SETUP AND ASSEMBLY

Assembly typically requires two people and takes approximately 1.5 hours. All necessary tools and numbered parts are included. Follow these steps carefully:

1. **Unpack and Identify Parts:** Lay out all components on a soft, clean surface to prevent scratches. Refer to the parts list in your manual to identify each piece.
2. **Assemble Headboard and Footboard:** Attach the vertical spindles and decorative orbs to the main frame of the headboard and footboard using the provided hardware.
3. **Attach Side Rails:** Connect the side rails to the headboard and footboard. Insert bolts and half-tighten them initially to allow for adjustments.
4. **Install Support Legs:** Secure the central support legs to the frame. Ensure they are aligned properly to provide even weight distribution.
5. **Insert Slats:** Place the twenty-four slats into the designated slots on the side rails. Ensure each slat is firmly pressed into place to secure it. The slats are spaced 5.3-5.7 inches apart.
6. **Reinforce Joints:** Utilize the T-shaped brackets to reinforce critical joints for enhanced stability.
7. **Final Tightening:** Once all parts are aligned and in place, fully tighten all bolts and screws using the provided Allen wrench. Do not overtighten.
8. **Add Rubber Caps:** Attach the bottom rubber caps to the legs to protect your floor from damage.
