INFRAOVENS 10.21" x 9.47" Air Fryer Rack and Liner Set

INFRAOVENS Air Fryer Dehydrator Rack and Liner Set User Manual

Model: 10.21" x 9.47" Air Fryer Rack and Liner Set

INTRODUCTION

Thank you for choosing the INFRAOVENS Air Fryer Dehydrator Rack and Reusable Liner Set. This product is designed to enhance the versatility and ease of cleaning for your compatible air fryer oven. The set includes a durable stainless steel rack and various reusable mats for different cooking and dehydrating needs.

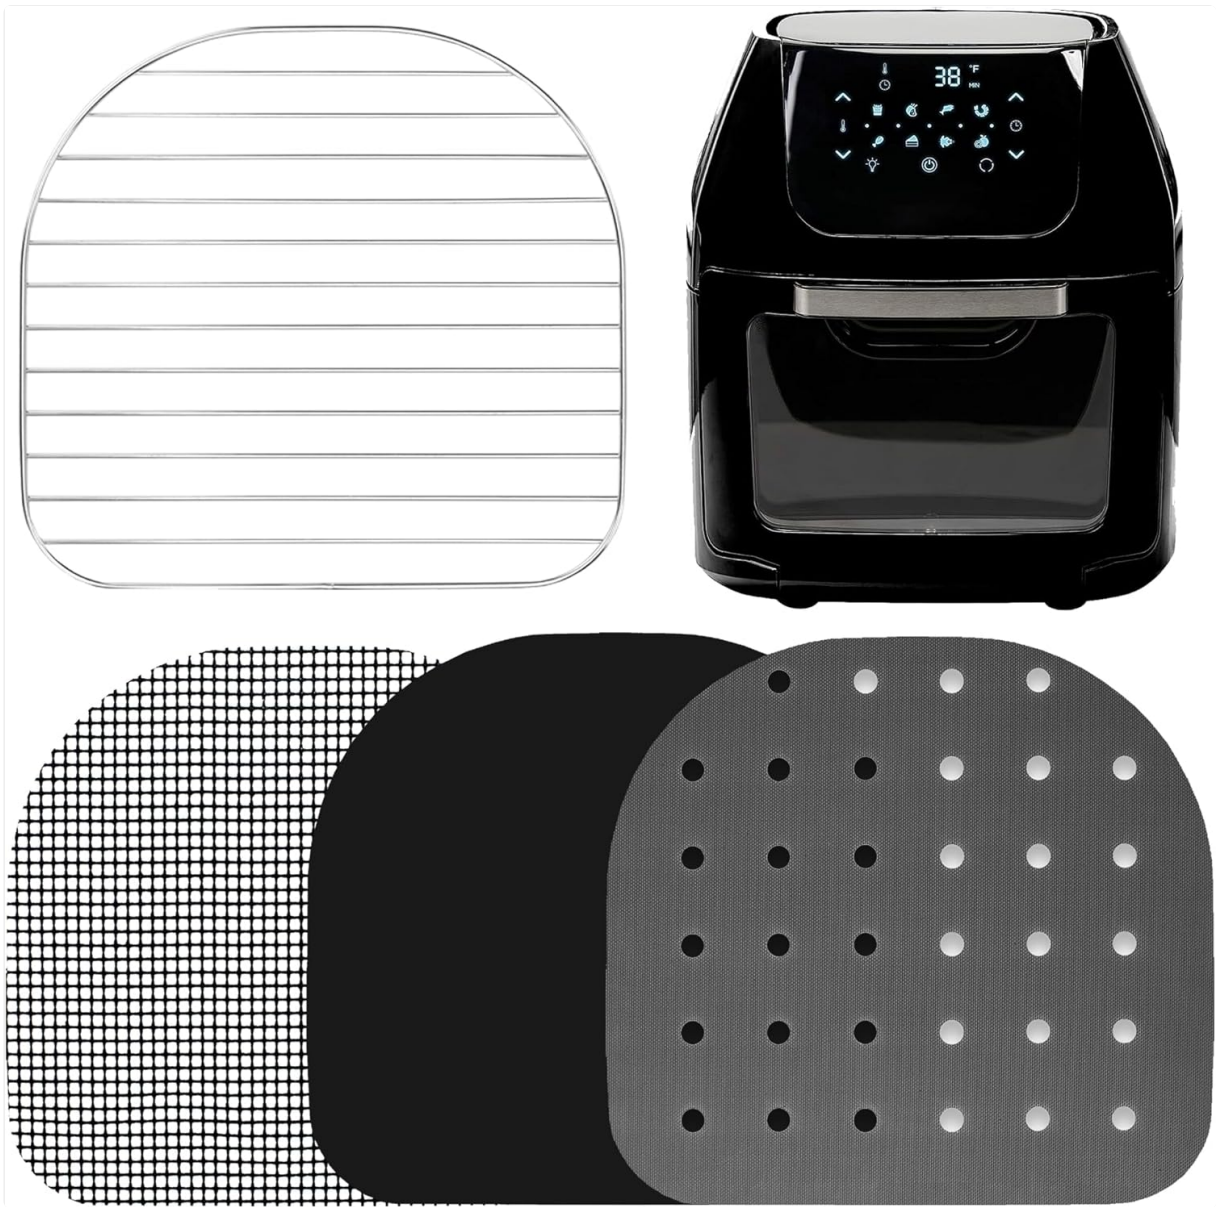

Image: The complete INFRAOVENS Air Fryer Dehydrator Rack and Liner Set, including the stainless steel rack, mesh mat, grilling mat, and perforated mat, alongside a compatible air fryer oven.

PRODUCT COMPONENTS

- **Stainless Steel Rack:** A durable, rust-resistant rack designed for air frying and dehydrating. Its wider spacing facilitates easier cleaning compared to traditional mesh racks.
- **Reusable Grilling Mat:** A non-stick, PFOA-free fiberglass mat ideal for cooking liquid or stickier foods, and for catching drippings to keep the air fryer clean.
- **Reusable Mesh Mat:** A non-stick, PFOA-free fiberglass mesh mat specifically designed for dehydrating and cooking smaller food items, preventing them from falling through the rack.
