

OCTANDRA ID207

OCTANDRA Go ID207 VeryFit Smart Watch Replacement Bands User Manual

Model: ID207

1. INTRODUCTION

This user manual provides detailed instructions for the installation, maintenance, and general use of your OCTANDRA Go ID207 VeryFit Smart Watch Replacement Bands. Please read this manual thoroughly to ensure proper handling and longevity of your product.

2. PRODUCT OVERVIEW

The OCTANDRA Go ID207 VeryFit Smart Watch Replacement Bands are designed to provide a comfortable and secure fit for your compatible smartwatch. Made from durable TPU material, these bands are suitable for daily wear.

3. SETUP: ATTACHING THE BANDS

Follow these steps to correctly attach the replacement bands to your ID207 VeryFit Smart Watch:

1. Identify the band with the buckle. This band should be attached to the side of the smartwatch that contains the magnetic charging contacts.

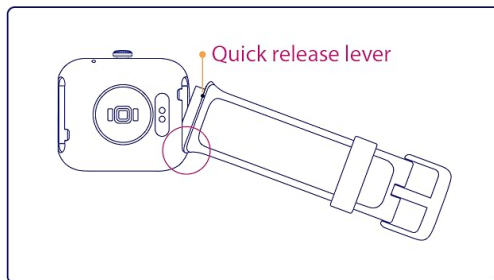

ATTACHING THE BANDS

Band with buckle should be attached to the magnetic charging contacts side of the smartwatch.

2. Gently slide the end of the band opposite the quick release lever into the slot on the smartwatch at an angle.

- 1 **Gently slide the end of the band opposite the quick release lever into the slot at an angle.**

Image: A diagram demonstrating the initial step of band attachment, where one end of the band is inserted into the smartwatch slot at an angle.

3. While pressing the quick-release lever inward, slide the other end of the band into the slot.
4. Once the band is inserted properly, release the quick-release lever. The band should click securely into place.
5. Repeat the same process for the other side of the smartwatch with the remaining band.

- 2 **While pressing the quick-release lever inward, slide the other end of the band into the slot.**
- 3 **When the band is inserted into the slot properly, release the quick-release lever.**
- 4 **Repeat the same on the other side.**

4. REMOVING THE BANDS

To remove the bands from your ID207 VeryFit Smart Watch:

1. Turn over the watch to locate the quick-release lever on the underside of the band connection point.
2. While pressing the quick-release lever inward, gently pull the band away from the watch to release it from the slot.
3. Repeat this process for the band on the other side of the smartwatch.

REMOVING THE BANDS

- ① Turn over the watch and find the quick-release lever.
- ② While pressing the quick-release lever inward, gently pull the band away from the watch to release it.
- ③ Repeat the same on the other side.

5. OPERATING CONSIDERATIONS

These replacement bands are specifically designed for the OCTANDRA Go ID207 VeryFit Smart Watch. While they may appear similar to other watch bands, compatibility is only guaranteed with the specified model. Ensure the bands are securely attached before wearing your smartwatch to prevent accidental detachment.

6. MAINTENANCE

To maintain the quality and appearance of your OCTANDRA replacement bands:

- Clean the bands regularly with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials, as these can damage the TPU material.
- Rinse with fresh water and dry thoroughly after exposure to sweat, saltwater, or chlorinated water.
- Store the bands in a cool, dry place away from direct sunlight when not in use.

7. TROUBLESHOOTING

Band does not fit the watch:

Ensure that your smartwatch is indeed the OCTANDRA Go ID207 VeryFit model. These bands are designed for specific compatibility. If you have confirmed your model and the band still does not fit, verify that you are inserting the quick-release pins correctly into the watch's lugs. If issues persist, contact customer support.

8. SPECIFICATIONS
