5mm Aux Output
- External Microphone
- Optional GPS Antenna
- Quick Start Guide

Product Overview

The JDASHCP features a 7-inch LED high-resolution touch screen (1024 x 600) for clear and responsive interaction. Its clean design is both solid and lightweight, making it easy to handle and position. The unit includes backlit buttons on the front-left for power/mute, screen dimmer, and voice activation. A built-in microphone is also integrated for hands-free communication.

The rear of the unit provides essential connectivity options, including a 2.1 amp fast-charging USB input for your phone, a Bluetooth mic input, a power input, and a connector for the optional GPS antenna. The versatile mounting options allow for secure attachment to your car's dashboard or windshield, with adjustable angles for optimal viewing.

Setup

1. **Mounting the Unit:** Attach the suction cup mount securely to your vehicle's windshield or dashboard. The mount is designed for stability and adjustability.
2. **Power Connection:** Plug the 12V power adapter into your vehicle's 12V accessory outlet. Connect the power cable to the corresponding input on the back of the JDASHCP unit.
3. **Adjusting the View:** Once installed, adjust the slide on the bracket and pan or tilt the screen to achieve your preferred viewing angle.
4. **Optional Connections:** Connect the external microphone to the Bluetooth mic input on the back of the unit for enhanced call clarity. If desired, connect the optional GPS antenna to its dedicated connector.

Operating

Smartphone Connectivity (Apple CarPlay & Android Auto)

The JDASHCP supports both wired and wireless connections for Apple CarPlay and Android Auto. For wireless connection, ensure Bluetooth and Wi-Fi are enabled on your smartphone. The unit will remember your device and connect automatically when powered on and in range.

- **Wireless Connection:** From the unit's home screen, select the Apple CarPlay or Android Auto icon. On your phone, ensure Bluetooth and Wi-Fi are on. Select the JDASHCP from your phone's Bluetooth settings and follow any on-screen prompts to pair.
- **Wired Connection:** Connect your smartphone to the unit's USB input using a compatible USB cable. Select the Apple CarPlay or Android Auto icon on the unit's home screen.

Once connected, you will have seamless access to your phone's apps, maps, music, and more directly on the 7-

inch touch screen. Enjoy full-screen navigation, control your music, and utilize voice commands for a safer driving experience.

Use your smartphone assistant to control key phone features directly from the receiver's touchscreen.

Audio Output Options

The JDASHCP offers flexible audio output to your vehicle's sound system:

- **3.5mm Aux Output:** Connect the integrated 3.5mm aux cable from the 12V power adapter directly to your car's auxiliary input for crisp audio.
- **FM Transmitter:** Utilize the built-in FM transmitter to broadcast audio to your car's radio. Simply select an unused FM frequency on the JDASHCP and tune your car's radio to the same frequency.
- **Built-in Speaker:** For vehicles without a working stereo or as a standalone solution, the unit includes a built-in speaker.

USB Media Playback

The USB input on the back of the unit allows you to play MP3 audio files directly from a USB thumb drive.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior of the unit. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check the Jensenmobile.com website for any available firmware updates to ensure optimal performance and compatibility.
- **Storage:** If storing the unit for an extended period, disconnect it from power and store it in a cool, dry place.

Troubleshooting

Problem	Possible Cause	Solution
Unit does not power on	No power from 12V outlet; loose connection	Check 12V power outlet for functionality. Ensure power adapter is securely plugged into both the outlet and the unit.
Cannot connect to Apple CarPlay/Android Auto wirelessly	Bluetooth/Wi-Fi off on phone; incorrect pairing	Ensure Bluetooth and Wi-Fi are enabled on your smartphone. Go to your phone's Bluetooth settings and ensure the JDASHCP is paired and connected. Try forgetting the device and re-pairing.
No audio output	Incorrect audio source selected; volume too low; aux cable not connected	Verify the correct audio output method (Aux, FM Transmitter, Built-in Speaker) is selected on the unit. Increase volume on both the JDASHCP and your car stereo. Ensure aux cable is fully inserted. If using FM, confirm frequencies match.
Screen is too dim/bright	Brightness settings need adjustment	Use the screen dimmer button on the front-left of the unit or access display settings in the menu to adjust brightness.
Mount is not stable	Surface not clean; suction cup not properly engaged	Clean the mounting surface thoroughly before attaching. Ensure the suction cup lever is fully engaged to create a strong vacuum seal.

Specifications

- **Model Number:** JDASHCP
- **Display:** 7-inch LED High Resolution Touch Screen (1024 x 600)
- **Dimensions (Product):** 6.14 x 6.14 x 9.29 inches
