## 2. Bluetooth Connection (iOS & Android)

Follow these steps to connect your Koiiko Mobile Gaming Controller via Bluetooth:

Your browser does not support the video tag.

Video: This video demonstrates the iOS Bluetooth connection guideline and shows gameplay with the Koiiko Mobile Gaming Controller. It illustrates how to pair the left and right controllers with an iOS device.

### 1. For iOS Devices (iOS 13.4+):

- On the left-hand controller, press the D-Pad key "Down" + "Home" for 2 seconds. The left-hand controller LED will flash blue in pairing state, then show a blue breathing light for successful pairing.
- On your iOS device, go to Settings > Bluetooth and select "Xbox Wireless Controller" to connect.
- After completing left-hand controller pairing, on the right-hand controller, press the "Home" button for 2 seconds. The LED of the right-hand controller will flash blue, and it will automatically pair with the left-hand controller.

- You can now use both the left and right-hand controllers simultaneously.

## 2. For Android Devices (Android 6.0+):

- For games like Call of Duty Mobile, APEX Legends Mobile, Honkai Impact 3: Turn off the controller, then press the connection mode button (refer to controller diagram for specific button) to connect. The Bluetooth name will be "MOCUTE-061F".
- For other controller-supported games in Google Play: The Bluetooth name will be "Xbox Wireless Controller".