- **Reusable Perforated Mat:** A non-stick, PFOA-free fiberglass mat with perforations to allow air circulation while protecting your air fryer and rack, suitable for various cooking tasks.

COMPATIBILITY

This rack and liner set is designed to be compatible with a range of air fryer oven models. Please verify the dimensions of your air fryer's interior and existing trays to ensure a proper fit. The dimensions of this product are **10.21 inches x 9.47 inches**.

Known compatible models include, but are not limited to:

- Chefman 6.3 QT Digital Air Fryer
- Caynel 6 QT Air Fryer
- PowerXL Air Fryer Oven/Pro (10QT) Model: CM-001
- Power AirFryer Oven/Pro (8QT) Model: CM002
- Power AirFryer Pro Plus (6QT) Model: CM003
- PowerXL Vortex Air Fryer Pro (10QT) Model: CM-005, CM-007
- PowerXL Vortex Air Fryer Pro Plus (10QT) Model: CM-006
- Power AirFryer Pro (6QT) Model: CM001-V2

INFRAOVENS®

COMPATIBLE WITH

- PowerXL™ Air Fryer Oven/Pro
- PowerXL™ Vortex Air Fryer Pro
- PowerXL™ Vortex Air Fryer Pro Plus
- Power AirFryer Pro
- Power AirFryer Pro Plus
- Power AirFryer Oven/Pro

CHECK THE LISTING FOR SPECIFIC MODELS. PLEASE MEASURE YOUR CURRENT TRAYS WELL TO AVOID THE HASSLE OF RETURNING!

SETUP & INSTALLATION

The INFRAOVENS rack and liners are designed for easy integration into your compatible air fryer oven. Always ensure your air fryer is unplugged and cool before handling internal components.

