Reebok Women's RBK Premier Road Plus VI Sneakers User Manual

Model: 100213088

1. INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your Reebok Women's RBK Premier Road Plus VI Sneakers. Please read this manual thoroughly to ensure optimal performance and longevity of your footwear.

The Reebok RBK Premier Road Plus VI sneakers are designed for comfort, style, and performance, suitable for daily wear and light activities. They feature a blend of classic design with modern cushioning and durable construction.

Key Features:

- **Premium Construction:** Durable rubber sole and supportive upper for lasting wear.
- **Superior Performance:** Underfoot cushioning for enhanced comfort.
- **Relaxed Style:** Versatile design suitable for various outfits and occasions.
- **Retro Chic:** Classic design elements with modern technological integration.

2. SETUP

2.1 Unboxing and Initial Inspection

Upon receiving your sneakers, carefully remove them from the packaging. Inspect both shoes for any visible defects or damage. Ensure all laces are properly threaded.

2.2 Lacing Your Sneakers

The sneakers come pre-laced. For a secure and comfortable fit, adjust the laces to your preference. Ensure the laces are snug but not overly tight to allow for natural foot movement.

3. OPERATING (WEARING)

3.1 Proper Fit

Ensure your sneakers fit comfortably. There should be about a thumb's width of space between your longest toe and the end of the shoe. The heel should feel secure without slipping, and the midfoot should be snug but not restrictive.

3.2 Intended Use

These sneakers are designed for casual wear, walking, and light athletic activities. They are not intended for high-impact sports or specialized training that requires specific athletic footwear.

4. MAINTENANCE

4.1 Cleaning Instructions

- **Surface Cleaning:** Use a soft brush or cloth to remove loose dirt. For tougher stains, gently wipe with a damp cloth and mild soap. Avoid harsh chemicals.
- **Laces:** Laces can be removed and hand-washed separately with mild detergent.
- **Drying:** Air dry your sneakers at room temperature. Do not use direct heat sources like radiators or dryers, as this can damage the materials.
- **Avoid Machine Washing:** Machine washing is not recommended as it can damage the shoe's structure and materials.

4.2 Storage

Store your sneakers in a cool, dry place away from direct sunlight. If storing for extended periods, consider using shoe trees to help maintain their shape.

5. TROUBLESHOOTING

Issue	Possible Cause	Solution
Discomfort or rubbing	Incorrect sizing, improper lacing, new shoe break-in period.	Ensure correct size. Adjust lacing. Wear for short periods initially to break them in.

Issue	Possible Cause	Solution
Squeaking sound	Moisture inside the shoe, loose insole, new sole material.	Remove insole and air dry. Check if insole is properly seated. Squeaking may reduce with wear.
Excessive wear on sole	Heavy use, specific gait pattern, abrasive surfaces.	This is normal wear and tear. Consider rotating with other footwear to extend lifespan.
