## 5. SETUP

### 5.1 Charging the Device

Before first use, fully charge the device using the provided USB Type-C cable. The charging port is located on the unit. The indicator lights will show charging status.

### 5.2 Attaching Nozzles

Select the appropriate nozzle for your task. Nozzles can be attached to either the suction inlet (for vacuuming) or the air outlet (for dusting/blowing/inflating). Firmly push the desired nozzle onto the port until it is securely in place.

## 6. OPERATING INSTRUCTIONS

### 6.1 Power On/Off and Speed Adjustment

Press the power button once to turn on the device at the lowest speed. Subsequent presses will cycle through medium speed, high speed, and then standby. A long press will turn the device off completely.

### 6.2 Vacuum Function

Attach a vacuum nozzle to the suction inlet. Turn on the device and select the desired speed. Guide the nozzle over the area to be cleaned. The transparent dustbin allows you to monitor the collected debris.

## 6.4 Inflation Function

For inflating small items like swimming rings or air mattresses, attach the appropriate inflation nozzle to the air outlet. Turn on the device and allow it to inflate the item. Ensure the nozzle creates a tight seal for efficient inflation.

## 7. MAINTENANCE

### 7.1 Cleaning the Dustbin and Filter

Regularly empty the dustbin and clean the filter to maintain optimal suction power. Twist the dustbin

counter-clockwise to detach it from the main unit. Remove the filter and tap out any accumulated dust. The filter can be rinsed with water; ensure it is completely dry before reassembling.

## 7.2 Battery Care

To prolong battery life, avoid completely draining the battery frequently. Charge the device when the battery indicator lights are low. Store the device in a cool, dry place when not in use for extended periods.

## 8. TROUBLESHOOTING

If you encounter issues with your Yomile Mini Vacuum Cleaner & Air Duster, refer to the following common solutions:

- **Device not turning on:** Ensure the battery is charged. If fully charged, try a long press on the power button.
- **Weak suction/airflow:** Check if the dustbin is full or if the filter is clogged. Clean the dustbin and filter as described in Section 7.1. Ensure nozzles are securely attached and not blocked.
- **Device not charging:** Verify the USB cable is properly connected to both the device and a power source. Try a different USB port or adapter.

If the problem persists, please contact customer support.