1. **Rack Placement:** Slide the stainless steel rack into the designated slots within your air fryer oven. Ensure it is securely seated on the support rails.
2. **Liner Selection:** Choose the appropriate reusable mat based on your cooking needs:

- **Grilling Mat:** Place this mat directly on the bottom tray or rack to catch drippings from liquid or stickier foods, or for direct cooking of items like burgers.
 - **Mesh Mat:** Lay this mat on top of the stainless steel rack when dehydrating or cooking smaller items that might fall through the rack's grates.
 - **Perforated Mat:** Use this mat on the rack to protect the air fryer while allowing air to circulate, suitable for various fried or baked items.
3. **Secure Placement:** Ensure the chosen mat lies flat on the rack or tray to prevent interference with air circulation or cooking.

INFRA OVENS®

THE GRILL MAT

ALSO WORKS AS A BASE PROTECTOR THAT CATCHES ALL FOOD DRIPPINGS AND KEEPS YOUR BOTTOM TRAYS CLEAN AND FREE FROM RESIDUE!

OPERATING INSTRUCTIONS

Once the rack and desired liner are in place, you can proceed with cooking as you normally would with your air fryer oven. These accessories are designed to optimize your cooking experience and simplify cleanup.

- **Cooking:** Place your food directly on the stainless steel rack or on the chosen reusable mat. Follow your air fryer's specific instructions for temperature and cooking times.
- **Dehydrating:** For dehydrating, especially smaller items, utilize the mesh mat on the rack. This prevents small pieces from falling through while allowing proper air circulation for drying.
- **Protection:** The reusable mats act as a barrier, protecting your air fryer's internal surfaces from food residue and making cleanup significantly easier.

MAINTENANCE & CLEANING

Proper cleaning ensures the longevity and hygiene of your INFRAOVENS accessories. Both the stainless steel rack and the reusable mats are designed for easy cleaning.

- **Stainless Steel Rack:** The rack is made of durable stainless steel that resists rust, peeling, and flaking. It can be hand-washed with warm soapy water and a non-abrasive sponge, or placed in the dishwasher for convenience. The wider spacing of the grates helps prevent food from getting stuck, simplifying cleaning.
- **Reusable Mats:** All included reusable mats (grilling, mesh, perforated) are dishwasher safe. For hand-washing, use warm soapy water and a soft sponge. Ensure mats are completely dry before storage.
- **General Care:** Avoid using harsh abrasive cleaners or scouring pads on any component, as this may damage the surfaces.

TROUBLESHOOTING

Issue	Possible Cause / Solution
Rack/Mats do not fit in my air fryer.	Cause: Incompatible air fryer model or incorrect dimensions. Solution: Double-check the dimensions of your air fryer's interior and compare them with the product dimensions (10.21" x 9.47"). Refer to the "Compatibility" section for a list of known compatible models. Ensure you have measured your current trays accurately.
Food sticks to the mats.	Cause: Insufficient preheating, high sugar content in food, or lack of light oil/spray (if applicable to recipe). Solution: Ensure the air fryer and mat are adequately preheated. For some foods, a light spray of cooking oil on the mat can prevent sticking. Always clean mats thoroughly after each use to remove any residue that might cause sticking.
Mats appear flimsy or not sturdy.	Cause: Misconception of material. The mats are made of flexible, PFOA-free fiberglass designed for heat resistance and non-stick properties, not rigid support. Solution: The mats are intended to be placed on the sturdy stainless steel rack or the air fryer's existing tray for support. Their flexibility is normal and allows for easy handling and cleaning.

SPECIFICATIONS

- **Product Dimensions:** 10.21 inches (length) x 9.47 inches (width)

- **Package Dimensions:** 10.24 x 9.57 x 0.71 inches
- **Item Weight:** 7 ounces
- **Material:** Stainless Steel (rack), PFOA-free Fiberglass (mats)
- **Dishwasher Safe:** Yes (all components)
