OPERATING INSTRUCTIONS

Making and Receiving Calls

- **To Make a Call:** Lift the handset or press the **HANDS-FREE** button, then dial the desired number.
- **To Receive a Call:** Lift the handset or press the **HANDS-FREE** button when the phone rings.
- **Hands-Free Calling:** Press the **HANDS-FREE** button to activate speakerphone mode. Press it again to end the call or lift the handset to switch to private mode.

LCD Display Functions

The LCD displays important information such as the current date and time, call duration, and incoming caller ID (if subscribed to caller ID service).

Image: A detailed view of the phone's keypad and the LCD screen, which displays call information and settings.

Setting Alarms

The phone supports up to three distinct alarms. Refer to the on-screen menu using the **SET** and **UP**/**DOWN** buttons to configure alarm times and tones.

Speed Dial

Store frequently called numbers for quick access. Consult the menu for instructions on programming speed dial entries.

5-group Speed Dial Numbers

## Allow you to store frequently-used numbers in case of emergency.

Image: Visual representation of the phone's capability to store and utilize 5-group speed dial numbers for convenience.

MAINTENANCE

- **Cleaning:** Wipe the phone with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Avoid Liquids:** Keep the phone away from water and other liquids.
- **Temperature:** Operate and store the phone in a moderate temperature environment.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No dial tone	Telephone line cord is not connected properly.	Ensure the telephone line cord is securely plugged into both the phone and the wall jack.
LCD display is blank	No power from the telephone line.	Check the telephone line connection. If the issue persists, contact your telephone service provider.
Cannot hear caller / Caller cannot hear me	Handset or hands-free volume is too low; faulty cord.	Adjust the volume. Check handset cord connection. If using hands-free, ensure you are close to the microphone.

Problem	Possible Cause	Solution
Caller ID not displayed	Not subscribed to Caller ID service; service issue.	Contact your telephone service provider to ensure Caller ID service is active.
